PHYSICIAN'S CERTIFICATE.

I hereby certify that I have this day carefully examined the above-named child herein proposed for transfer and find him to be in proper physical condition to attend school, and not afflicted with tuberculosis or any disease which would be a menace to the health of other pupils.

This 11th day of Sept, 1914

Physician at Shawnee Agency.

I do not believe Charley Pratt to possess more than one-eighth degree of Indian blood, but believe that it would be much to his advantage to permit him to be re-enrolled at Carlisle, for a short term, as his educational advantages had been much neglected prior to his entering Carlisle as a pupil, provided the Honorable Commissioner of Indian Affairs consents to the same.

This 2nd day of September, 1914,

John A. Branton
Agent or Superintendent.

SPECIAL NOTE.

This form must be executed in duplicate when a child is transferred from a reservation to a non-reservation school. The Superintendent of the nonreservation school will retain the original for his files, and the duplicate shall be deposited in the Agency records. The agent will then send to the Commissioner of Indian Affairs his certificate as provided by law. All the blanks must be properly filled in every case.

NOTE.—Age limits, fourteen to twenty years. Preferably fourteen to eighteen. Students must be at least one-fourth Indian, preferably full Indian. Special cases beyond the age limit will be given consideration. An industrial course only can be taken and the term reduced to three years, in exceptional cases.

INDORSEMENTS.

The laws relating to the transfer of Indian children from reservations and schools are as follows:

That hereafter no Indian child shall be sent from any Indian reservation to a school beyond the State or Territory in which said reservation is situated without the voluntary consent of the father or mother of such child if either of them is living, and if neither of them is living without the voluntary consent of the next of kin of such child. Such consent shall be made before the agent of the reservation, and he shall send to the Commissioner of Indian Affairs his certificate that such consent has been voluntarily given before such child shall be removed from such reservation. And it shall be unlawful for any Indian agent or other employee of the Government to induce, or seek to induce, by withholding rations or by other improper means, the parents or next of kin of any Indian to consent to the removal of any Indian child beyond the limits of any reservation. (28 Stats., p. 906.)

Provided, that hereafter no Indian child shall be taken from any school in any State or Territory to a school in any other State against its will or without the written consent of its parents. (29 Stats., p. 348.)

The rules provide that—

A pupil who has been regularly enrolled in a nonreservation school must not be taken to any other nonreservation school without the consent of both Superintendents and the Commissioner of Indian Affairs, and Superintendents will be held to strict accountability for such pupils taken to their schools.

An Indian boy or girl 18 years old and over may, without the consent of parents or others, personally sign the application form on its being changed to suit the case.

This form is to be used only in transfers from reservations, or Indian schools, to nonreservation schools.

Important—Only those students who desire to come to Carlisle because they have a definite purpose in view will be admitted. Applications for enrollment must be submitted in all cases for consideration before transportation can be made available. Time will then be taken to find out the records students have made in the schools previously attended, and to secure recommendations as to their *moral character* and their worthiness for further attendance at a Government institution.

Dear Sir:

March 24th, 1915.

Dear friend Charles:

I was pleased to receive your letter of the 20th instant and to hear again that you are so well satisfied with the opportunity that has been given you to gain so much valuable experience at the Ford plant. You will realize more and more after you leave Carlisle that the principles learned in the Ford plant can be put to use in whatever you undertake. The wonderful work that is being done for the men employed at the plant alone should make all of you boys more valuable citizens when you return to your homes or in whatever community you chose to make your homes. It must teach you how working conditions can bring satisfaction not measured by the actual wages received, and that much can be accomplished by any one who is willing to give even a fractional part of each day to reading or study.

Kindly remember me to the other boys working with you and rest assured that I am interested in all of you and want you to get the best possible benefit from your experiences.

Very truly yours,

HKM.

My dear Sir:

Supervisor in Charge.

The definite information you conveyed to me in your favor of September the 14th proves the ineligibility for regular re-enrolment of Charles Pratt, though I should like to see him return to Carlisle for the additional training he desires before taking a position as Baker in the Indian School Service.

In view of the fact that Charles has made so satisfactory a record here, and because I believe that students with a greater degree of Indian blood will not have to be deprived of enrolment on his account, I will request the Commissioner to grant me special authority to re-enroll him for an additional year if he comes to Carlisle at his own expense, providing, of course, that you agree with me that such a chance should be given Charles.

I return his application for enrolment herewith so that you can note thereon your wishes in the matter to com-

I herewith inclose the application of Charles Pratt for enrollment as a pupil in your School.

A recent investigation of the Indian blood of this young man shows that he is not more than one-eighth. For this reason I am unable to approve his application.

In a former application, before an Act of Congress requiring that Indian pupils must possess at least one-fourth degree of Indian blood, the application of this young man was forwarded, showing that he possessed one-half Indian blood. However, this is incorrect.
