April 22nd, 1914.

Mr. Fenben Perry,  
Superintendent, The Indian School,  
Albuquerque, N. M.

Dear Sir:

I regret to report that we have not succeeded in learning anything at all regarding Philip Otero and Jose Griego, the two young men who deserted from this school on March the 18th.

If they have reached their homes or word has been received from them I would be pleased to receive such information here. It can then be decided what other action may be necessary.

Very respectfully,

HSM.

Supervisor in Charge.

Copy to Superintendent Lonergan.

This form is for the record of the physical condition of pupils of boarding or nonreservation Indian schools. It should be filled in by the school physician at the time of the admission of the pupil. Physicians in the field should use this form to record the examination of pupils for transfer to nonreservation schools. It should accompany the pupils' transfer blanks. The reverse side is intended as a card-index case-record for use by all Service physicians.
