Special cases beyond the age limit will be given consideration. An industrial course only can be taken and the term reduced to three years, in exceptional cases.

INDORSEMENTS.

The laws relating to the transfer of Indian children from reservations and schools are as follows:

That hereafter no Indian child shall be sent from any Indian reservation to a school beyond the State or Territory in which said reservation is situated without the voluntary consent of the father or mother of such child if either of them is living, and if neither of them is living without the voluntary consent of the next of kin of such child. Such consent shall be made before the agent of the reservation, and he shall send to the Commissioner of Indian Affairs his certificate that such consent has been voluntarily given before such child shall be removed from such reservation. And it shall be unlawful for any Indian agent or other employee of the Government to induce, or seek to induce, by withholding rations or by other improper means, the parents or next of kin of any Indian to consent to the removal of any Indian child beyond the limits of any reservation. (28 Stats., p. 906.)

Provided, that hereafter no Indian child shall be taken from any school in any State or Territory to a school in any other State against its will or without the written consent of its parents. (29 Stats., p. 348.)

The rules provide that—

A pupil who has been regularly enrolled in a nonreservation school must not be taken to any other nonreservation school without the consent of both Superintendents and the Commissioner of Indian Affairs, and Superintendents will be held to strict accountability for such pupils taken to their schools.

An Indian boy or girl 18 years old and over may, without the consent of parents or others, personally sign the application form on its being changed to suit the case.

This form is to be used only in transfers from reservations, or Indian schools, to nonreservation schools.

My dear Madam:

Upon receipt of your letter of March the 11th, in which you made inquiry about the condition of your daughter Cecelia's health, it was referred to our School Physician with a request that an examination be made and a statement issued. I submit below for your information the Doctor's report:

"In regard to Cecelia will say that she is tuberculous, but is in very fair general condition. I would like to send her to the Sanatorium at Toledo, Iowa, as this will fetch her within easy distance of her home. Her mother will, of course, have to be consulted in this matter."

In view of the statement above will you please advise what action you desire to have taken in regard to Cecelia? The Sanatorium at Toledo is a new one that has just been opened and I am sure that the very best of care and attention would be given your daughter.

Very respectfully,

HKM.

Mr. Jon. C. Hart,
Superintendent, The Oneida Agency,
Oneida, Wis.

My dear Sir:

Referring further to your letter of March the 26th, and in compliance with the assurance contained in my letter of April the 1st, this is to advise that arrangements have now been completed for Cecelia Summers to leave here for her home on Tuesday evening. She should arrive at Green Bay the following night at 12.55. (Wednesday). It is to be regretted that she arrives at her destination at so inconvenient an hour, but as other girls will accompany her as far as Chicago if she leaves here as scheduled it was believed advisable to have her go at that time.

Our School Physician made me another report yesterday regarding Cecelia's condition, which indicates that she has a good chance to regain her strength if an effort is made to have her treated. The report was as follows:

"Cecelia Summers is doing nicely since she has been sleeping in the open. She should arrive at home in good condition and with rest and care should make a thorough recovery".

Mr. Jos. C. Hart, Superintendent.

Hoping that it can be arranged to have Cecelis met upon her arrival at Green Bay and that then you will notify me of her safe arrival, I am,

Very truly yours,

HKH.

Supervisor in Charge.

I have had Cecilia Summers under observation for a prolonged period. Although her general condition is good she keeps running a temperature, indicating that the tubercular process is more active than appearances denote. I unhesitatingly recommend that she be sent home, as she should not be under strain of any sort,
