My dear Miss Melton

Miss Moore handed me a letter the other ^{day} containing a request that you be furnished a statement concerning your work in the Business Department of this school some years ago. I asked Miss Moore to make up the statement and let me have it for transcribing into the form a regular communication to you. The statement is as follows:

I hope the above statement may be just what you want and that you may be able to secure advanced standing upon the strength of it.

Very truly yours,

Assistant Superintendent

It seems that Cora Melton was
here only during the scholastic
year 1911-12 and that she took the
business course during all that
time. It is not shown by the rec-
ords of this office whether or
not she was given a certificate
at the close of the year.

This form is for the record of the physical condition of pupils of boarding or nonreservation Indian schools. It should be filled in by the school physician at the time of the admission of the pupil.

Physicians in the field should use this form to record the examination of pupils for transfer to nonreservation schools. It should accompany the pupils' transfer blanks.

The reverse side is intended as a card-index case-record for use by all Service physicians.

A Good Teacher.

In the *Afton American*, published at Afton, Okla., we find the following about a former Carlisle student:

“Miss Cora Melton, one of the most popular teachers in Ottawa County, visited with her cousins, Misses Elizabeth and Florence Melton, of this city, Saturday. Miss Melton is teacher at Oseuma this winter and has one among the best schools of the county.”

SUGGESTIONS FOR SUPPLYING THE INFORMATION REQUESTED ON THIS BLANK

1. The report of nonreservation school Superintendent should be made at the time or a little before the pupil leaves school, whether at the end of the school year or during the school year, provided the pupil is 18 years of age or over, or younger, if for any special reason the pupil is quitting school permanently. As soon as this report is received, or at least very soon after the pupil returns home, the Supervisor of Indian Employment will correspond with the returned student for the purpose of getting more in personal touch with him and finding out something about his wishes, etc. His answer will be attached to and filed as part of this report.

2. Health, height, and weight of returned students are sometimes very important in placing them properly; height and weight could be approximated very satisfactorily, though from the pupil records now in use all information called for in part 1 of this blank can readily be obtained and be definite.

3. The State, agency, and tribe are important, and where the pupil is not attached to any agency this fact should be stated and the Superintendent should give all available information as to the home and local conditions surrounding the pupil.

4. Where the outgoing pupil has passed the civil-service examination for any position, this fact should always be noted, giving position for which examination was taken.

5. It should be remembered that the Supervisor of Indian Employment can but seldom have a personal acquaintance with the outgoing student, and that he must depend on the information furnished in this report for his basis of action in behalf of the pupil.

6. The degree of Indian blood should always be given, as this fact largely determines how much effort will be made on behalf of any particular returned student; qualifications being equal, or nearly so, the preference will be given to those having the greatest degree of Indian blood.

7. This report should be forwarded promptly to the Supervisor of Indian Employment, Denver, Colo.

8. Reports on students from reservation schools should be made only as to those who leave the schools at 18 years of age, or older, and who will probably not go away to school.

9. If part 1 of this report is made out by the principal of a reservation school, the reservation Superintendent should supply information called for in part 2 if the principal is not informed as to home surroundings and local conditions. Such information is essential to a proper understanding of the difficulties and needs of the pupil.

10. When part 1 is made out by a nonreservation Superintendent, this blank will be sent by the Supervisor of Indian Employment to the Superintendent of the reservation where the outgoing student belongs. He should fill out part 2 and return the blank as promptly as possible, for practically nothing can be done until the information called for in part 2 is supplied.

Information under the heading "Employed since return as follows," will be valuable only in cases where the pupil has been home for some time.
