My dear Mr. Wyly:

You may assure Mrs. Frances Green that her daughter, Willie L., is in good health and that there is no cause for alarm about the reports that have been made by the girl.

When your letter of the 15th instant in regard to Lucy's health was referred to our School Physician he submitted a statement as is copied below:

> "My records show that Lucy, called Willie Green, weighed 119½ pounds on first entering school and that at the present time she weighs 129½. My greatest fear is that she is growing too fat.
> Lucy has been in the hospital on several occassions with such minor troubles as to give rise to the suspicion that she was simply in for the purpose of taking a rest cure."

My dear Mr. Lipps:

Mrs. Frances Green,who lives here,called at the Office yesterday and showed me a letter she has from her daughter, Willie L.,who is now enrolled at your school. The girl represents that her health is not good and that she has lost in weight materially since entering Carlisle. The mother is very anxious,of course, concerning her daughter's health and has requested that I write you to have the doctor examine and report as to the condition of her daughter's health.

My dear Madam:

Our school physician reported this morning that your daughter Lucy is now in our hospital for observation in regard to the condition of her health and that she is now having slight rheumatic trouble. In view of the fact that Lucy does not seem very strong I desire to be advised whether you could cooperate with us to the extent of letting her return home for the summer months. It would probably enable her to regain her strength so that she could resume her studies at the opening of the next school year.

Lucy is not ill, but it seems advisable to do something for her and it will be appreciated if you can let me hear from you.

Very respectfully,

HKM. Acting Superintendent.

Mrs. Frances Green,

My dear Madam:

When your daughter Lucy was seen at this office yesterday she stated that she has recently written you a letter, so that you have probably heard from her direct before this communication is delivered to you that she has been well and that she is getting along satisfactorily with her work and studies.

Lucy also stated that she is yet anxious to go to an outing home for the summer vacation months, so I take the liberty to explain that Lucy would not leave Carlisle until the work for the year closes and not for the purpose of earning money. Placing her in an outing home would be for the purpose of gaining additional experience in housework and the household arts as practiced in a well managed home in a community where conditions are different from those in your home and that could be made possible in our departments here. It would afford her the opportunity to make the acquaintance of a splendid class of people and to form associations beneficial to her in every way. The out-

ing homes to which our girls are allowed to go are carefully selected and every effort is made to protect our girls in such homes just as carefully as they can possibly be cared for and protected here. An agent from the school is constantly in our outing districts during the vacation months and assists in every way possible to secure for our girls what fits them best to go into homes of their own when their school days are over.

If I can be of further service in this connection please do not hesitate to let me hear from you again and if you insist on having the privilege of going to an outing home denied your daughter your wishes in the matter will be respected and Lucy will have to remain here during the vacation months.

Very respectfully,

Please find enclosed herewith a letter in regard to the condition of Lucy Green's health, and about which you wrote to me in your favor of the 8th instant.

As the girl is not at all in a serious condition the mother should be advised not to inconvenience herself to secure what will be necessary to pay for Lucy's transportation home. However, it may be just as well if the girl is taken home at a later date because she does not seem to be doing very well and her physical condition is not altogether satisfactory.

I shall gladly cooperate further as will be recommended.

Supt C. H Laipps,
Carlisle, Pa. Indian School,

Dear Sir,:

Regarding Lovey Green's conduct, it has been far from good. Nothing dreadfully bad, but continual annoying little things. As I usually do with the new girls I put her on detail in diningroom and in laundry first. Many complaints came to me from both departments about her shirking work, and being silly. She had to be moved from off the boys side of the dining room. Both of my assistants as well as officers in charge and her room mates brought complaints and I have often had her in the office but have never had even a half hour to spare at one time with her. Miss Knight had quite a time with her on account of her sanitary clothing. Many times I have called her from the school line on account, as I told her, of the freakish way she would dress her hair and sometimes the way she would get her clothes on. Last winter

DEPARTMENT OF THE INTERIOR

UNITED STATES INDIAN SERVICE

when we had sick girls in quarters Lucy would be around seemingly having a good time and when the Dr. would get up to see her room mate would find her up on top of bed covers covered up with clothing and he said he could not find any thing the matter with her. Miss Knight found many untruthful statements given regarding clothing and condition of room. I know of no difference in the treatment given her and others, only as to difference of conduct. Lucy is not a bad girl, really at times very sweet tempered. I have often found her very fancifully dressed going over to help clean in the dining room and said to her, "that coat is entirely too dressy to wear as you wear it and told her I had had to talk to her and correct her more than almost any one. She is now in hospital with rheumatism and told the Dr she had had it before. I think with very careful care and advice Lucy will make a nice girl. I also forbid her signing her name "Bill."

Mrs. Frances Green,

My dear Madam:

When your letter of the 3rd instant was received here it was referred to our school physician with a request that he let me have a report in regard to the condition of your daughter Lucy. A statement was issued at once and a copy of it appears below:

> "Lucy Green has not been in the hospital for some time although I have prescribed for her rheumatic pains off and on. I must confess to the fact that I have at times suspicioned that Lucy plays off or malingers, yet I have always given her the benefit of the doubt. Her general condition is good and there certainly is no cause on the mother's part to worry unnecessarily. Certainly there is nothing about Lucy's condition that should excuse her writing home."

When Lucy was seen at this office this morning about your complaint that she has not written to you she stated that a reply to a letter she received this week has gone forward. She also stated that she does not want to go home at this time and that she has not been troubled quite as much with rheumatic pains since the warmer weather has begun.

