Mr. M. Friedman, Superintendent,

Carlisle, Pa.

Dear Sir:-

Lewis Schweigman, a former pupil of your school, was in my office to-day inquiring whether or not he would be permitted to take a party of pupils from here to your school and whether his expenses would be paid in so doing. Since this boy has been enrolled in your school for a number of years, you are perhaps better acquainted with him than I am and know in how far you could trust him. I have told him that I would write you about the matter and await advice from you.

Your communication of June 18, is returned herewith.

Dear Sirs:

Sincerely yours,

We have received your communication of June 18, requesting information about the attendance of Louis S. Schweigman at Carlisle Indian School, in connection with his application for employment.

Paul L. Fickinger

After the Carlisle Indian School closed in 1918, the records were transferred to this Office. In some cases the individual record of a student is incomplete for the reason that part of his record may have been transferred at the time the student transferred to another school or may have been sent to the reservation superintendent having jurisdiction over the tribe to which the student belonged.

According to his Carlisle records here, Louis S. Schweigman entered the school October 7, 1910, for a period of three years and left the school June 16, 1913. Carlisle, an Indian boarding school, carried academic work through the eighth grade level and offered certain vocational training. The record indicates that Mr. Schweigman was given 27 months of instruction in the academic department as well as certain training in Blacksmithing and Painting. There is no indication that he completed his trade courses, but there are two Trade Record cards in the file, one in Blacksmithing, and one in House Painting, each indicating that his ability and conduct were "Good". We are unable to say what purpose these cards served-- that is, whether they are indications of a student's rating in the course, or if they indicate that he had finished the course. It appears that Mr. Schweigman received his training in Painting after he had received his training in Blacksmithing, but whether the course in Blacksmithing was completed or dropped we can not say.

It appears that Mr. Schweigman reentered Carlisle October 23, 1913 for a period of one year but left the school January 9, 1914 and the record shows that in April of that year he was employed at Greason, Pennsylvania. Shortly thereafter he was enrolled at the Mount Herman Boys' School at Mount Hermon, Massachusetts, where he was reported as "getting along very well". No information later than October 11, 1915, appears in his file.

Initialing copy for file

If Mr. Schweigman has pursued in more recent years either of the trades mentioned above, we see no reason why his training at Carlisle should not apply on his apprenticeship now, but we do not have sufficient information to determine what proportion of the courses would directly apply.

Your communication of June 18, is returned herewith.

Sincerely yours,

Such consent shall be made before the agent of the reservation, and he shall send to the Commissioner of Indian Affairs his certificate that such consent has been voluntarily given before such child shall be removed from such reservation. And it shall be unlawful for any Indian agent or other employee of the Government to induce, or seek to induce, by withholding rations or by other improper means, the parents or next of kin of any Indian to consent to the removal of any Indian child beyond the limits of any reservation. Sept. 10th, 1914.

Mr. Chas. L. Davis,
Supvr. in Charge, The Rosebud Agency,
Rosebud, S. D.

Dear Mr. Davis:

Louis Schweigman, who was formerly enrolled at Carlisle and who is now employed at Greason in this state, wrote me as follows on the 7th instant:

"I have at the Rosebud Agency in the State of South Dakota, the sum of four hundred and fifty dollars (\$450) and through your assistance I wish to obtain it. I am planning to enter the Mt. Hermon School, in the state of Massachusetts, to further my education and need this money to help pay expenses as they may occur. Hoping that you may give the matter your prompt attention, I remain,"

I have been informed by Louis, as well as several other people here in Carlisle who have become interested in him, that Mrs. Buchanan, a wealthy lady of Chambersburg, Pennsylvania, has consented to assist him to continue with his education in case he cannot work his way thru school in connection with the use of funds he has to his credit.

Believing that Louis could not make better use of his

-2- Mr. Chas. L. Davis, Supervisor.

funds than in educating himself I respectfully recommend that authority be secured to expend the money to his credit in such sums as may be required from time to time to meet the expenses he may have to incur. Although he is no longer connected with this school in any way I shall gladly undertake to supervise the expenditure of the funds if, in your opinion, that would be the preferable way to handle the matter.

I will take the opportunity to add that the Mount Hermon School is an institution in Massachusetts that will not tolerate any students but those who enroll with a purpose and who will attend to business. Last spring a boy sent there from this school returned here because he had deceived the authorities at the school about cigarette smoking.

Louis is being advised that I have taken this matter into consideration with you and that under no circumstances would I consent to having the whole amount turned over to him to be expended without proper supervision.

