Fort Lauderdale, Florida. yours,

My dear Sir:

This is to acknowledge receipt of your
letter of October the 30th and to advise that a
letter as follows was addressed to the Commissioner
of Indian Affairs at Washington, D. C., on October
the 24th:

"I respectfully transmit herewith
correspondence that has passed between a
Mr. Marshall of Fort Lauderdale, Florida,
and myself in regard to the enrolment at
Carlisle of B. H. Tommie, a Seminole boy.

In view of the fact that Carlisle has
not had students from Florida enrolled
here in the past, I desire to be informed
whether favorable consideration may be giv-
en an application for the enrolment of this
boy.

There is yet room here to accomodate ad-
ditional students and no others would have
to be deprived of attendance if authority
is granted to enroll this hoy."

I will also advise that your letter of October
the 30th and a copy of this reply are also being for-

Since first hearing from you Tommie has started to our school here. He is working to keep here with a white family, and is doing odd jobs about for money to pay his board. I saw some Indians from the Everglades few days ago, and was telling that about Tommie, and his going to school, and they are very much offended. His mother and sisters, and brother is all right, but Tommie just told me that Indians was mad with him, and that "he no go back everglades some more" injun would kill him. They are visibly offended, and decline to talk to the white man much about it. He is very anxious, and is working (something that the Seminole has perpetually declined to do. I dont know of any thing that I had rather see than for this Indian to get with you, and get educated, and come back to his tribe an example of Civilization. As a refrance to myself, and that my reports to you are true, I will state that I was Mayor of our town for two years, and am now president of one of our banks here.

Carlisle Pa,

My Dear Sir:-

I have your valued favor of 17th, and am indded glad that you ask for further information.

I enclose several photograpgs, among them one of B.H.Tommie. His indian name however is Hitowey, Hatchee. The pictures of the two camps enclosed, are his camp. His writing on the front of the photo. Seated on the concrete stone pile ^{is} his brother. Also the same standing in the water with bow and arrow in hand ^{is} his brother. The balence ^{is} in the enclosure is his sister, and two smaller brothers.

Tony is a Full Blood, Seminole. His skin is of a genuine copper color.

As stated in my previous letter, this Indian has had no training, only what he picked up. You see his writing. He is soanxious to learn, He has no money at all is not hunting now, but trying to learn something. If there is any way whereby he can get some benefit, I believe that it will be well worth the effort to his race here. He does not drink, and is above the average intilect.

Let me hear from you.

Yours very truly,

Carlisle Pa,
My Dear Sir:-

Ben Frank, the leading indian of the New River tribe come in to me this morning, and asked me about Tony. He is very anxious that he comes back it seemsthat his mother is allmost heart broken. I dont know but think that they think that he is not being treated right, or that the cold weather there is giveing him more Rheumatism. I know that he is home sick, and in this state of mind, he is not learning much.

I regret that he is in this condition, and fully realize what it means for the seminole for him to get the best of attention. I know that you are giveing him good attention, but they dont know whether evry thing is all right or not. This being the first of the kind of a venture that has ever been taken, and naturly they are much interested.

If there is any thing that can be done by the Federation of Women's clubs in our state, that will be of any assistance to your department, Iam sure that they will do it. I believe they would raise any amount of money necessary for him to have for any aded comfort which might be required if this will be of ornwould be of any benefit to you, and to Tony. I so much hope that he can be satisfied, and he must be satisfied if there is a pösibility, The Indians here would for ever hate me if he writes letters here telling of things which I dont know, However I believe and know that you are doing evry thing in your department that is allowed other Indians, but I had rather re-imburse the government's expenses from my own pocket, and deliver him back to his tribe, than to have them here thinking that he was not progressing. Advise me just what we can do to make evry thing satisfactory for Tony,

Hopeing that we will get him fixed up some way, Iam

Carlisle Pa,

Dear Sir:-

I know that you will think that you are getting enough letters from me today, but this morning Ben Frank came in, and asked that I write you a letter for him. I did, and then I told him that I would write you also, and he said all right me want to see em. I wrote my other letter while he was waiting.

Now I dont know how Tony is quartered. He has written some very interesting letters here. Told people there was five kinds of sick there, and that he was afraid that he was going to die, and that there was lice there, and other things, all of which his indian friends believe.

Now if there is a possibility that we might make things more comfortable for Tony, I am sure that I could make it known here to our Women's Club, and they would raise money for his comfort. I know that you have to treat all alike, or presume you do, but Tony is looked upon here as their future leader, and is looked up to by his tribe.

