INDORSEMENT.

A child showing one-sixteenth or less Indian blood, whose parents live on an Indian reservation, Indian fashion, who, if debarred from the Government schools, could not obtain an education, may be permitted in the reservation day and boarding schools, but it is preferable that it be not transferred to a nonreservation school, without permission from the Office. Children showing one-eighth or less Indian blood, whose parents do not live on an Indian reservation, whose home is among white people where there are churches and schools, who are presumed to have adopted the white man's manners and customs; and are to all intents and purposes white people, are debarred from enrollment in the Government nonreservation and reservation schools. Superintendents, in all cases where doubt exists as to the degree of Indian blood of a child proposed for transfer, should fully satisfy themselves of the facts by affidavits from reliable persons, which affidavits must be kept on file at the school.

A pupil who has been regularly enrolled in a nonreservation school must not be taken to any other non-reservation school without the consent of both Superintendents and the Commissioner of Indian Affairs, and Superintendents will be held to strict accountability for such pupils taken to their schools.

A pupil dismissed from school for cause must not be enrolled in any other school without the permission of the Commissioner of Indian Affairs. Full facts must be submitted with each request.

August 4th, 1914.

Mr. Montreville Yuda,
Carlisle, Pennsylvania.

Dear Sir:

It has been reported to me by the Postmaster at Carlisle that Money Order No. 52773, issued at Gordon, Nebraska, July 26th, 1914, in favor of Joel Turning Holy, was transferred to you by Joel and that you then deposited it in the Farmers Trust Company.

It cannot be necessary to say that such action is a violation of the rules that have been established at this school and that your attitude cannot be believed to be anything but a lack of co-operation in a matter that has been found to be of great importance. It certainly cannot be considered a credit to you to assist boys in evading very necessary school rules.

Very truly,

Supervisor in Charge.

Dear Sir:

Your telegram arrived yesterday. I investigated your letter that was supposed to have been received at Hog Island. But no knowledge or it can my department claim. Now as for me receiving one I can say it never reached me.

If you have any matters pertaining to the students while in training all correct.

at work, I had to finally put³
them to work, they couldn't
get a job anywhere around
Philly, several of them went
to munitions plants but
didn't last long, they were
getting in debt to me, and
being loose were likely to
be pick up as Vagrants.
There are three here in
another department who might
be run away. I just found
out today of a run away from
the Country House Plaume
or some such name as
that, Cushing is now making
over \$30⁰⁰ per week also
Caddotti. I find also Jake
Herman here making \$30⁰⁰ per

spondence should be taking up

Hog Island. Now if their
are any special or personal
matters why I am always
on the job to be of service
to you and the school.
Several of the members of
the last graduation Class
came to me about two
weeks ago or more, to get
to work, but I held back on
them waiting for the boys
from school, they showed
me letters of recommendation
from their instructors at
school, so they are now

and several other boys are here in other
departments now if they are anyone
why its up to the school to clean
house. I suppose you have ar-
ranged, all matters for the boys
money & Quarters, as I said before
we have no records of your letter
of the 17th. We are ready,
for the boys at once if
you have fixed the other
matter up. The boys that
are working here now
are living on the grounds.
When boys are sent I would
like very much to see them in
their uniforms as every thing
around here is military and then
again they look so splendid,
they will make a good showing
that is providing there is no ob-
jections from you are the Indian
Department and at once

Carlisle, Pa.

Dear Friend

Your letter of the 21st at hand,
informing me of the position I have
offered to me through your kindness.

I appreciate your gratitude you
have shown me at the present time,
and with my whole heart I will
endeavor to make good.

I have lived here in town for nearly
four years, right under the shadows of
this great school. I have tried to live a
life that would not bring disgrace
upon myself, or the institution I graduate
of, or the Indian race. I shall take
that feeling with me in my new

field of work, for I know if I am a dis-
grace to myself, I then destroy all the good-
ness, that the school expects of me and
what the Indian race wants of me.

By all means I will try very hard
to do good, for the sake of those
who expect much of me, (my Alma
Mater)

I shall try to have a keen eye, a still
mouth, and make good use of every
opportunity that confronts me.

Thanking you again, as I feel very
grateful to you for your timely advice

Very truly yours

Monteville Yuda

Dear friend:

I am enclosing a letter which I received from the New York Shipbuilding Company this morning. You can comply with the suggestions in the letter.

I want to call your attention to the fact that you are securing this position through the recommendation of the school and that we expect you to live up to your very best. If you fail it will be the failure of another of our Carlisle boys. If you succeed we shall all be gratified.

With my best wishes for your success, I am,

My dear Mr. Yuda:

This will introduce to you Mr. David H. Hill who has been seeking enrollment at Carlisle. Upon inquiry I find that he is Canadian born in view of which his enrollment at Carlisle has been refused by the Indian Department.

He tells me that he finds he needs additional education, and I am in hearty sympathy with him. I am wondering if you cannot procure some sort of a position for him with the ship building company so that he can attend night school. Here is a chance for you to work out something for a member of your race.

Yours very truly,

Superintendent.

My dear Mr. Rootz:

Montreville Yuda, a graduate of this school, informs me that he has made application for the position of shipper and calker instructor at the new plant which you are organizing.