In view of the statement that has been submitted by our physician and Lucy's assertion that she does not want to go home, it is believed that there is no reason for your denying yourself in order that you can accumulate a sufficient amount to pay for Lucy's transportation home. However, whatever requests you make will be considered.

Very respectfully,

Secretary.

Dear Mrs. Green:-

Lucy applied to go under the outing several weeks ago and she was told to write to you for permission to go out. I have read your letter carefully and believe that Lucy would better remain here this winter. If you have no objection to her going out next spring for the summer, I would be glad to send her out then.

The girls who go to live with families during the winter must be girls who are willing to get down to real business. They attend school all day but must work mornings and evenings for their board and care. You understand that this would keep a girl pretty busy. I fear that Lucy could not do justice to both her school and home work.

Dear Madam:-

Compying with the request contained in your letter of the 2nd, I had our school physician make an examination of your daughter and he has submitted the following report,-

"Lucy Green reports herself as perfectly well and upon examination, I find her normal ".

The above report should quiet your fears regarding the health of Lucy.

Relative to her work in school, Mr. Blair, the principal reports that while she is not one of the most brilliant in her class, she gets along very well.

Dear Madam:

I have your letter regarding your daughter Lucy and am glad to answer some of the questions which you have asked regarding the girls going under the outing.

I want to tell you first that I have been told by Miss Johnston, who has charge of placing the girls in their outing homes, that Lucy has been placed with a very fine Christian woman who will care for her as if she were her own daughter. This lady, Mrs. Alfred Fassitt, of Kennett Square, Pa., has had several Indian girls in her home in the past and she understands their nature and always has taken good care of them. I feel sure that Miss Johnston placed her in this home after very careful thought and consideration over Lucy's character.

I feel sure that if Lucy does her part that Mrs. Fassitt will take good care of her.

I am enclosing for your information a copy of

our outing rules. You will see by reading these over carefully that we try to take care of our girls when they are under the outing just the same as we do here. One of the things that we are most particular about is that the girls should not be left in the house either by day or night alone. All our patrons understand this and in fact we do not place any girls in homes where the patron cannot comply with this requirement.

Trusting that this information may quiet your fears about your girl, I am,

Very truly yours,

Dear Madam:

I have a letter from Mrs. Alfred Fassitt in whose home your daughter Lucy is living, saying that she has written to you every week since she has been there.

Mrs. Fassitt cannot understand why you do not receive these letters. She had Lucy write one immediately upon the receipt of my last letter requesting that this be done. Please let me know if you received this.

Dear Madam:-

Your daughter Lucy has had some trouble with her teeth lately and the dentist estimates that it will take about $6.00 to get them fixed. Lucy has no money here and would appreciate it if you would send her this amount so she can pay for the work which has to be done.

As her dentist bill will come to this office, I would suggest that you send the check or money order to me, making it payable to me as superintendent.

Very truly yours

Dear Sir:-

Referring to your letter of the 2nd inst relative to dental work for Lucy Green, I have to advise that Lucy says now that she received the $6.00 from her mother sometime ago. She had spent all but $1.60 of this amount which the matron sent to the office this morning and which has been placed to Lucy's credit in bank. She has had some dental work done, costing her $1.00. This will be paid for and no other work will be done for the present.

In my letter to Mrs. Green asking her to send money to pay for dental work for her daughter, I asked her to make the check or money order payable to me as superintendent. Had she done this, the matter would have been attended to without any trouble.

Very truly yours

Dear Mr. Francis:

Replying to your letter of Feb. 28 with reference to dental work for Lucy Green, I stated in my letter of Feb. 25 that Mrs. Frances Green, the mother, had told me that she had sent $6.00 to pay for this work. Mrs. Green is a widow and has some small children to support and is without income other than that derived from her labor. I do not know that she would be able to send an additional amount of money to Lucy for this purpose.

I would thank you to investigate this matter before the work is done.

Dear Sir:- I am in receipt of your letter relative to the request of Mrs. Frances Green to have the dentist do some work for her daughter and have referred the matter to our physician who will attend to it at once. I will send the amount of the bill to Mrs. Green and she can send the check direct to me. In most cases, we require the deposit of money first before the dental work is done. This is the reason why Lucy's work was not done.

Dear Mr. Francis:

Mrs. Frances Green, the mother of Lucy Green, who is attending your school, tells me that some time ago she had a letter from you requesting her to send $6.00 for payment of dental work for Lucy. She says she has lately had a letter from her daughter saying that the work had not yet been done, and she desires to know why this matter has not been attended to and when the work will be done.

Thanking you for an early reply, I am,

Dear Mrs. Green:

I have a letter from Supt. Francis of Carlisle,in reply to my recent letter to him with reference to dental work for your daughter Lucy. He states that some time ago she received $6.00 from home and that she has spent all of this amount but $1.60 which the matron only recently depocited to Lucy's credit in the bank. She has had some dental work done costing $1.00 and this will be paid for but no other work will be done just now.

The Superintendent states that in his letter to you requesting the money to pay for dental work for Lucy he asked you to make the check or money order payable to him as Superintendent but that you did not do this,otherwise the matter would have been attended to long ago. In the future when you send money to Lucy please make your drafts or checks payable to the Superintendent and the amounts will be deposited to her credit in the school bank and in this way any possible trouble will be avoided.

If you desire Lucy to have further dental attention you should send an additional amount of money.
