Dear friend:-

I have your nice long letter telling me about your good country home, your good school and your kind teacher. It is a pleasure to get such letters from the pupils out in the country. Your letter shows me that you are making the best possible use of the opportunities afforded by the outing. I feel sure that if you continue in the good work you are doing now, you will be a great help to your people when you get home.

If your brother Glenn wants to go to the country this coming spring, I will try to find him a home near you. I think it will do him good to go out as you did. The Hopi boys are all well and doing nicely at the school. Lewis Tewanima is making a great name for himself as a runner. He has already won many prizes for winning in races.

Very truly yours,

Superintendent.

Dear friend Archie:

I thank you for your letter of June the 2nd, containing the information that you have been married and that you are now to have a home of your own. I extend you my best wishes and I am sure all your other friends here join me in hoping that your married life will be a long and a very happy one.

I am pleased to know you are employed at your trade and under such pleasant surroundings. It is especially gratifying to know that your ability to do something worth while is the result of the instruction you received while you were with us at Carlisle.

Let me hear from you from time to time, so that I can keep in touch with you and the other Hopi boys. I want to hear that all of them have found something to do and that they are well and happy.

Again, with best wishes, I remain,

SUGGESTIONS FOR SUPPLYING THE INFORMATION REQUESTED ON THIS BLANK

1. The report of nonreservation school Superintendent should be made at the time or a little before the pupil leaves school, whether at the end of the school year or during the school year, provided the pupil is 18 years of age or over, or younger, if for any special reason the pupil is quitting school permanently. As soon as this report is received, or at least very soon after the pupil returns home, the Supervisor of Indian Employment will correspond with the returned student for the purpose of getting more in personal touch with him and finding out something about his wishes, etc. His answer will be attached to and filed as part of this report.

2. Health, height, and weight of returned students are sometimes very important in placing them properly; height and weight could be approximated very satisfactorily, though from the pupil records now in use all information called for in part 1 of this blank can readily be obtained and be definite.

3. The State, agency, and tribe are important, and where the pupil is not attached to any agency this fact should be stated and the Superintendent should give all available information as to the home and local conditions surrounding the pupil.

4. Where the outgoing pupil has passed the civil-service examination for any position, this fact should always be noted, giving position for which examination was taken.

5. It should be remembered that the Supervisor of Indian Employment can but seldom have a personal acquaintance with the outgoing student, and that he must depend on the information furnished in this report for his basis of action in behalf of the pupil.

6. The degree of Indian blood should always be given, as this fact largely determines how much effort will be made on behalf of any particular returned student; qualifications being equal, or nearly so, the preference will be given to those having the greatest degree of Indian blood.

7. This report should be forwarded promptly to the Supervisor of Indian Employment, Denver, Colo.

8. Reports on students from reservation schools should be made only as to those who leave the schools at 18 years of age, or older, and who will probably not go away to school.

9. If part 1 of this report is made out by the principal of a reservation school, the reservation Superintendent should supply information called for in part 2 if the principal is not informed as to home surroundings and local conditions. Such information is essential to a proper understanding of the difficulties and needs of the pupil.

10. When part 1 is made out by a nonreservation Superintendent, this blank will be sent by the Supervisor of Indian Employment to the Superintendent of the reservation where the outgoing student belongs. He should fill out part 2 and return the blank as promptly as possible, for practically nothing can be done until the information called for in part 2 is supplied.

Information under the heading "Employed since return as follows," will be valuable only in cases where the pupil has been home for some time.

JOSHUA HERMEYESVA

That a misunderstanding of the white man's motives has been one of the causes of the Indian's backwardness in adapting civilized methods and in fighting education is being demonstrated at the Government Indian School in Carlisle, Pa., where twelve members of the Hopi nation, sun worshippers and pagans, who came here five years ago virtually as prisoners of war, are now preparing to go back to their people and spread the doctrine of the new life which they have gladly accepted.

These twelve Hopi Indians when they came here were crude specimens of a low order of civilization.

world, and two years ago, while representing America at the Olympic games in Paris, won the main Marathon event. He will represent this country at the next Olympic games. Washington Talyumptewa has also achieved a national reputation as a long distance runner.

The twelve Hopi Indians who have been so wonderfully transformed in five years are Tawa Ventewa, Will Nohongva, Ponagua Tewa, And Hermequatewa, Lewis Tewanima, Archie Quamala, Edward Tewane, Tala Hoyuma, Glenn Josytewa, Joshua Hermeyesva, Tala Yamtewa and Washington Talyumptewa.
