The agent will then send to the Commissioner of Indian Affairs his certificate as provided by law. All the blanks must be properly filled in every case.

NOTE.—Age limits, fourteen to twenty years. Preferably fourteen to eighteen. Students must be at least one-fourth Indian, preferably full Indian. Special cases beyond the age limit will be given consideration. An industrial course only can be taken and the term reduced to three years, in exceptional cases.

INDORSEMENTS.

The laws relating to the transfer of Indian children from reservations and schools are as follows:

That hereafter no Indian child shall be sent from any Indian reservation to a school beyond the State or Territory in which said reservation is situated without the voluntary consent of the father or mother of such child if either of them is living, and if neither of them is living without the voluntary consent of the next of kin of such child. Such consent shall be made before the agent of the reservation, and he shall send to the Commissioner of Indian Affairs his certificate that such consent has been voluntarily given before such child shall be removed from such reservation. And it shall be unlawful for any Indian agent or other employee of the Government to induce, or seek to induce, by withholding rations or by other improper means, the parents or next of kin of any Indian to consent to the removal of any Indian child beyond the limits of any reservation. (28 Stats., p. 906.)

Provided, that hereafter no Indian child shall be taken from any school in any State or Territory to a school in any other State against its will or without the written consent of its parents. (29 Stats., p. 348.)

The rules provide that—

A pupil who has been regularly enrolled in a nonreservation school must not be taken to any other nonreservation school without the consent of both Superintendents and the Commissioner of Indian Affairs, and Superintendents will be held to strict accountability for such pupils taken to their schools.

An Indian boy or girl 18 years old and over may, without the consent of parents or others, personally sign the application form on its being changed to suit the case.

This form is to be used only in transfers from reservations, or Indian schools, to nonreservation schools.

My dear Sir:

Referring further to other correspondence that has passed between us relative to the return home of Alvina Monette, this is to advise that she will now probably remain here until the party of girls who are entitled to go to their homes this year on account of the termination of their periods of enrolment start from Carlisle on June the 1st. She will then be accompanied by Blanche Jollie and will be provided with transportation for her passage to Rolla.

Hoping I will be advised that you can arrange to meet her at that point, I remain,

Very truly yours,

HKM.

Supervisor in Charge.

SUGGESTIONS FOR SUPPLYING THE INFORMATION REQUESTED ON THIS BLANK

1. The report of nonreservation school Superintendent should be made at the time or a little before the pupil leaves school, whether at the end of the school year or during the school year, provided the pupil is 18 years of age or over, or younger, if for any special reason the pupil is quitting school permanently. As soon as this report is received, or at least very soon after the pupil returns home, the Supervisor of Indian Employment will correspond with the returned student for the purpose of getting more in personal touch with him and finding out something about his wishes, etc. His answer will be attached to and filed as part of this report.

2. Health, height, and weight of returned students are sometimes very important in placing them properly; height and weight could be approximated very satisfactorily, though from the pupil records now in use all information called for in part 1 of this blank can readily be obtained and be definite.

3. The State, agency, and tribe are important, and where the pupil is not attached to any agency this fact should be stated and the Superintendent should give all available information as to the home and local conditions surrounding the pupil.

4. Where the outgoing pupil has passed the civil-service examination for any position, this fact should always be noted, giving position for which examination was taken.

5. It should be remembered that the Supervisor of Indian Employment can but seldom have a personal acquaintance with the outgoing student, and that he must depend on the information furnished in this report for his basis of action in behalf of the pupil.

6. The degree of Indian blood should always be given, as this fact largely determines how much effort will be made on behalf of any particular returned student; qualifications being equal, or nearly so, the preference will be given to those having the greatest degree of Indian blood.

7. This report should be forwarded promptly to the Supervisor of Indian Employment, Indian Office, Washington, D. C.

8. Reports on students from reservation schools should be made only as to those who leave the schools at 18 years of age, or older, and who will probably not go away to school.

9. If part 1 of this report is made out by the principal of a reservation school, the reservation Superintendent should supply information called for in part 2 if the principal is not informed as to home surroundings and local conditions. Such information is essential to a proper understanding of the difficulties and needs of the pupil.

10. When part 1 is made out by a nonreservation Superintendent, this blank will be sent by the Supervisor of Indian Employment to the Superintendent of the reservation where the outgoing student belongs. He should fill out part 2 and return the blank as promptly as possible, for practically nothing can be done until the information called for in part 2 is supplied.

Information under the heading "Employed since return as follows," will be valuable only in cases where the pupil has been home for some time.

I beg to report that Alvina Menette is sick in the
hospital with pulmonary tuberculosis associated at this time
with an acute attack of bronchitis. There is
no immediate danger to life, in fact it is
very probable that with appropriate atten-
tion the disease will be arrested.

satisfactory
improvement.

Alvina Monette

Febr. 24th, 1915.

Mr. Peter Monette,
Belcourt, North Dakota.

My dear Sir:

I submit below for your information a copy of a recommendation and report that was submitted to me on the 18th instant by our School Physician:

"The following patients, all of which are tubercular, I recommend to be sent home as soon as arrangements can be made: (Three other names are listed with your daughter Alvina's. OHL.) All these children are now in excellent condition, having had weeks of treatment. They are in fact to be considered as having recovered so that I can hardly recommend them for sanatorium treatment. In case the home conditions of any of these children are very unsatisfactory that child may be retained, but otherwise I consider the confinement and strain of school life undesirable."

In view of the fact that Alvina's health is now in such greatly improved condition and her period of enrolment does not terminate this year, I would thank you to advise me whether you desire to have her sent home and whether you will provide what will be required to pay for her transportation.

Very truly yours,

HKM.

Dear Sir,
Mr. Peter Ducept,
Belscourt, North Dakota.

My dear Sir:

Being advised in your letter of the 29th ultimo that you are unable to provide the necessary amount to pay for the transportation home of Alvina Monette, this is to state that arrangements will be completed to send her home at government expense for transportation. When Alvina was seen at this office this morning she requested permission to remain here until Blanche Jollie is ready to go home too. Blanche's period of enrolment has terminated and it would be desirable to have the two girls travel together.

You will be notified at a later date just when you may expect Alvina to arrive at Rolla.
