My dear Friend:

I attach hereto a letter from the Commissioner of Indian Affairs notifying you that you are one of those students of Carlisle to whom a third prize has been awarded in the contest that was conducted last year with Home Building essays.

I congratulate you on being one of those whose study of the subject merited such recognition, and the bronze medal that is also being enclosed should prove to be an ever present reminder of the degree of proficiency you achieved in writing your essay. I hope you will have an opportunity soon after you leave school to put your home building ideas into actual practice.

Very truly yours,

My dear Mr. Henderson: Very respectfully,

I submit below for your information a copy of
a communication that was addressed to me this morn-
ing by our School Physician:

"I have tapped, or aspirated, David Owl's
chest for the second time, removing slight-
ly over two pints of fluid. His general
condition continues good and he is actually
looking better in the face than before he
was obliged to take to bed.

James Thompson is moving along very slow-
ly but in general is in tolerably fair con-
dition. I also aspirated his chest this
morning on the suspicion that pus, or an
Empyema, may have formed. None was found,
showing that the continued temperature is
due solely to the tuberculous process.

Both David Owl and James Thompson should
be sent to sanatoria if that is possible,
and I will recommend their dismissal just
as soon as I consider it safe for them to
travel. Will you please write to Fort Lap-
wai and Toledo to see if they have room for
these two patients?"

I believe it would be inadvisable to send the boys
as far away from Carlisle as is Fort Lapwai, but I am
writing to the Physician in charge of the Sanitorium at

Although there is no marked cahnge in regard to his lung condition the temperature has been practically normal during the last few days and David expresses himself as feeling well. It more than likely that another aspiration of the fluid within his chest will be demanded.
