SPECIAL NOTE.

This form must be executed in duplicate when a child is transferred from a reservation to a nonreservation school. The Superintendent of the nonreservation school will retain the original for his files, and the duplicate shall be deposited in the reservation school records. The reservation superintendent should send to the Commissioner of Indian Affairs his certificate as provided by law. All the blanks must be properly filled in every case.

If the information called for on any part of the blank is not known, that fact should be stated. No space should be left unfilled. Whether the parents are living or dead, their names must be given.

The person who signs the blank as consenting to the transfer should indicate his relation to the applicant by marking out the word "parent," "guardian," or "next of kin," leaving unmarked only the title appropriate to the signer.

INDORSEMENTS.

The laws relating to the transfer of Indian children from reservations and schools are as follows:

That hereafter no Indian child shall be sent from any Indian reservation to a school beyond the State or Territory in which said reservation is situated without the voluntary consent of the father or mother of such child if either of them are living, and if neither of them are living without the voluntary consent of the next of kin of such child. Such consent shall be made before the agent of the reservation, and he shall send to the Commissioner of Indian Affairs his certificate that such consent has been voluntarily given before such child shall be removed from such reservation. And it shall be unlawful for any Indian agent or other employee of the Government to induce, or seek to induce, by withholding rations or by other improper means, the parents or next of kin of any Indian to consent to the removal of any Indian child beyond the limits of any reservation. (28 Stats., p. 906.)

Provided, That hereafter no Indian child shall be taken from any school in any State or Territory to a school in any other State against its will or without the written consent of its parents. (29 Stats., p. 348.)

That no Indian pupil under the age of fourteen years shall be transported at Government expense to any Indian school beyond the limits of the State or Territory in which the parents of such child reside or of the adjoining State or Territory. (35 Stat. L., 781.)

The rules provide that—

A pupil who has been regularly enrolled in a nonreservation school must not be taken to any other nonreservation school without the consent of both Superintendents and the Commissioner of Indian Affairs, and superintendents will be held to strict accountability for such pupils taken to their schools.

An Indian boy or girl 18 years old and over may, without the consent of parents or others, personally sign the application form on its being changed to suit the case; but in all cases where the parents are living they should first be consulted.

This form is to be used only in transfers from reservations or Indian schools to nonreservation schools.

My dear Mr. Wyly:

I regret very much that I must bring to your attention the following copy of a report that was issued this morning by our school physician:

"Albert Foster has an incipient tuberculosis. I recommend that he be sent to his home."

Albert is one of the Choctaw young men who were sent to Carlisle last fall and as his removal from Carlisle is urged I will appreciate hearing from you what cooperation can be extended.

Very truly yours,

My dear Mr. Lipps:

I wish to acknowledge the receipt of your letter of April 12th enclosing case record of Albert Foster, a Choctaw, age 21, proposed for transfer to our sanatorium.

While this patient seems a suitable case for treatment in the sanatorium we would prefer not to admit him at this season of the year. Patients coming during the warm weather soon become dissatisfied on account of the heat and do not as a result do well. We could make room for the boy if it is desired to transfer him under the above conditions. It appears to us that it would be better to send him home to the Choctaw sanatorium at Talahina, Oklahoma, if that institution is ready to admit patients.

It will be necessary to secure authority from the Commissioner of Indian Affairs for the admission of this patient, and I would suggest that such steps be taken by you should the patient wish to come at this time.

Yours very truly,

JB-JS Carbon to Commissioner.

My dear Dr. Russell:

The letter from your Mr. Lyons stating that you can accept Albert Foster as a patient if his transportation is paid was received here just as we were beginning the exercises of our closing week. This morning inquiry was made about Albert's condition with a view of determining when he can leave and the report had to be made that he is probably developing a case of measles. Under the circumstances I take the liberty to ask that you hold a place for him until our school physician can assure us that all danger of infection is past. We will then send him on.

Regretting that such a report has to be conveyed to you and hoping that you will not be inconvenienced by my request to hold a place for Albert, I am,

At the suggestion of the Office at Washington I respectfully ask that you wire me whether you could arrange to accommodate Albert Foster, one of our Choctaw young men who is now afflicted with pulmonary tuberculosis, in the sanatorium under your jurisdiction. It was desired that the young man be admitted to the sanatorium at the Phoenix School, but Dr. Breid stated that there is much complaint about the heat when students enter there at this time of the year and so that proposed arrangement has been given up as inadvisable.

We can get a case record to you without delay when we hear that Albert can be accommodated if he proves to be a suitable patient.

Dear Dr. Breid:

May I call to your attention a copy of a letter as follows that was received here yesterday from Supervisor Wyly of the schools of the Five Tribes in Oklahoma?

