Miss Anna Mae Melton,

R. F. D. 1, Afton, Oklahoma.

My dear Miss Melton:

Upon receipt of your letter of December the 8th it was referred to our Principal Teacher with a request that the marks made by you during your last year at Carlisle be listed as you desired. A report as follows has since then been addressed to me by the Principal:

"Anna Melton was graduated here in 1912 with the following marks:-

English (1st year high school)	90-3/4
Arithmetic (high school review)	70
Geography (high school)	76
General History	90

Each of the above subjects was given a full year, so that in any high school where review of arithmetic is allowed a credit, Miss Melton would be entitled to four full credits."

Trusting that the information given above will give you the assistance requested and that you are meeting with success, I am,

Very truly yours,

HKM.

Supervisor in Charge.

My dear Friend:

The telegram that was received here from you several days ago contained the following:

"Mail grades and figures, subjects complex. Need them for certificate."

Presuming that it should have been "subjects complete" instead of "subjects complex", I submit below a list of the passing marks you made when you completed the work of our Senior year, which includes the subjects generally studied in the Tenth Grade:

English	90-3/4
Arithmetic	70
Com. Geog.	76.1
History	90

Hoping that this will give you all the information that is required, and that you will not hesitate to write me again if I can assist you further, I am, with

in sending the grades, which I received  
in due time.

the work fine. I often think of my

## SUGGESTIONS FOR SUPPLYING THE INFORMATION REQUESTED ON THIS BLANK

---

1. The report of nonreservation school Superintendent should be made at the time or a little before the pupil leaves school, whether at the end of the school year or during the school year, provided the pupil is 18 years of age or over, or younger, if for any special reason the pupil is quitting school permanently. As soon as this report is received, or at least very soon after the pupil returns home, the Supervisor of Indian Employment will correspond with the returned student for the purpose of getting more in personal touch with him and finding out something about his wishes, etc. His answer will be attached to and filed as part of this report.

2. Health, height, and weight of returned students are sometimes very important in placing them properly; height and weight could be approximated very satisfactorily, though from the pupil records now in use all information called for in part 1 of this blank can readily be obtained and be definite.

3. The State, agency, and tribe are important, and where the pupil is not attached to any agency this fact should be stated and the Superintendent should give all available information as to the home and local conditions surrounding the pupil.

4. Where the outgoing pupil has passed the civil-service examination for any position, this fact should always be noted, giving position for which examination was taken.

5. It should be remembered that the Supervisor of Indian Employment can but seldom have a personal acquaintance with the outgoing student, and that he must depend on the information furnished in this report for his basis of action in behalf of the pupil.

6. The degree of Indian blood should always be given, as this fact largely determines how much effort will be made on behalf of any particular returned student; qualifications being equal, or nearly so, the preference will be given to those having the greatest degree of Indian blood.

7. This report should be forwarded promptly to the Supervisor of Indian Employment, Denver, Colo.

8. Reports on students from reservation schools should be made only as to those who leave the schools at 18 years of age, or older, and who will probably not go away to school.

9. If part 1 of this report is made out by the principal of a reservation school, the reservation Superintendent should supply information called for in part 2 if the principal is not informed as to home surroundings and local conditions. Such information is essential to a proper understanding of the difficulties and needs of the pupil.

10. When part 1 is made out by a nonreservation Superintendent, this blank will be sent by the Supervisor of Indian Employment to the Superintendent of the reservation where the outgoing student belongs. He should fill out part 2 and return the blank as promptly as possible, for practically nothing can be done until the information called for in part 2 is supplied.

Information under the heading "Employed since return as follows," will be valuable only in cases where the pupil has been home for some time.
