INDORSEMENTS.

The laws relating to the transfer of Indian children from reservations and schools are as follows:

That hereafter no Indian child shall be sent from any Indian reservation to a school beyond the State or Territory in which said reservation is situated without the voluntary consent of the father or mother of such child if either of them is living, and if neither of them is living without the voluntary consent of the next of kin of such child. Such consent shall be made before the agent of the reservation, and he shall send to the Commissioner of Indian Affairs his certificate that such consent has been voluntarily given before such child shall be removed from such reservation. And it shall be unlawful for any Indian agent or other employee of the Government to induce, or seek to induce, by withholding rations or by other improper means, the parents or next of kin of any Indian to consent to the removal of any Indian child beyond the limits of any reservation. (28 Stats., p. 906.)

Provided, that hereafter no Indian child shall be taken from any school in any State or Territory to a school in any other State against its will or without the written consent of its parents. (29 Stats., p. 348.)

The rules provide that—

A pupil who has been regularly enrolled in a nonreservation school must not be taken to any other nonreservation school without the consent of both Superintendents and the Commissioner of Indian Affairs, and Superintendents will be held to strict accountability for such pupils taken to their schools.

An Indian boy or girl 18 years old and over may, without the consent of parents or others, personally sign the application form on its being changed to suit the case.

This form is to be used only in transfers from reservations, or Indian schools, to nonreservation schools.

Suggestions for Supplying the Information Requested on this Blank.

1. The report of Non-reservation School Superintendents should be made at the time or a little before the pupil leaves school, whether at the end of the school year or during the year, provided the pupil is 18 years of age and over, or younger, if for any special reason the pupil is quitting school permanently. As soon as this report is received, or at least very soon after the pupil returns home, the Supervisor of Indian Employment will correspond with him, for the purpose of getting more in personal touch with the returned student, and finding out something about his wishes etc. The answer to this letter when received will be attached to and filed as part of this report.

2. Health, height, and weight of returned students are sometimes very essential in placing them properly, but height and weight could be approximated very satisfactorily, though from the pupil records now being gotten up, all information called for in part 1, of this blank, could readily be secured and be definite.

3. The State, Agency, and Tribe are important, and where the pupil is not attached to any agency, this fact should be stated as "no agency," and in such cases the Superintendents should give all available information as to the home and local conditions surrounding the pupil.

4. Where the out-going pupil has passed the Civil Service Examination for any position, this fact should always be noted, giving position for which examination was taken.

5. It should be remembered that the Supervisor of Indian Employment can but seldom have a personal acquaintance with the out-going student, and that he must depend on the information furnished in this report for his basis of action in behalf of the pupil.

6. The degree of Indian blood should always be stated, as this fact largely determines the amount of efforts that will be made on behalf of any particular returned student: Qualifications being equal or even nearly so, the preference will be given to those having the greatest degree of Indian blood.

7. This report should be forwarded promptly to the Supervisor of Indian Employment, Denver, Colorado.

8. Reports on out-going students from Reservation Schools, are made only on pupils leaving the school who are 18 years old or over, and who will probably not go away to school.

9. If Part 1, of this report is made out by the Principal of the Reservation School, the Agent or Reservation Superintendent should supply information called for in Part 2, if the Principal has not the necessary information on home surroundings and local conditions. Information in regard to home surroundings and local conditions is very essential to properly understand the pupils' difficulties and needs.

10. When Part One is made out by Non-reservation Superintendents, this blank will be sent by the Supervisor of Indian Employment to the Agent or Superintendent of the Reservation, where the out-going student belongs, to have Part 2 filled out. This should be filled out and returned to the Supervisor of Indian Employment, Denver, Colorado, as promptly as possible, for, practically nothing can be done, till the receipt of this blank, with Part 2 filled out by the Reservation authorities. The information "Employed since return as follows," will be valuable only in cases where the pupil has been home for some time.

Mrs. Gibson's home is a beautiful one about 2 mi. out from 69th St., Phila. Mrs. Gibson was not at home but her sister was. If Mrs. Gibson is at all like her sister I should judge the home would be a very happy one for a girl. Ruth is very irresponsible but said she was lonesome. Thought she might like a transfer. True there is no other Indian girl near her but her surroundings are so beautiful and her work not heavy and then she had been there only since July 1st there is really no reason why she should be transferred. I think she has decided to see all the bright side and get better acquainted with Mrs. Gibson and her sister. When she does I think Ruth will like her home very much.

