June 20, 1917.

Mr. John Francis, Jr.

Dear Mr. Francis.

Heretofore, it has been my intention to write a few lines of words to you, therefore this morning it is with much pleasure that I have this opportunity of writing.

Even or twelve weeks has elapsed since my arrival at the Sanatorium and today I find myself gradually progressing with every indication of recovering and regaining my health and strength back.

The change of climate and surrounding in my opinion has done me much good with respect to my health in general.

No doubt you are fully aware

II

and have knowledge that at the time of my illness I was - employed by the Bethlehem Steel Company of South Beth, Penna. I am now receiving twenty-dollars per month from the said company through my illness which has resulted in total disability.

The other day I received a check to the amount of fifty dollars from the said company and I have started a saving account of fifty dollars with the Toledo Saving Bank, interest at - four per cent.

It is my firm intention to deposit at this bank every dollar I received from the Steel Company. I have sixty-one or sixty-six dollars in your bank at school, I

^{III}
wish to know is there any
interest and how much of this
money? Providing there is
no interest or interest less
than four per cent, please
kindly forward the money to
this Sanatorium.

Mr. Francis, I would like to have
a senior Arrow send to me,
I would be very glad to have
one and oblige.

In conclusion I wish you every
success in your work.

I remain, Sincerely & Respectfully.

Dear Joe:

I am delighted to receive your letter of Sept. 20, 1917, and know that you are getting along so fine.

Bless your heart it was such good news it has made me happy all day.

I am going to give you a little advice, Joe, which I do hope you will take. It is very important that you comply with the physicians wishes. Do try to curb the natural desire that you will undoubtedly have to rush away from the institution, and get back to work. Take your time boy. If you stump your toe now, you may roll down to the bottom of the hill, which has been hard for you to climb. Do exactly as you are advised, and do not head strong, and decide that you are well because you feel good. Give the doctors a chance to do everything that they can for you, and in the end you will get strong.

Very truly yours,

Superintendent.

Second - To conquer and face alone the problem of existence and self-supporting.

Third - To be loyal and faithful to the institution where I received my training and education, and in upholding its standards.

Fourth - To be useful and a recognized citizen of the United States of America.

In spite of all the circumstances I am neither depressed, frightened nor dismayed, rather I am like a bird which has tried and found its wings strong and reliant and is yearning to fly higher and higher until the pinnacles

I firmly set myself back to prepare myself for something better in life.

Seeing the opportunity of entering the privilege of entering the Electrical Engineering class at Lehigh University, classes been held during the evening 7 to 10.00 p.m.

I applied to Prof. Hughes for examinations.

I failed to pass the entrance examinations but not the least discouraged I immediately sought for a tutor to prepare me and received private lessons, on subjects Algebra and Geometry.

I took keen interest in learning the electrical trade, as well as in other studies that I undertook. I left your institution Jan. 1916 for Bethlehem Pa and through the assistance of Mr. Dicky, your outing agent I secure employment in the Electrical Department of the Bethlehem Steel Works.

At the beginning I had difficulty in holding the job down as I had too little experience on electrical work.

The scanty knowledge I had of electrical work, I knew it well.

Finally after several days trial, I made good.

Dear Mr. Francis: -
It has been my intention of writing this letter heretofore, but the condition of my health had prevented me of doing so.

Therefore this afternoon it is with keen interest that I commence writing this letter.

Eight weeks has elapsed since my arrival at the State Sanatorium. To-day I find myself progressing splendidly and gradually recovering in health.

I find the Sanatorium a very pleasant, cool, comfortable and a magnificent institution.

Mrs. Hannah Stevens

Dear Madam:

I am in receipt of your letter of August 31, 1917, in which you request that Joseph Denny who is now a patient at the State Sanitarium at Mt. Alto, Pa. be returned to you.

In response you are advised that Joseph has just informed me that he is getting along fine at the sanitarium. I would not for one moment suggest that he leave this institution until the Medical authorities at the head are willing for him to go. Joseph has a real case of tuberculosis. Last winter we thought he had pneumonia, while working at Lebanon, Pa. at any rate he returned to the school a very sick boy. By careful treatment he was built up and sent to a government sanitarium at Toledo, Idaho. Here he seemed to improve quite rapidly but objected to certain restrictions placed upon him, so he left and returned here.

When he arrived here, although he had improved at the sanitarium, it was apparent that the trip had given him a set back, and arrangements were made for him to go to Mt. Alto, where he presumably is getting along fine. He should be left there until the doctors are willing for him to leave. I cannot too strongly impress upon you the fact that Joseph is now making a fight for his life, and for me or any of his relatives to urge him to leave the institution where he is receiving the best scientific treatment would be very much like signing Joseph's death warrant.