Now Ben Frank asked me to get his money back, He sent for Tony or furnished the money for his return. He thinks that Tony has not got the money.

Tony wrote me some time ago that you would let him come back if I would ask you to. That was the reason that I wrote you as I did. Keep me advised and put some effort to get him satisfied if possible.

Yours very truly,

W. J. Marshall

Tony B.M. Tommie,
Carlisle Pa,
Dear Tony;-

I have your letter telling me that you wanted to come home, and that I did not tell Mr. Friedman that you could come, and that he would not let you come. I thought that you had made it all right with him when you write me that you wanted to come back. I did not know but what he wanted to do as you wanted to, until you told me. Now so many people here think that you had better stay up there Tony, Mrs Stranahan, had about twenty letters from people every where telling her to write and get you to stay. She told Mrs Marshall about it, and I told her to write you so that you could know how we all felt about it. Now weather will be warm later on, and think that you will like it very much up there I know that you are home sick and want to come back, but you must get out of that Tony. And besides later on you know that school will be out here, and then you could not have any school to go to. March will finish this school here, and then you would not have any thing to do this summer at all, and mosquitoes, and other things would bother you, and you know that its too late to grow tomatoes now and that people might get their crops flooded out like that time about two years ago when we had so much water, and I lost all the crop that I had.

Now get down to it Tony, and learn. Mr, Friedman tells me that you are in now so that you will be able to learn, and get good training, and you should stay with it. You remember that you come to my office three days every day asking me to get you ticket so that you could go and I thought that I would not get it for while and perhaps you would change your mind. You told me that you wanted to go, and I gave you ticket, and you are there now, and all this cost money, and time, and besides when you learn and come back, You will be in position to do good things for your tribe.

Write me as often as you can, and tell me all about how you are getting along, and I am coming up to see you this summer.

Yours very truly,

Mr. M. Friedman

Carlisle Pa,

Dear Sir:-

Tony B. M. Tommie writes me that he is so dissatisfied there, and his mother and other members of the family are so worried about him, that it seems that it might be best to have him come back. He is home sick, and it seems that it will not wear off. Our Local Womens Club has taken it up, together with the State Federation of Women Club, and our local president is today writing to Carlisle Womens Club, and its likely some of the Ladies will call to see Tony. If they do, it will be to try and persuade him to stay there. It will be a Blow to the Seminole, opportunity to get edgeucated if he should leave there, but if they canot persuade him to stay, it will be better to let him come home. Tony writes me that you will not let him come without my consent, so use your own judgement about the persuasion, and if possible keep him, if he can be kept willingly on his part. If possible let him know that he has friends there, who think something of him. That seems to be part of his trouble.

Yours very truly,

INDORSEMENT.

A child showing one-sixteenth or less Indian blood, whose parents live on an Indian reservation, Indian fashion, who, if debarred from the Government schools, could not obtain an education, may be permitted in the reservation day and boarding schools, but it is preferable that it be not transferred to a nonreservation school, without permission from the Office. Children showing one-eighth or less Indian blood, whose parents do not live on an Indian reservation, whose home is among white people where there are churches and schools, who are presumed to have adopted the white man's manners and customs, and are to all intents and purposes white people, are debarred from enrollment in the Government nonreservation and reservation schools. Superintendents, in all cases where doubt exists as to the degree of Indian blood of a child proposed for transfer, should fully satisfy themselves of the facts by affidavits from reliable persons, which affidavits must be kept on file at the school.

A pupil who has been regularly enrolled in a nonreservation school must not be taken to any other non-reservation school without the consent of both Superintendents and the Commissioner of Indian Affairs, and Superintendents will be held to strict accountability for such pupils taken to their schools.

A pupil dismissed from school for cause must not be enrolled in any other school without the permission of the Commissioner of Indian Affairs. Full facts must be submitted with each request.

Mr. M. Friedman
Carlisle Pa,
Dear Sir:-

I am enclosing letter received from Tony, B.M. Tommie I have tried to write him encouraging him to stay there. It will not be good for the balance of the boys here for him to come back, as it will mean a failure at the attempt to get them started. They will have to have some assistance soon or starve, and its up to some one to get them started on a means of self support.

I think that a party here wrote him something about his mothers crying, and that hurts him it seems as he wrote Professor Rickard, of the public school here that his mama cried when he left, and that he wanted to see her.

They have some other small children, and it might be that the whole famley would come up there later on, None of them older except the mother. Of course I dont know any thing of the conditions there, and dont know what to tell them to expect. With that I was more familiar with your work I could then tell them all about it.

