Dear Sir:

In re per capita payment due Hill Downing,
a Cherokee Indian.

Houston Downing, the father and legal guardian of Hill Downing has had paid to him the \$12.00 per capita payment due his ward, Hill Downing.

Houston Downing is a sort of shiftless and improvident man, so I thought it best that this money be sent to you to be delivered to Hill in order that he might realize the benefits of it. I have been informed that this minor is attending school at Carlisle.

The guardian told me that his ward was coming back home in a short while, and if he has left there before this letter reaches you and you do not get to deliver this draft for \$11.90 which I herewith transmit, please return same to me. And in the event that you do deliver it to him, please take a receipt therefor and return to me.

INDORSEMENTS.

The laws relating to the transfer of Indian children from reservations and schools are as follows:

That hereafter no Indian child shall be sent from any Indian reservation to a school beyond the State or Territory in which said reservation is situated without the voluntary consent of the father or mother of such child if either of them is living, and if neither of them is living without the voluntary consent of the next of kin of such child. Such consent shall be made before the agent of the reservation, and he shall send to the Commissioner of Indian Affairs his certificate that such consent has been voluntarily given before such child shall be removed from such reservation. And it shall be unlawful for any Indian agent or other employee of the Government to induce, or seek to induce, by withholding rations or by other improper means, the parents or next of kin of any Indian to consent to the removal of any Indian child beyond the limits of any reservation. (28 Stats., p. 906.)

Provided, that hereafter no Indian child shall be taken from any school in any State or Territory to a school in any other State against its will or without the written consent of its parents. (29 Stats., p. 348.)
