### INDORSEMENT.

A child showing one-sixteenth or less Indian blood, whose parents live on an Indian reservation, Indian fashion, who, if debarred from the Government schools, could not obtain an education, may be permitted in the reservation day and boarding schools, but it is preferable that it be not transferred to a nonreservation school, without permission from the Office. Children showing one-eighth or less Indian blood, whose parents do not live on an Indian reservation, whose home is among white people where there are churches and schools, who are presumed to have adopted the white man's manners and customs, and are to all intents and purposes white people, are debarred from enrollment in the Government nonreservation and reservation schools. Superintendents, in all cases where doubt exists as to the degree of Indian blood of a child proposed for transfer, should fully satisfy themselves of the facts by affidavits from reliable persons, which affidavits must be kept on file at the school.

A pupil who has been regularly enrolled in a nonreservation school must not be taken to any other non-reservation school without the consent of both Superintendents and the Commissioner of Indian Affairs, and Superintendents will be held to strict accountability for such pupils taken to their schools.

A pupil dismissed from school for cause must not be enrolled in any other school without the permission of the Commissioner of Indian Affairs. Full facts must be submitted with each request.

Mr. Meyer: James Solomon has trouble with his left knee but is in absolutelt no danger as a result. He was in the hospital only a very short time and then only because I wished to study his case and decide upon a proper line of treatment. Please assure the mother that her worry is without cause and that the boy will have better attention here than elsewhere.

I regret to say that Albert Freemont is tubercular. He is not, however, at all dangerously sick and is only in the hospital in order to receive the necessary attention and treatment. Arrangemants are now under way to send him to the T.B. sanitorium at Fort Lapwai, Id. See Mr. Lipps for details.

Mr. Andrew F. Solomon,

Box 145, Walthill, Nebraska.

My Friend:

I have your letter of the 7th instant in regard to your desire to enroll as a pupil at Haskell Institute. I note that you say you once filled out an application for Haskell when you were a little boy; that you have just returned to your home from the Carlisle school where you have been in attendance for nearly two years; that you were called home on business and that you and your parents have decided that you may not return to Carlisle but will go elsewhere; also that you are twenty-three years of age and have been married.

In reply I have to state that as it appears you did not complete your term of enrollment at Carlisle, we could not, under any circumstances, consider your application until you are fully released by that school. Again, under the rules we are not permitted to enroll any pupil past the age of twenty-one years excepting by special authority of the Indian Office for good and sufficient reasons, which must be satisfactory.

Of course, as you say, an excellent education is a fine thing and should be sought by all our Indian young people

where practicable. However, in your case, in view of what you say about yourself, it is my belief that you are very well equipped and should settle down and make practical use of the training you have received. Effort and ambition will count for much even though opportunity and education may have been lost.

Any general statement or wishes of patron or pupils, together with Agent's estimate of place, people, and pupil:

Mr. Larason is a hard working man and is inclined to take life too serious. The tendency is to look on the dark side of things causing a gloomy home. Mrs. Larason has a sad appearance but keeps a neat home. They are strict with James and allow him to go away only when accompanied by one of them.

This close confinement to a dreary home is not what I would pronounce good, yet they are kind and want to treat a boy right.

I asked Mr. Larason if he wished a boy in the winter and he said "no he could not get much good out of them when attending school" I have concluded that they wish a boy for what they can get out of him, and don't intend to give him any benefit. The gloomy and miserly aspect is my objection.

Mr. Lippe: James has a tuberculosis of the knee joint. It will be necessary for him to wear an ambulatory splint for a long period of time. Those on the market are rather expensive costing from 40 to 60 dollars. I have had the leg in an improvised splint made of Plaster of Paris, which treatment I will again institute if the boy lacks the necessary funds to secure a better apparatus. In my opinion it would be good policy to send the boy home.

I was pleased to hear from you some time ago and to know that your trip home was a pleasant one in every way. I hope you have gained in strength since then and that soon you will not be compelled to wear your brace.

A number of the students we had here when you left have gone to their homes since then, and as all of those are kept busy during the day things are more quiet than usual here. The time is passing very rapidly, however, and soon new students should arrive for the next year's work.

My dear James;

I am enclosing herewith a check made payable to you, covering the amount left to cover transportation charges for your return to Carlisle.

Very respectfully,

Supervisor in Charge.

Mr. James Solomon,

Box 175, Trout Creek, Mich.

My dear Friend:

The amount of the check you referred to in your letter of January the 21st represents the balance of the sum you deposited here for your transportation when you went to your home and which was not required to pay for the ticket that was procured for you then.

It does not mean that you will have to use it to return to Carlisle, but it is hoped you can make equally good use of it.

I was pleased to note in your letter that you are attending the public school at your home and that your leg is entirely well. I hope you will take good care of yourself so that you will not again have trouble with your leg and so that you can go right ahead with your studies.

With best wishes, I remain,

Your friend,

HKM.