I urge you, therefore to assist me in making Joseph satisfied in remaining at Mt. Alto, and receiving the treatment there.

Very truly yours,

I am writing you
a few lines as I am in
receipt of a letter from
my nephew Joseph Denny
who is at the state sani-
torium at present and
wishes very much to
return to his relatives,

fer to have him return
to me.

I certainly appreciate his kind treatment and excellent good care while at the sanatorium but I do think that a change of coming home would do him immensely good and perhaps the climate of Wisconsin would be best suited for him.

I hope Mr. Francis you will consider this matter very carefully and you yourself will realize that the change in conditions will certainly do him much good.

and very likely he will
recover to some extent.

Hoping to hear from
you by return mail and
hope you will grant my
request, I am,

Yours Respectfully,

My dear Dr. Russell:

My dear Mr. Russell:-

Joseph Denny returned to Carlisle promptly. I have him here in the hospital until next Tuesday when I propose to take up, with the local physician of the State Board of Health, the question of permitting Joe to enter a State Sanatorium where he will probably be required to pay for his care.

He has consented to do this. I wish to thank you for what you have done for him and congratulate you on the improvement in his condition. The doctor tells me that Joe has no temperature, does not cough, and that his lungs are in fair condition, presenting a very marked improvement over his condition when he left us.

Last Saturday he went to town, a distance of a mile.

I have talked pretty straight to Joe and explained to him that it will be very easy for him, through his own foolishness, to pronounce a death sentence upon himself, while if he behaves himself he probably will be better.

My dear Mr. Francis:-

Joseph Denny who came from Carlisle as a patient took French leave Monday without leaving his address intending, I understand, to return to Carlisle.

Joe when he first came was in bad shape, was a very good patient and made fine progress accordingly. Of late however he has been disposed to be willful and use his judgment instead of mine as to what was best for him.

Last Saturday he went to town, a distance of a mile, contrary to my advice so I brought the matter to an issue and informed him that he had better go some place else if he intended to break the rules. I presume this is the reason why he left.

This boy, at the time he went to town, had a pulse of 120 evidence that his condition was not good and that bed was the proper place for him.

We have had quite a little difficulty in handling willful patients and have learned to our sorrow that such patients do not do well here and I have concluded that in

the future they must obey the rules implicitly or move on.

Denny seemed a nice boy and I regretted to see him go for the present is the only opportunity he will have to get well. If he shows up at Carlisle I would suggest ~~that~~ since he has money coming to him from a benefit society, that he use such money to defray his expenses in a sanatorium where, realizing that he is paying for treatment he might be disposed to put up the proper kind of a fight.

Joseph has decided that he can leave here on Wednesday of this week. I will arrange to send him on the train leaving Carlisle at 5:38 Wednesday evening, which will get him in Toledo early Friday morning. Will you please have him met on the

My dear Mr. Francis:

I have your letter of April 3rd, regarding the patient, Joseph Denny, and beg to say in reply thereto that I will reserve a bed for this young man, but do not think it advisable to subject him to the change from Carlisle to Toledo, just now; for I believe that the hard journey will do him more harm than the change of climate will good.

Cases of tuberculous pneumonia, with a history like Denny's usually prove fatal in spite of treatment. If this boy, however, was well before he developed pneumonia, I would suggest that before transporting him the conditions of empyema and pulmonary abscess be excluded. If his sputum is positive for tubercle bacilli this of course will settle the diagnosis.

Cases which are benefitted by treatment here are not as a rule so very urgent, so I am suggesting that Denny be held at Carlisle until the diagnosis is definitely established and the need of sanatorium treatment proved.

Mrs O. H. Lipps,

In answer to communication rec'd. this morning, will say that all the cases in hospital are convalescent, and only five pupils are confined to bed.

In my opinion Joseph Denny should be transferred to a sanatorium, preferably to a dry climate. He is improving but this climate is not suitable to him. He gives a negative reaction to tuberculin tests, but has inflammatory conditions of whole respiratory tract.

Respectfully
J. M. Smith, M.D.

Mr. John B. Brown
Superintendent Indian School
Phoenix, Arizona.

My dear Mr. Brown:-

I write to know if you have room in your hospital for Joseph Denny, one of our Oneida boys who is failing in health. He was working under the cutting in the Bethlehem Steel Works, Electrical department, until about two weeks ago when he had a severe hemorrhage of the lungs and had to be brought back to the school. Our physician recommends that he be sent to a sanatorium located in a dry climate. He is a splendid young man, very ambitious and I would like to help him get to a place where the fight for his life would not be such up-hill work as it would be here. I think Phoenix is the place for him if you could arrange to make room for him. He is 24 years of age.

Very truly yours

Superintendent.

