Mr. Myers,
Carlisle, Pa.,

My daughter arrived here
alright last Monday P.M.

And I thank you very
much for your kindness
to send my daughter
home for being sickly.

The reason she did not
come or get here last Saturday
was because she stopped
at Laginans, to visit her
aunt for over Sunday

As every thing is all at
now since she arrived
home and thankful that
she is home and will
be taken care of and under
the doctor's care.

This is all for to-day.

INDORSEMENT.

A child showing one-sixteenth or less Indian blood, whose parents live on an Indian reservation, Indian fashion, who, if debarred from the Government schools, could not obtain an education, may be permitted in the reservation day and boarding schools, but it is preferable that it be not transferred to a nonreservation school, without permission from the Office. Children showing one-eighth or less Indian blood, whose parents do not live on an Indian reservation, whose home is among white people where there are churches and schools, who are presumed to have adopted the white man's manners and customs, and are to all intents and purposes white people, are debarred from enrollment in the Government nonreservation and reservation schools. Superintendents, in all cases where doubt exists as to the degree of Indian blood of a child proposed for transfer, should fully satisfy themselves of the facts by affidavits from reliable persons, which affidavits must be kept on file at the school.

A pupil who has been regularly enrolled in a nonreservation school must not be taken to any other non-reservation school without the consent of both Superintendents and the Commissioner of Indian Affairs, and Superintendents will be held to strict accountability for such pupils taken to their schools.

A pupil dismissed from school for cause must not be enrolled in any other school without the permission of the Commissioner of Indian Affairs. Full facts must be submitted with each request.

Upon receipt of your letter of May the 11th I referred it to our School Physician with a request that he make an examination of your daughter Helen and that he then report to me his findings in so far as her physical condition is concerned. "Helen Peters was in the Hospital for a time only a few weeks past. She has a very slight valvular lesion of the heart which was, without question, present before she entered school. I see no good reason why she should be dismissed at this time and advise you to write the mother that her worry is quite groundless".

However, I regret to report further that on Saturday night Helen was taken with an epileptic seizure and that there have been three recurrences of the attack since then. Our School Physician has just advised me that she had an attack this morning, but that she is resting fairly well just at this time.

A telegram was sent you last evening containing in-
