I thought I would write to you and let you know how I like this school. I like it very much and also my class mates. I'm glad that you sent me up here. While I was coming I had a good trip and I have seen different things than what I saw in Oklahoma. I'm learning pretty good here. I'm taking up tailor trade and I hope I make a good tailor out of myself in few years the way I'm showing. We are making uniforms for the boys here at school. All of us new beginners are learning how to make uniform pants.

The people in town are interesting in teaching the Indians how to be good Christian they come out here every Monday evening.

The weather here is a changeable some times we have a pleasant day and other times cold days, especially today is a cold day and we don't know what kind of day is going to be next it is hard telling.

Well Mr. Miller I will close here and all I want ask is, will you please sent me some money about thirty dollars. If you please. Good-by.

Referring to the inquiry contained in your letter about the preparation that is necessary for selection to take the special work at the Ford Motor Company's factory in Detroit, Michigan, this is to state that mechanical ability would be a great help in doing that work. However, if you will do as good work here in our shops as you have done under our outing system there is no reason why you should not be able to prepare yourself for selection to go to the Ford factory. When you return here I want to see you at my office in regard to this matter and I can probably then arrange so that you can begin at once to take work that will fit you for selection.
