Mr. Horace J. Johnson,
Superintendent, Sac and Fox School,
Stroud, Okla.

Dear Sir:

Our School Physician has noted on the duplicate of the application for the enrolment at Carlisle of Harry Davis that he has found the boy in good health, and the paper is now being returned to you herewith for your files as was requested in your favor of the 8th instant.

I am also taking the liberty to enclose herewith papers you will probably want for the files at your office, which may have been sent here by mistake.

When Harry Davis arrived at Carlisle he reported at this office and stated that he had a pleasant trip. The boy created a favorable impression upon his arrival.

Very respectfully,

OUTING RECORD - CARLISLE INDUSTRIAL SCHOOL

69

Sac and Fox Indian School,
Stroud, Okla. Mar. 7, 1917.

Harry Davis,
Carlisle, Pennsylvania.

Dear Harry:

I have your letter of the 23rd ult. with your school report card inclosed and am very pleased to note that your standing in all of your studies is so good and that in deportment you have 98 to your credit and in effort you have the same standing.

You say in your letter that you are going to brace up so that you will pass in examination. Do brace up and keep braced up. There are many of us who resolve to brace up and we do for the time being but the people who are worth while are those who brace up and keep braced up. That is the best line in all your letter, "I am going to brace up from now on, in my studies". There is great need for the people of your tribe, especially the young people to brace up and make something out of themselves for the time is coming when they will be in sad need of that character which is given only to those who brace up and stay braced up.

I am glad that you are enjoying yourself with your hard work. Hard work never killed any one, especially a young person growing up. With efforts at hard work you will grow

2.

strong and stronger. It certainly would be a pleasure to all those who are interested if there could be a better class of sturdy young Indians come back from the schools and amount to something after they get back home? Let us count upon you to be one of these men who after his life in school becomes a credit to his people and can by good example point them to the better way.

I am sending you some money through your superintendent, \$33.00. You do not need to spend much money while you are in school and you must be seeking ways of earning money every opportunity that you can see. Do not be ashamed to do any sort of work that comes your way and do not be afraid to do more than you are paid for. One trouble with our young folks here is that they are continually trying to waste their money in various ways and never do they think much about saving or earning. Your education will not be complete if you do not give a great deal of your thought to ways and means of getting and saving money. Wastefulness, no idea of the value money has and too great generosity has made the Indian people, many of them, paupers, and you, who have in your own right enough to enable you to live comfortably, must learn to earn and to save.

Very Truly Your Friend,

Horace Johnson

Dear Harry:

I have your letter of April 27th with report for the month of April inclosed and I am pleased to note your standings are all good in your studies and in effort and deportment you have as high standing as any one could get in your work in the school room. Effort and deportment in the industries for you is not quite so good and you must make a point of improvement along these lines as well as in the actual work in the dairy for this coming month.

It is very easy for a boy to be inclined to play at his work or to be a little neglectful at times especially if he be not feeling just as he ought but you must not be one of these but make your work a great pleasure to you for you are of the generation of Indians who will have to work and you had better make of yourself the finest kind of a work man now while you are of an age to learn. Old boys cannot learn like young ones so you make the best use of your time while you are young.

Your brother went to Phoenix last week. He went alone and I hope that he will send us as good reports as you do and that he will make the best kind of a student while he

2.

remains there. He was not doing any good on the reservation here and was not very strong so that the Doctor here could not pass him for Carlisle. He wanted to go to Carlisle so as to be with you but I think that it is best for him that he has gone to Phoenix.

Your rating in music is pretty low. I suppose that this is in vocal. If it is you must remember that it is a fine thing for a boy to lift up his voice and sing and if I were you I would make a good noise, at least, and show the teacher! that even if you cannot ever make a fine singer on the stage you can do your best to get there while you are being taught in school. See if you cannot get more than 75 in music next month.

I shall be glad to hear from you at any time and will always take time to write some kind of answer to your letter. You had better see your superintendent and get some good place where you can work and earn something this summer. There is nothing much for you to come back to here and I have some doubts about your being a better boy when the time comes to return to school if you lie around the reservation homes here this summer in idleness.

Horace Johnson

Dear Harry:

MF

I have your report for the month of November and notice that you have brought up your averages on nearly every subject except civics, English and Carpentry. Now you go at it and bring these three up to what they should be. I do not believe that there is an Indian carpenter on this reservation that could make his living at that trade and there are dozens of young Indian fellows who have had a chance to learn the trade while in the Government schools. A good carpenter can make as much as \$5.00 a day and that would be a fine trade for you to learn if you find yourself capable of learning it.

In one of your letters to me recently you said that you did not know what your vocation would be after you left school. That is the trouble with hundreds of young men they do not seem to think enough about themselves and their future to make up their minds what they are going to do. That is why so many of them do not amount to very much in after life. This is something for you to think about.

Do not be ever trifling and good for nothing fooling away your time. Be something worth while. Write again.

Harry Davis,
Carlisle, Pa.