I am sending you copy of letter I am writing to Tony today, so that you may know what I have said to him.

My Dear Tony:-

I received your letter of 28th, and regret

to hear that you dont like the place. I know that its different from this place but so many people here did not want you to go to school with their small children, and I thought that Carlisle would be the place for you, and as I wrote you some days ago about Ben Frank, think that he wants to come to. He told me that for me to write and find out for him, so that he could tell me when he come back from hunt what he wanted to do. I know that if he was there with you that you would like it better. Tony its so much better for you up there than it would be here, You will soon like the ways that they do there, and when you get onto the ways, you would rather be there than here.

I saw Mr. Spencer day or two ago, and was telling him about you, and he said that it was so much better for you there than it was down here. If you can stay there by, and by you can come back and know so much more than you would learn here. Wish that I had the time I would come there and go to school with you. I would so much like to have an edgucation.

I have not seen your mother yet, but as soon as she comes in I will tell her about you, and that you want to come back, but I think that its better for you to stay there Tony. Dont set your mind on comeing back yet, You know that you wanted to go so bad, and think now since you want to come back, that you act like little boy, and not like big boy. Be a brave man Tony Its all the better for you. Nothing is going to hurt you. They have good doctors there if you get sick, and they will look out for you.

My dear Sir:

Referring to your favor of November the 26th,
in which you bring to my attention Ben Frank's desire
to be enrolled at Carlisle, I must state that it will
not be advisable to arrange for the transfer because
the young man has reached an age after which students
are not even to be retained here. Under the circum-
stances I cannot co-operate with you in his behalf.

This will also acknowledge receipt of your letter
of December the 2nd, with which you enclosed Tony's let-

noted the correspondence I referred it to our Disciplin-

sonal attention as will make the school life here seem
less strange to him. I submit below for your information

Dear Sir:
this is

to write me.

"I had several talks with Tony Tommie yesterday and he says now he is feeling better and begins to think he has friends here and is not alone and is no longer afraid. He wishes to work in the tailor shop during the winter at least and will start work there this afternoon. I think from now on he will be more contented here." Tony yesterday asked him to write me.

In view of the fact that Tony seems to have become started he should soon forget his homesickness and we can then give him the assistance toward making the progress that is so kindly anticipated by you.

I have made a copy of Tony's letter for our files and the original is being returned to you herewith.

Thanking you for the interest you are taking in this boy and for your co-operation, I remain,
Very truly yours,

Now Ben Frank does not know as much about the white man's ways as Tony does. I think that he would have to have some one come with him. He is more suspicious of the white man than Tony is. Dear Sir:-

One Indian named Ben Frank, was in my office this morning and was asking about Tony, B.H. Tommie. I have not heard any thing from him since I put him aboard the train here to go to you. I wrote Tony yesterday asked him to write me.

Now Ben Frank says that for me to write you and see if can arrange for him to come, he does not promise but says that he will tell me when he comes back from hunt which he is going out on today, and will be gone three weeks. He is going Otter Hunting. Ben, can write his name but cant read any. He is a very inteligent looking Indian, weighting something like 190.lbs, and is 24. years old. One of the best specimens of the whole tribe. I would be vary glad indeed if this Indian could get there, and learn something, as he is regarde d as one of the leaders of the whole tribe. I think a great deal will depend on what kind of report Tony sends back. Be as good to tony is you can, and dont make him work to much to start with. He has some Rheumatism any way, and as you know Work has been something that the Seminole has detested for ages. He can be gradually worked into this though.

Now Ben Frank does not know as much about the White mans ways as Tony does. I think that he would have to have some one come with him. He is more superstitious or suspicious of the white man than Tony is. Frank can hunt and make his living without any trouble. It will be a matter of choice with him, and I dont think that he would leave here at all unless some one that he knew went with him.

Wish that you would write me if you think that any thing can be done for this Ben Frank. I think that if he was there that he and Tony would do better together than Tony would by himself.

My dear Sir:

This is to report to you that Tony B. M. Tommie arrived at Carlisle on Friday of last week and that he has become located in our Large Boys' quarters. On Saturday I issued special instructions to the Disciplinarian in charge of our larger boys to give him as much individual attention as is possible, so that he will become accustomed to the school life here without delay and in order that he can make the best use of his time in acquiring the knowledge you desire he shall have.

At my earliest opportunity I will gladly take up personally with the Commissioner of Indian Affairs the matter of securing educational facilities for the Seminoles. I assure you also that I will do what I can to co-operate with you in Tony's behalf and in your efforts to help the Seminoles.

