Agent or Superintendent.

SPECIAL NOTE.

This form must be executed in duplicate when a child is transferred from a reservation to a non-reservation school. The Superintendent of the nonreservation school will retain the original for his files, and the duplicate shall be deposited in the Agency records. The agent will then send to the Commissioner of Indian Affairs his certificate as provided by law. All the blanks must be properly filled in every case.

NOTE.—Age limits, fourteen to twenty years. Preferably fourteen to eighteen. Students must be at least one-fourth Indian, preferably full Indian. Special cases beyond the age limit will be given consideration. An industrial course only can be taken and the term reduced to three years, in exceptional cases.

INDORSEMENTS.

The laws relating to the transfer of Indian children from reservations and schools are as follows:

That hereafter no Indian child shall be sent from any Indian reservation to a school beyond the State or Territory in which said reservation is situated without the voluntary consent of the father or mother of such child if either of them is living, and if neither of them is living without the voluntary consent of the next of kin of such child. Such consent shall be made before the agent of the reservation, and he shall send to the Commissioner of Indian Affairs his certificate that such consent has been voluntarily given before such child shall be removed from such reservation. And it shall be unlawful for any Indian agent or other employee of the Government to induce, or seek to induce, by withholding rations or by other improper means, the parents or next of kin of any Indian to consent to the removal of any Indian child beyond the limits of any reservation. (28 Stats., p. 906.)

Provided, that hereafter no Indian child shall be taken from any school in any State or Territory to a school in any other State against its will or without the written consent of its parents. (29 Stats., p. 348.)

The rules provide that—

A pupil who has been regularly enrolled in a nonreservation school must not be taken to any other nonreservation school without the consent of both Superintendents and the Commissioner of Indian Affairs, and Superintendents will be held to strict accountability for such pupils taken to their schools.

An Indian boy or girl 18 years old and over may, without the consent of parents or others, personally sign the application form on its being changed to suit the case.

This form is to be used only in transfers from reservations, or Indian schools, to nonreservation schools.

Important—Only those students who desire to come to Carlisle because they have a definite purpose in view will be admitted. Applications for enrollment must be submitted in all cases for consideration before transportation can be made available. Time will then be taken to find out the records students have made in the schools previously attended, and to secure recommendations as to their *moral character* and their worthiness for further attendance at a Government institution.

My dear Mr. Wheelock:

I have just received your letter of June 11th, enclosing a check in the sum of \$45.00 for your son, Edmund, to pay his expenses in returning to his home. I will send for Edmund at once and make necessary arrangements for him to leave here as soon as he can get ready for his home by way of Niagara Falls.

In this connection, I desire to state that Edmund has proven himself to be a splendid young man at Carlisle. He has occasionally gotten into some little difficulty, but nothing more than any active boy is liable to get into at times. He has always shown a splendid disposition when called to account for any violations of the school rules, and has always taken his punishment like a man without complaint. Sometime ago he came to me and told me of his desires and I encouraged him to complete his high school course at home, and then go to the State University. I also advised him to spend his vacation in your office studying, as this would be a change from routine school work and at the same time he would be continuing his education. I think

Edmund has done very good work in school here this year and, no doubt, the experience has been valuable to him. I shall be very glad to do anything I can for him at any time, and I hope he will not hesitate to call on me at any time I can be of service.

Regarding your sister, Martha, I will see her at once and find out if she needs a special pair of shoes. If she does, of course, we can have them made right here in our own shoe shop. Martha is young yet, and it seems to me that it would be greatly to her interest to remain in school a while longer until she gets a little more age and experience. It is pretty difficult for a girl as young as Martha to get out in the world and get anything more than a mere assistant's position, and now is the time for her to get as broad and liberal an education as she possibly can. Of course, a great deal depends upon the natural aptitude and inclinations of any one, and I will make it a point to keep in close touch with Martha's progress here, and in the event that I find she does not take to school work, I will see what I can do for her in the way of getting her a position in the Service. She is a splendid girl, and while her lameness seems to embarrass her somewhat, yet that should not hinder her in the least in making success at anything she may undertake and which she is competent to do.

I thank you very much for your expressions of con-

Dear friend:-

I am in receipt of your letter of the 15th inst in which you ask to be returned to Carlisle to take the course in Farming.