My dear Friend:

I have received your letter of the 19th instant and have noted that you would like to return to Carlisle next fall to resume your studies with a view of completing the course of work here.

Undoubtedly you have noticed in the ARROW that a new course of work is being put into effect. For that reason we will not graduate a class this year and that would require you to do additional work too before a diploma could be given you.

Your letter was referred to our Principal Teacher, Mr. DeHuff, and I am having copied below for your information his report:

"We could not guarantee her admission to the 1917 class. When she left here, she had just finished the first half of Grade VII. If she has been in school since that time, we could arrange to give her credit for what she has done. If not, we could admit her to Grade VIII, or Second Year Vocational class. Ordinarily, it would take her three years to get her diploma.

which would throw her into the class of 1919. This is the best I can say, owing to meager knowledge of all the facts in the premises."

Special authority would have to be secured from the Office at Washington to admit you again to Carlisle because of your age, but if you desire to resume your studies it can be arranged to enroll you. Under a separate cover I am having a copy of our school catalogue mailed to you which contains information about the work now required. On pages 39 to 51, inclusive, you will find an outline of the work that must be completed for graduation.

Hoping I can be of further service, I remain,

She has been impertinent to me a number of times and is altogether unpleasant to have around. Sadie's conduct varies but she is usually disagreeable and has been impertinent. They are both absolutely indifferent as to whether they please me or not. Two days ago Sadie asked directly after luncheon whether she could go to mail a letter before doing her afternoon work. The post-office is about fifteen minutes walk from our home and she should have been back in half an hour. She started away a little after two o'clock never returning until six. When I inquired where she had been all that time her reply was that she had met one of the girls.

insolent as does Mr. Douglas.

The girls bot : a great
deal of time to themselves
after going to their rooms
immediately after the lunch
dishes have been put away,
about two o'clock, not having
anything more required of them
until it is time to prepare
the supper. They always have
two hours to themselves in the
afternoon, that is with one or
two exceptions, when there was

special work to be done. My patience
is exhausted and I should like to
have the girls return to the School
as soon as possible.

Hoping to receive an early reply
from you and that Miss Johnston
will come for the girls in a few
days,

Very truly

(Mrs. J. B.) H. H. Douglas.

Dear Mr. Friedman:

Ruth Moore will return to Carlisle on Thursday, Aug. 7th leaving Phila. at 11:35 A. M.

Ruth is returning with a bad report. You will have Mrs. Douglass' letter. I did not see Ruth but met Mr. Douglass at the station. As I understand the situation and believe it to be the truth, Ruth has been exceedingly hateful, doing very little except helping with the ironing, will take no responsibility whatever. Her work was to care for the children but she pays no attention to them, stands or sits idly gazing around her, is impolite and rude in her replies, remains away for hours when she goes to mail a letter, seems to want to exasperate in every way so she will be sent back. Now I know Ruth can be all of this, if she wants to be. True I am aware that her disposition is one not qualified for her present home but she wanted this her last chance on the Outing. Well, she has had it as I believe she expects to go home in the fall. Her room at 8:30 this morning was still locked - Ruth had not come down. Mrs. Douglass has put up with her indifference long enough and I have no other home for her so she will have to return. I'll be at Broad St. to see she gets on the train all right

Mr. Longlass feels Sadie's better nature will assert itself if Ruth is out of the way. I am arranging to have Christine Metzger take Ruth's place.

Another item about Ruth - she is not contented unless she is "going some where and spending money." She has no idea of the value of money or time nor does she care to learn. Simply wants to exist and spend her money.

At Carlisle where they are not stinted with the use of light, water, heat or anything else, they have no idea of economy and do not like to be cautioned about these things in the country.

Very respectfully,
Lida M. Johnston.

Dear Mr. Friedman:-

While at leisure for
few minutes I will write
to let you know how I
am. I had a safe journey
but sorry to say that
I found my brother and
wife very sick in bed.

My brother is very help-
less but since I've been
home the cousins of
ours say he's been

much brighter and
he ate a hearty meal
the first meal I had here.

So I think he's getting
better every day. And
now I want to ask if
you please send all
my money to the agency
as I need it very much
to help my brother along.

At first I was going
to send him to the hospital
but he thinks he will
be all right soon.

I am well so far
and will not stay home.