Very truly yours,

HKM.

Supervisor in Charge.

Dear Mr. Lipps:-

I am glad to know that the decision in regard to Crane met with your approval. Perhaps sometime later on the way may open for him to come here. I notice that another of your boys, Paul Baldeagle, is also on the list of applicants for admission here.

I am writing particularly at this time in regard to Schweigman who is here at Mount Hermon, as you know. He has had some trouble with his eyes, and has had headaches so that I am taking the liberty of sending him to an oculist at Springfield for consultation and examination. The oculist to whom we are sending him is one of the best in the state, and I am sure that he will be able to help Schweigman, and relieve him of the headache and trouble which he has had with his eyes. Schweigman has told me of his plans for the fall. At first he thought it might be best for him to go home for the five weeks between the terms. Now he feels that it would be much better for him not to do so. He would avoid the expense of the long trip, and instead would probably be able to earn something during the time to help meet the expenses of the coming year. He will need a little money for clothes this summer, and fall, and for other expenses. There will also be the term bill of \$70.- and the enrollment fee of \$5.-. Then there will be some extra expenses for books and stationery, and other student needs—such as paper, postage, etc. He understands that there are still \$357.- due on the account with the Government. He would like to draw

from this probably about \$150.- as near as he can judge himself.
You will know best about the distribution of this fund, and whether
it is advisable for him to draw this amount at this time. I should
think that the amount was reasonable, and if it meets with your approval
he would like to have you make the arrangement to draw this to be
placed to his account here at the office at Mount Hermon. He seems to
be getting along very well here, although the trouble with his eyes
has interfered somewhat with his study. He has made a good impression
and seems to be getting real benefit from the school and life here.

In view of the fact that Schweigman desires to have an amount of \$150.00 placed to his credit at the office at Mount Hermon I believe that it will be used to his best advantage, and I respectfully recommend, therefore, that the request be granted and that that amount be transferred. If you so desire the amount may be forwarded thru this office, although the young man is no longer enrolled at this school.

INFORMATION REGARDING RETURNED STUDENTS
PART I
REPORT BY NONRESERVATION SUPERINTENDENT OF RESERVATION SCHOOL PRINCIPAL

SUGGESTIONS FOR SUPPLYING THE INFORMATION REQUESTED ON THIS BLANK

1. The report of nonreservation school Superintendent should be made at the time or a little before the pupil leaves school, whether at the end of the school year or during the school year, provided the pupil is 18 years of age or over, or younger, if for any special reason the pupil is quitting school permanently. As soon as this report is received, or at least very soon after the pupil returns home, the Supervisor of Indian Employment will correspond with the returned student for the purpose of getting more in personal touch with him and finding out something about his wishes, etc. His answer will be attached to and filed as part of this report.

2. Health, height, and weight of returned students are sometimes very important in placing them properly; height and weight could be approximated very satisfactorily, though from the pupil records now in use all information called for in part 1 of this blank can readily be obtained and be definite.

3. The State, agency, and tribe are important, and where the pupil is not attached to any agency this fact should be stated and the Superintendent should give all available information as to the home and local conditions surrounding the pupil.

4. Where the outgoing pupil has passed the civil-service examination for any position, this fact should always be noted, giving position for which examination was taken.

5. It should be remembered that the Supervisor of Indian Employment can but seldom have a personal acquaintance with the outgoing student, and that he must depend on the information furnished in this report for his basis of action in behalf of the pupil.

6. The degree of Indian blood should always be given, as this fact largely determines how much effort will be made on behalf of any particular returned student; qualifications being equal, or nearly so, the preference will be given to those having the greatest degree of Indian blood.

7. This report should be forwarded promptly to the Supervisor of Indian Employment, Indian Office, Washington, D. C.

8. Reports on students from reservation schools should be made only as to those who leave the schools at 18 years of age, or older, and who will probably not go away to school.

9. If part 1 of this report is made out by the principal of a reservation school, the reservation Superintendent should supply information called for in part 2 if the principal is not informed as to home surroundings and local conditions. Such information is essential to a proper understanding of the difficulties and needs of the pupil.

10. When part 1 is made out by a nonreservation Superintendent, this blank will be sent by the Supervisor of Indian Employment to the Superintendent of the reservation where the outgoing student belongs. He should fill out part 2 and return the blank as promptly as possible, for practically nothing can be done until the information called for in part 2 is supplied.

Information under the heading "Employed since return as follows," will be valuable only in cases where the pupil has been home for some time.