Dear Mr. Francis: -

It gives me great pleasure to have this opportunity of writing and notifying you of my safe arrival home.

It is indeed a pleasure and satisfying gladness and comfort to be home again.

I found the climate here a great change, the weather here is dry cold, and the days clear and less changeable.

I wish to relate an incident that took place on my homeward journey, while yet traveling on the Penna. line to Chicago.

The ~~excellent~~ was this, a porter ~~on~~ employed on the Pullman train, in the sleeping car, approached me, with a gentle and begging ~~an~~ interrogative command, after he had approached six other men with the same question. Questioning wheather I had any knowledge in electrical work, stating that there was something wrong with his Switch Board, as the circuit and lights in the Ladies Department have been defected, the other men had tolded him the trouble was in the Switch Board and they had been unable to adjust the defective part as

at they were unable to get it. As the porter had said the lights have gone out on a certain circuit, my first move was to examine the fuse plug on the Switch Board, that was O.K. I then throw in the switch and examined the globe that was O.K. my next move was to secure a globe with a socket and short lamp-cords attached to the globe. I found an open circuit on the line and easily adjust it with a plier and screw driver. As a result a five dollar bill was forcibly placed on my person, after only ten minutes work, first received this knowledge from your faithful instructor Mr. Weber.

Mr. Francis, please put
forward me the balance
my money so deposited
in the School Bank, and
much oblige.

May all your plans and
wishes come true in this

Your letter dated November 8, 1917 comes to me for attention. In this letter you state that you have so improved in health that you feel able to do work of some kind now, and want to know if we have something here for you to do. If there is nothing here, you want to know if something can be found elsewhere in the Service for you.

I am very sorry that we have nothing here which we have to offer you. If you want to get into the Service elsewhere, it will be necessary for you to put in an application to the Indian Office, stating the kind of work you seek. As a physical examination is required, you must be sure of yourself along that line before you make application.

It seems to me, Joseph, that this is not a very good time of the year for one in your condition to start out to work. Why do you not wait until spring when the chances for escaping colds are so much better? Spring would be a good time for you to get on a farm where you could do light farm work. This would be my advice to you.

Very truly yours

Last Thursday afternoon I
was examined by the head
doctor of the hospital staff.
stating that my lung has
greatly improved since
my arrival and also -
finds no sore spots on
my lung, the moisture
in the lung has about
all dried away.

In general he states, I am
in good condition.

I asked him if I were in
physical condition to
resume my trade in

the Steel Works.
He strongly advises me to
keep away from the
Steel Works as it would
be dangerous to my
health and most likely
cause a sudden and
a complete relapse.

The doctor states at this time
work, of a light char-
acter, would be of much
beneficial to me, providing
I strictly lead a re-
gulated daily life and
have sufficient interest
in my own welfare to
follow instructions faith-
fully.

Mr. Francis, I, again come

desirous of obtaining

Any miscellaneous work I

services which you may
render me shall be great-
ly appreciated, I assure
you. I would like to

mediately after Thanks-

My land and additional
purchase of oil shares in

and for other useful
purposes. Thanking you warm-
ly for valuable help in the past.
Awaiting your further esteem-
ed favors.

Mr. Joseph Denny.

Oneida, Wisconsin

Dear Friend:

I have your letter and regret very much that
I will not be able to comply with your request
that I loan you Two Hundred Dollars. I have no
school funds from which I could do this very well,
and I am unable to do it personally because of the
many demands upon my income at this time.

Very truly yours,

D-E

Superintendent

May 14. 1918.

Mr. John Francis J. Supt.

Ind. School, Carlisle, Pa.

Dear Mr. Francis: -

It is with great pleasure
and the opportunity that I
take the liberty of writing to
you this afternoon.

In health I am very thank-
ful and glad to say since
I have returned home
and ^{with} the change of climate

I have been greatly benefited in health both soul and body. My health has improved to such extent that I am able to do a work of light character.

The weather is very ideal. The farmers are busily engaged in plowing and planting.

Mr. Francis, I again come to you for your valuable ass.

I have an uncultivated land of twenty-six acres I am to sell this year and purchased a smaller land, all cleared and house

upon it.

I have unexpectedly run short of funds. Mr. Francis, can you oblige me with a loan of two-hundred dollars for a period of one year, interest on loan to be fixed by you, by that time I shall be in good shape financially and you can count upon the return of the sum with interest, by the end of one year or less, without fail.

I am sadly in need of money, I wish to use the money for the improvement of

of my land and additional
purchase of oil shares in
the Mary Owens Oil Co.
and for other useful
purposes. Thanking you warm-
ly for valuable help in the past.
Awaiting your further esteem-
ed favors, I beg, leave to remain
Yours truly.