This to me does not seem to be the thing for you to do. Carlisle now is for those Indians who need what she has to offer and who cannot get the training offered here at any other place. You have gone through the Public School and are able to get your education outside of the Indian

School. Your father is well able to help you if you need his help, through some Agricultural College. This would be far preferable to your returning to Carlisle, I think.

Dear Sir:-

Your letter of May 14th was misplaced by the clerk at the office so that I did not receive it until the other day.

I am the Edmund Wheelock that attended Carlisle High some five years ago. (Due to the increase in years it becomes necessary for me to use my full name, as you well understand for business purposes.) It was necessary for me to attend school in town because I had already completed the work given at your institution. The year following my departure from Carlisle I believe there was an Agricultural course started, but being young and not having fully decided what vocation I would choose as my life work, I did not take advantage of the fact and return to take up the study. I just kept plugging along at my regular High School work.

On arriveing home I found all my friends raiseing chickens and secured some birds for myself. In the fall I took my pets to the county fair and won three firsts and one second with the four birds shown. The next step was to go into partnership with another boy to rent a field to grow some corn in. This was a success and we together won second prize on a group of ears shown. Then I went to work on a farm and took a likeing for the work. This play work then, being a success was the decideing argument of my question.

I would like to return to Carlisle and take up the study of Agriculture, starting this next fall. If I remain in the Army for the full three years period I will then have reached an age at which it will not be a question of schoolany more, and I desire to learn all that I can before that time arrives. I desire to return to Carlisle because my application to be placed on the "Detached Furlough" roll, would receive consideration and attention more quickly than if I requested to be sent to some small school, which I should have to do on account of not haveing sufficient funds to attend any other; on account of the fact that I would still be receiveing Military instruction.

Respectfully yours,

Dear Sir:-

Just a line to let you know that I am still alive and to wish you continued success in your work at the school. Also, since you have started an Agricultural Department at the school, your letter addressed to Mr. Lipps as superintendent of this school, comes to me as Mr. Lipps left about a year ago to become Chief Superintendent of Indian Schools. I do not find your name among the list of ex-students of this school but believe that probably you are Edmund Wheelock whose was a pupil here four or five years ago. I shall be glad to hear from you again so that I may be sure of your identity.

The problem of getting sufficient water is a question that we publish one school paper only now, February calling it the Arrow and Red Man. I am sending you sample copies of the paper. If you are an ex-student, it will cost you \$.50 a year. In the mountains the hills are still dry and shows very small. The grass around the hills is still dry and shows no sign of life. You might be interested to know that Mr. Lipps is temporarily in charge of the Chillicothe Indian School, Oklahoma just now. Several occasions have been in which people have died for lack of water before being found. Nothing is done with the bodies when they are found. Dear Sir:

Just a line to let you know that I am still alive and to wish you continued success in your work at the school. Also, since you have started an Agricultural Department at the school, to give my views of this section of the country.

The County of Grant seems to be the leading portion of the state in-so-far as the raising of stock is concerned. The Short-Horn is the leading breed on account of it's ability and nature to adapt itself to the range. On account of the scarcity of food and pastuage, most of the stock in this vicinity are hardly large enough to cast a good shadow.

The problem of getting sufficient water is a question that stands out very prominently. Since my arrival in February there have been two rain showers that lasted two or three hours at the most. The creeks are dry and as there was not much snow in the mountains the prospects of them filling up this summer are very small. The grass around the hills is still dry and shows no sign of life. I have walked out amongst the hills on several occasions and have found cattle and horses that had probably been injured in some manner or other and have died for lack of water before being found. Nothing is done with the bodies when they are found. They are left to furnish food for foxes and crows.

Please let me know the subscription price of the school paper as I desire to have it sent to me at this station.

Give my best regards to Homer and other friends who may remember me.

Yours trully,

Richard E. Wheelock.

not quite the same.

Dear Edmund:-

I have your letter of the 15th inst asking me to help you get with the Ford Factory this coming summer. Owing to the fact that we have so many of our own Carlisle boys waiting for openings at the Ford Factory, I have thought it best not to encourage ex-students and other Indians, who have applied to me for help to get into the factory. Mr. Ford has made the opening, primarily for "Carlisle" boys and I think it best, considering all things, that we encourage only these boys to go there.

Just now I do not know of any other job in view for you. We have application for two boys to go to a Summer Camp but the wages offered is not large and I doubt if you could make expenses, just for the two months. I might add that these jobs are "exceptional" offers which we would prefer to keep for our own school boys too.