"I have your letter of March 31, calling my attention to a copy of a report that has been made by your school physician, stating that Albert Foster, a Choctaw young man who was enrolled at Carlisle last fall, has incipient tuberculosis and it is recommended that he be sent home.

In looking up our record on the enrollment of this young man it is found that he signed his own application and that his father and mother are both dead. I am advised by the Agency here that there are funds to the credit of Albert on hand. I suggest that you request authority of the Commissioner of Indian Affairs for a transfer of Albert to the Sanitorium at Phoenix, Arizona, or to some other sanitorium in the western country. The Indian Bill now pending I am informed provides for a per capita payment of \$300 to the members of the Choctaw tribe and it might be that a portion of this money could be used when available to pay his expenses to the sanitorium. Perhaps I should state that occasionally pupils developing tuberculosis in some of our other schools have been transferred to the Phoenix sanitorium for treatment.

I would thank you to advise me at once whether

"It is entirely satisfactory to me if Albert Foster can be placed in the Indian sanitorium at Phoenix, Arizona. Albert is also developing tubercular trouble of the left hip. Please write and find out if the young man can be placed. Albert has at no time been in the best of health."

Will you please wire me as soon as convenient after you receive this communication ^{whether} ~~where~~ place can be made for the young man at the institution under your charge, so that it can then be determined what further help must be given to make the transfer possible?

Superintendent O. H. Lipps,
U. S. Indian School,

Carlisle, Pa.

My dear Mr. Lipps:

I wish to acknowledge the receipt of your letter of April 7th, regarding the admission of Albert Foster, a Choctaw, to our sanatorium.

I wired you last night that we were admitting patients ^{from Five Tribes} to the sanatorium upon special authority from the Commissioner of Indian Affairs only. We do not wish to admit patients unless we have a record to show that their condition is such that they are suitable cases. There is no physician's record to indicate the present physical condition of the patient. We are requiring this and I would suggest that a record be forwarded at once. Time can always be saved if a complete record is forwarded with your application for admission to the sanatorium.

I wish to call your attention to the fact that patients coming to the sanatorium at this season of the year do not, as a rule, do well and they soon complain of the heat. This is not the case, however, if the patients come

during the fall or the winter. I call your attention to this matter so it may be referred to the patient before he decides to come here. My experience with Oklahoma patients, especially from Eastern Oklahoma, is that they complain of the heat and are very anxious to get away during the summer. This being the case it seems to me that it would be advisable to send this boy to another sanatorium if such could be accomplished.

I wish to assure you, however, that we will be glad to do anything we can, and can make room for the patient if he proves a suitable case. We would require, if the Office approved, that this patient defray all the expense of making the journey from Oklahoma to Phoenix. This has been the requirement in all cases with other patients from the Five Civilized Tribes.

Immediately upon receipt of the telegram referred to by Dr. Braid the case record required by him was forwarded, but as he has now written more fully and to the effect that Albert's enrolment at this time may not be advisable I desire to be advised what other plans can be made and how I can assist further in arranging for Albert's care.

I note that the Superintendent states in his opinion it would be better to send Albert to the Choctaw sanatorium at Talihina if that institution is ready to admit patients.

The sanatorium at Talihina is practically completed but none of the equipment has yet been purchased for it and Superintendent Parker tells me that a superintendent, physician and other employees have not been appointed. It may be several months before the sanatorium is ready to take care of patients. I suggest that you submit this case to the Honorable Commissioner and request his opinion in the matter. It is realized that something should be done at once for the boy and if we wait until the sanatorium is opened at Talihina it may be too late.

in Oklahoma about
today weather they say
is pretty hot. Well
Mr. Lips I will be
glad if I go back
to Sanatorium

I try to get well as
soon and so I could
go back to school and
see all of my friends
at all at last by this
time Hoping to hear
from you soon

Mr. Albert Foster,

Blue, Oklahoma.

Dear Albert:

I have your letter and have to advise that if you have given up the idea of returning to Toledo that you get into communication with Mr. A. S. Wyly, Muskogee, Oklahoma. He will be able to help you I am sure.

Trusting that you are improving in health, I am,

Very truly yours,

Superintendent.

Dear Sir.

I received
a letter a few days ago
that was very glad to
hear that I have to
write to superintendent
at Saultain at Toledo
that way to be the
best way, and I would
like to go there. But
he may not let me
go back, so if that is
I will go at here near
my home, so will

or please tell me the
name of the town
to near that sanitorium
at here in Oklahoma

Please let me
at once. so just as soon
as I hear from you
then I am going there
at sanitorium, at all
and I write him
a letter today, asking
about going back.
But I dont know yet
he may not know
so what part country
north east or south
east and soon