Supt M. Friedman,

Carlisle Pa,

Dear Sir:-

I herewith enclose you application filled out as best we could.

I wired you today in substance, that Tony was ready to start, but that he had never traveled any, and as weather was so cold, that thought some one should go with hi,, and offered to go with him, if your department would bear the expense. Iam very busy, but as this is the first Indian from the Seminole tribe who has ever been induced to leave, and get an edgeucation, I feel the importance of his mission being a success. I would not have him happen to any acident for anything you might mention. I have been here for fourteen years, and have known him since he was a little tot. His father was a good friend of mine, and one of the finest Indians of the tribe. His mother now a widow, allways comes by my office to see me, when she is in town. She told me saturday evening that she wanted tony to learn Ojus.(pleanty) If he should not get to you safely, and the report come back to the zn Indians, they would never forgive me, as they now are dissatisfied with the way Tony is doing.

He was to start tomorrow morning, but in the absence of news from you as to my coming with him, I told him to wait until wednesday morning, and perhaps I could go with him. This is one zhaz of my busy seasons, but I would be glad to give a weeks time to know that he got with you safely. Should I not hear from you favorably as to my expensees to make this trip, Iam almostop the the opinion, that I will come and pay my own expenses, in order to insure his safe arival. I have no fear as long as there is no changes of trains, but them he is likely to have to get out and wait, and curiosity seekers will annoy him, and he might be subjected to so much cold, that he would contract Pneumonia, or something, and which would put a stumbling block to further progress of the kind, of which the Seminole is so much in need of.

Hopeing that I will hear from you tomorrow, Iam

Dear Madam: I have received your letter indicating the interest which you and the Indian Committee of the Florida Federation of Womans Clubs are taking in the education and training of Tony Tommie, a Seminole boy, who has recently come here.

I thoroughly agree with what you say, and have just written to Mr. Marshall, at Fort Lauderdale, to the effect that Tony will not be permitted to return home at this time. When Tony first came, he was very homesick and lonesome, and his appearance showed it. When he was in my office today, he looked more like a man and seemed to have much more self reliance. Everything has been done for him here to make his stay pleasant and profitable, and it would be a serious mistake for him to leave now. I have so informed him.

This young man has an opportunity here of gaining a very thorough education and training in a school which is in every way developed and equipped to give thorough training. Now that he is here, I feel that the greatest service which I can render him is to help to strengthen the purpose within him to stay until such time as he has acquired some educationa

Tony was enrolled for a definite period of time, after quite a bit of difficulty with the Indian Office and some extensive correspondence. The Government paid for his transportation. Under the circumstances, he is enrolled the same as the other Indian students.

For a while after coming here, he was homesick and lonesome, and I presume he received a certain amount of encouragement from home. I believe that he is now settling down. His appearance indicates that he is developing more self-reliance, and I feel confident that his stay here will soon become pleasant, as it has already become profitable.

Today, I received a communication signed by a number of the Members of the Federation of Woman's Clubs of Florida asking me to use my influence that he stay. Under all the

is the desire of every one for him to remain, there will be
no further question. It would be a serious mistake to
make, I am sure, for him to return now. It would not only

I submit herewith for your information several communications regarding Tony Tommie. Will you please have a talk with the boy and encourage him to give the school work a thorough trial before he decides that he would rather not continue with his enrolment?

It may be well to place him in a Department where he can spend most of his time indoors, and yet have the chance to move about freely where there is a circulation of comparatively pure air.

Let me have a report after you have had a talk with Tony.

He had been told that his return home could not be effected at this time and it was believed that he had decided to settle down to his work and studies.

I am especially sorry because it will probably mean that other Seminoles cannot be helped now, as would have been possible if Tony had remained here long enough to become accustomed to the school life here.

Dear Mrs. Willson:

to me that he had succeeded in getting away I made a full

investigation. I thank you for your letter of January the

14th, giving me an opportunity to convey to you the real facts regarding Tony Tommie's stay at this school.

When he came here it was unusually damp and naturally much colder than at his home. He complained about the cold and soon after that about rheumatic pains. He was admitted to our school Hospital and under the care of our Physicians and Nurses there he was soon all right. When he came to me with a request to go home I talked to him and explained that his homesickness would soon wear off and that then he would like the school as well as the other students here. All others who came into contact with him spoke along the same lines to him, and it was not long before he went to work in our tailoring department.