Dear Harry:

I have your letter with another request that money be sent you. Now I know that a boy or a girl likes to have a little money to spend now and then as they get older, but your requests of that kind have suddenly become numerous, especially since I wrote you a letter telling you, at your request, how much you had in bank. I am afraid that you have gotten the notion that you are pretty well off whereas you have but a very few hundred dollars.

True, you have more than a good many boys have, but you must not think that you are rich and can have much money to spend. I have been praising your saving to other students who have been writing me for money from their bank accounts. I told them that you went out in the summer and earned your expense money for the year. Think this over now and if you are getting in with some fellow who has no bank account and who has discovered that you have one, you tell him to go out and earn his own money. There are too many slackers of that kind even among boys at school. Save your money.

Dear Harry:

I have your letter of the 2nd instant with reference to the matter of your coming home for a vacation this summer and I am sorry that you have gotten this notion into your head. Besides this, when you think of it, there is nothing for you to come home to. Your brother is in Phoenix and the old lady stays from one place to another. She is getting old too. She is not closely related to you either, though she has taken care of Frank and you in the past.

I want to ask you to turn this over in your mind again. There is nothing for you to come home for; 2. a change into this climate in the summer time will not be good for you; 3. It will take quite a little bite out of your bank account to get you home and keep you while you are here and send you back again; 4. if you are able, it would be better for you to go where you can do some kind of work and earn some money during the summer. Think these things over and write me again. I believe that you will be sensible and see it in the right light. You have been a pretty good boy about not asking to spend your money and I want you to keep on with this good inclination.

2.

Go to see Supt. Francis and talk it over with him. He is interested in you as am I and he will, I am sure, give you the best kind of advice.

After you will have seen Mr. Francis write to me a-gain telling me that he and you have decided that the best thing for you to do next summer is to go out on a good farm somewhere in that New England country where every body works, and saves, and makes all ends meet some how, instead of coming down in this hot country where ~~many~~ lazy people live and where they put off until tomorrow what they should do today and some of them never work at all but have a life long vacation. They lie around and go to the feasts and dances and ride in automobiles and call it having a good time- think of this and tell me what you have decided. Do you want to come back here where it is harmful for you or, will you go to some good home where Mr. Francis will send you for the summer?

Dear Harry:

I have your letter of the 23rd inst. in which you state that you had a talk with Mr. Francis and that you had decided to go out and work some where the coming summer. That was the right decision for you to make.

You are wishing that you may be given a good place to work. Think about the other side of the question too and hope that you will prove to be good enough for the place. Have you ever thought about that side of the question?

I believe that I told you, in one of my letters to you last summer, to be the kind of a boy that the 'boss' will wish to come back every summer. If you think about it seriously and look about you and listen to the talk and study the ways of many other boys, you will find among them those unfortunates who say that they are going out to have a good time for the summer. You see that you are worth while wherever you go and that you earn your wages and enough more to pay the 'Boss' for having to bother with you through the summer. I will send you some money after the first of April as soon as I can get to it.

Dear Harry:

I have your letter about investing a part of your money in the Union National Bank of Chandler in Liberty Bonds and have to advise you that as much of your funds as is justifiable will be placed in the purchase of Liberty Loan Bonds.

You state that you belong to the Invincible society there at Carlisle and that the Society is trying to raise funds for the purchase of bonds in the sum of \$200.00. You say that you feel that you should contribute your share toward that society bond. If the members of the said Society are living up to the name "Invincible" they will have no trouble earning the money to buy the bond which you mention. If they had \$180.00 of the money, before I can get this letter to you they will have raised the balance which would be \$20.00. It would reflect no credit upon you if I were to take money from your account directly to help you do your part. You should either take your share of that money from your allowance or find some way to earn it. There are many ways that a boy can earn money.

I would be glad to pay a good boy every Saturday to

2.

help work around my place but there is not one that would be worth even his dinner to be found around here not to think of paying him fifty cents or a dollar for the work he would be supposed to do.

I want you to make a man of yourself and I am glad that you write to me and I will always answer your letters but I want you to get some sense into your head and forget that you have a little money here with me. I want to make you understand that it is better to add to your account than to take away from it. You will have to have money of course. You are getting to the age when you will have need of money but you should be able to earn some for your self. There is many a white boy who earns his way through school, high school and college without any help at all.

See if you cannot earn your expense money for the year this summer and if there is any employe or any other person that you can do chores for or any other kind of work that will help you, get at it and place yourself where you will be able to send me a little money to deposit with what you already have instead of asking me to send you money.

Work and earn a nickle wherever you can. Do not be ashamed to do honest labor no matter what kind.

Dear Sir:

Harry Davis deserted from his outing home July 15, 1918. We have heard indirectly he is now located at Hog Island, Pa., working in the Government Shipyards at that place.

Henry Ingalls deserted from this school in June and we have not heard anything of him since he left here. Your letter is the first intimation we have had of Henry's whereabouts and no action, thus far, has been taken to apprehend him. Henry is a bright boy and can easily take care of himself. This school is being closed now, and we have no one to send in search of him.
