INDORSEMENT.

A child showing one-sixteenth or less Indian blood, whose parents live on an Indian reservation, Indian fashion, who, if debarred from the Government schools, could not obtain an education, may be permitted in the reservation day and boarding schools, but it is preferable that it be not transferred to a nonreservation school, without permission from the Office. Children showing one-eighth or less Indian blood, whose parents do not live on an Indian reservation, whose home is among white people where there are churches and schools, who are presumed to have adopted the white man's manners and customs, and are to all intents and purposes white people, are debarred from enrollment in the Government nonreservation and reservation schools. Superintendents, in all cases where doubt exists as to the degree of Indian blood of a child proposed for transfer, should fully satisfy themselves of the facts by affidavits from reliable persons, which affidavits must be kept on file at the school.

A pupil who has been regularly enrolled in a nonreservation school must not be taken to any other non-reservation school without the consent of both Superintendents and the Commissioner of Indian Affairs, and Superintendents will be held to strict accountability for such pupils taken to their schools.

A pupil dismissed from school for cause must not be enrolled in any other school without the permission of the Commissioner of Indian Affairs. Full facts must be submitted with each request.

Information regarding pupils to test eligibility and whether in need of Federal aid.

Dear Madam:

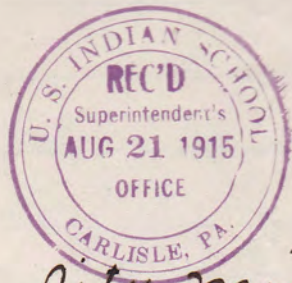

A week ago today your son David was sent to a Philadelphia Hospital to have his eyes examined and for the necessary treatment. Attention was given him but his return here was effected the following day. It will be arranged, however, so that David can go again some time next month for more extended treatment with a view of then giving him permanent relief.

David was required to pay for his transportation to Philadelphia and return. Later, when he goes again, a similar expense will have to be met. The treatment in the Hospital is given without charge, but an amount of \$1.50 per day will be charged for his board while he remains in the Hospital. Such a charge should be paid from funds to David's credit and I would thank you to advise me to what extent you can aid him. At present he has about \$5.00 to his credit.

Very truly yours,

HKM.

My dear Madam:

When it was learned from you some time ago that you would probably arrange to have your son David sent home to you for the summer months the plans that had been made to let him go to an outing home were cancelled at once and he is now here.

Just as soon as the amount required to pay for his transportation is received it will be arranged to have him start for your home.

My dear Madam:

Although arrangements have been made to let your son (David) go to one of our outing homes with the party of boys who are to leave on the 30th of this month, I will gladly comply with your request to let him come home for the summer months if you will provide the amount of \$16.28 that will be required to pay for his ticket.

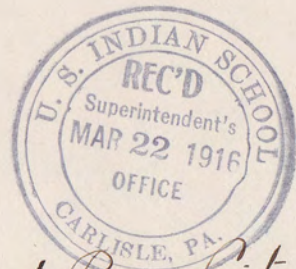

David's eyesight has become so greatly impaired that a complete rest at his home may be the best for him and on that account this favorable consideration is being given your request.

He will be allowed to leave at any time you specify and the required deposit to pay for his ticket is made.

My dear Friend:

Your letter of recent date has been received here and it is noted therein that you lost your suit case while on your way to your home. It is unfortunate indeed that you suffered such a loss and the only suggestion I can offer is that you notify the railroad authorities about the theft if you did not do so at once when you discovered your suit case was missing.

I am glad to know you are feeling better and it is hoped the rest at home will serve to strengthen your eyesight.

Dear Sir,

I will drop you a few lines to let you know I am well and happy every since I got home.

Well the first three weeks I did not do any but spent my time looking and visiting around.

Well after three weeks I came home and no more got home when they came after me to work at the Industrait works and was getting 22½ cents an hour and one morning about 3 o'clock as I was riding home and I found out I was catching cold and that layed me off two weeks and did not go back to work.

But I struck a better
job piling up lumber and
keeping it up yet.

Well is there or will there
be room for me to come back
some times next month.

Well this is all for this
time

Dear Friend:

I have your letter of the 26th instant, in regard to your wish that your son, David, remain at the school this summer, and in reply have to advise you that as yet he has not made application to go to the country. However, if you do not wish him to go out this summer we will see that he does not go, but my advice to you would be to let him go. Every spring the pupils look thin and a change of food and life in general is often for their best good. We could place him in a home where he would be required to do only light choers and the change of food and air would be good for him.

Let me hear from you again on this subject.