When he learned thru letters from home that transportation had been placed for him here in Carlisle he again became restless and renewed his request for permission to return home. After another personal talk with him I told him

that the Government had assumed the care of him while he was being educated at Carlisle and that he would have to remain for the term for which he had been received. Apparently, he had again become satisfied, and when it was reported to me that he had succeeded in getting away I made a full investigation of the circumstances under which he had secured his transportation.

It has since been learned that an outside party impersonated an officer of the school and secured the ticket for him, so that he was on his way to the South before his absence was reported to me.

I regret to learn that Tony misrepresented facts when he stated that he needed money to buy medicine. A very complete Hospital is maintained at this school, where medicine and the best care and attention are given to all students who are enrolled at this school. Such attention is given as a part of the school's privileges to students, and without any charge whatsoever.

As far as I could find out Tony was a bright young man, and I believe it was a serious mistake for him to leave this school before he had become accustomed to the school life.

Dear Mr. Friedman:

It would be quite a satisfaction to know the details of
Tony Tomm's stay at your school. We heard he was getting
homework and our committee on Seminole was each asked
to write him a letter. I wrote simply and briefly, and
he answered by writing to Mr. Willson saying that he
how sick he was and how much more money it took at
Charles than in the Everglades. So Mr. Willson sent him
\$2⁰⁰ (what he asked for) to get medicine etc.
He received a letter a few days ago with much gratitude
& praise in it and saying he will work and pay it back
as that he would start for home in a day or two
His letters were characteristic and like the Seminole write
to us; he had heard of the Indians' ^{white} friend
"Jimmy Willson" and he knew that at one time
Mr. Willson had sent his bunch \$2 for medicine.
I would really like to know why he did

General R. H. Pratt referred that part of your letter of September the 5th in which you made inquiry about the circumstances under which Tony Tommie left this school to me for reply, and as near as it can be determined now the facts were transmitted to you in the letter from this school on February the 4th, last.

Tony Tommie's ticket seems to have been placed for him from his former home in Florida and he secured it without the knowledge of the school authorities and left. Our records also indicate that Tony was confined to the School Hospital with an attack of rheumatism and that the cold rainy weather at that time evidently had the effect of making him afraid he could not get accustomed to the climate here.

Hoping that you will let me know in what way I can be of further service, I am,

Very respectfully,

HKM.

Supervisor in Charge.

Mrs. Kirk Munroe.

Mrs. Kirk Munroe,

Cocoanut Grove, Florida.

My dear Mrs. Munroe:

Replying to your favor of January the 30th, I have to advise that arrangements for the enrolment at this school of Tony Tommie were completed thru the cooperation of Mr. W. H. Marshall of Fort Lauderdale in your state, after authority had been secured from the Commissioner of Indian Affairs at Washington for the enrolment. Tony was the first Seminoe boy to be enrolled here from Florida.

Below I submit you a copy of a letter that was addressed to me by Mr. Marshall on the 30th ultimo, in which information is given in regard to the transportation that was placed for Tony's use here at Carlisle:

"So far I have been unable to get any news pertaining to Tony's way of getting out of the school but an Indian passed along today and told me he thought I was a pretty sorry white man that he sent money

to Carlisle for Tony to come home on and he 'thinks so me get 'em from white man and no pay 'em back to Injun'. Ben Frank, the Indian who put up the money for this ticket that was wired to Tony by Willie Jumper, another Indian, and who is an uncle of Tony, is the one that told me. He is the one that wired the ticket.

Now if this money is there I would be very glad if you send it back to Willie Jumper, or myself so that I can give it to him."

To the letter from Mr. Marshall I replied as follows on February the 3rd:

This is to acknowledge receipt of your letter of January the 30th and to advise that when Tony Tommie left here he secured the ticket that had been placed for him at the local station, as well as the extra cash to the amount of \$1.25 that had been made available together with his ticket. Under the circumstances there are no other funds to his credit here."

Very respectfully,

Superintendent.

Dear Mr. Friedman

I thank you for your letter. I have
been waiting to hear that something
would come out as to who sent
77 - the money. but so far it's
only suspect. I think some one who
wanted to do the "babe. ham" the use help
the Jordan & Co - I'm know, but it has
in a way. if you do gain any information
I wonder if you would let me know.
Who sent the boy to Carlisle. Our Special
Commissioner (I am told) knew nothing of

it, and if he had been contacted would
not have done at this time of the year
As I am told, I would be very glad
to inform as to who sent the boy
if you can tell me - Thanking you
for your courteous answer to all my
letters.

Respectfully
Yours truly
Munroe