Mr. Yuda is now employed and has been employed for some time, I am advised, by the New York Ship Building Company of Camden, N. J.. He is a graduate of this school and received training in various industrial branches. His knowledge of shipbuilding of course has been obtained since leaving the institution. He is a young man of Indian blood; bright and energetic and has successfully made a living since leaving this institution.

I would be very glad if it would be possible for you to give him the opportunity of showing what he can do in connection with any available opening with your company along the lines indicated which he might desire to obtain.

Sincerely yours,

Superintendent.

Dear Friend:

I have your inquiry regarding the race blood of Montreville Yuda, class 1913, Carlisle, and have to say that our records show that he is three-fourths ($3/4$) Indian and claims to be an Oneida. You know what he looks like as well as I do, but neither of us can produce any proof other than his looks that he has African blood.

Mr. George M. Andrews, Mgr.,

My dear Sir:

Montreville Yuda, a graduate of this school, has brought to my attention the fact that he has been offered an opportunity to attend the Newport News Ship Building School which will pay him a salary of \$250.00 a month. This offer, I am advised, was made in view of a recommendation made by me to the American International Ship Building Corporation.

Mr. Yuda informs me that he is now receiving approximately \$180.00 a month from your company and it is obvious that the Newport position will be a material promotion for Mr. Yuda. He advises me that your company objects to releasing him.

Naturally I am interested in the advancement of Mr. Yuda as he is a product of this institution. I would appreciate anything that you can properly do ~~to assisting~~ circumstances which would permit Mr. Yuda to obtain the promotion which he seeks.

Dear Sir

I regret very much the affair of Coulter the student who ran away from school to come here and work. I do not know the young man, and furthermore I have not corresponded with anyone at the school but Mrs Wallace Dewey. I know the rules of school and I am trying my best to live up to the standard of the school for I know what one I should do in life why Carlisle will

2

bear the burden, so I am doing my
best to be a man.

Going back to the affair of Mr Coulter
do not think for a moment that his
presence in Camden was through me.
Two police men came to my boarding

as though he was a (German spy)

that if the wagon would take him ^{the}

I have invested a 100⁰⁰ with the Government for a Liberty Bond.

I have spoken to the boys here about how they should be in regards to their conduct. As the future of other students leaving the school during vacation time depends on their actions, so far the conduct of the young men here is (very very good) If at anytime their conduct is not in harmony with the Carlisle spirit, I shall feel it my duty to inform the school.

I trust that you will not in any way place the least blame on me for Mr. Cullin deserting, as I am innocent.

Mr. Montreville Yuda,

Camden, N.J.

My dear Mr. Yuda:

I am just in receipt of your letter of June 11, 1917. It is such a manly, straight-forward letter. It appeals to me and I am answering it at once.

I have not for one moment connected you with the Cuellar affair and your attitude throughout the entire matter, as far as I can see, has been that of a decent upright fellow.

I appreciate the way in which you assisted in turning Cuellar over to the police without making a scene. I regret to have to resort to such means to make boys who have entered into an agreement with the Government and are being educated at its expense, to live up to their agreement, but while I am at the head of Carlisle I will use every force in my command to see that they keep their word.

As far as Edwin Miller is concerned he is a graduate of the school and had a perfect right to go where he pleased. He is inclined to be sullen and discourteous if he does not have his own way and when I refused to pay his railroad fare back to Oklahoma he, being over 21 years of age, became angry and left at the same time with Andrew Cuellar. The Indian Office forbade me to pay his fare because he had waived his right to railroad transportation at the end of his last enrollment when he went west with his uncle in an automobile.

I am willing for him to grow a little older and become a little wiser before he passes his judgement on his own actions. In the meantime I am very glad indeed that he has obtained a good job and

6/13/17

I wish him every success.

I also take this opportunity of wishing you success. As you say a skilled man can do just as much good for the Country in the workshop as on the firing line. The boys here are doing the same thing by helping on the farm, but I doubt if they understand it.

Your letter makes me glad because of one thing,- it shows that you have high personal standards. You could not bear to have it thought that you were connected with a desertion from your old school. You have the right attitude, my friend, and as you act square to your old school you will act square to all your friends in life, and the man that does that is the worth while man.

Very truly yours,

Hon. Cato Sells,
Commissioner of Indian Affairs,
Washington, D. C.

My dear Mr. Sells:

I have just telegraphed you as follows:

"Your telegram March 1st. Consider
it unwise to have Montreville Yuda
lecture here. Letter follows."

This is in response to your telegram advising me that Montreville Yuda, a graduate of Carlisle in 1913 and now with the Emergency Fleet Corporation as instructor at Newport News, wishes to lecture to the Carlisle students about March 15th on "Indians as shipbuilders."

My position in this matter is based on the fact that we have already had a lecture by a representative of the Emergency Fleet Corporation here. At that time we went into the case of the employment of boys from this school in the shipyards. I pointed out, and he agreed that while there were a few of the older boys who had mechanical skill and training sufficient to take part in this important work, that the large mass of the school did not. I suggested to him an arrangement whereby certain of our older boys might go to the shipyards under a similar arrangement as we have with the Ford factory. The representative seemed to agree with me in this matter and informed me that he would take it up with the proper officers, and I have received from him a carbon copy of a letter written by him to the Emergency Fleet Corporation.

Montreville Yuda procured his present position through a recommendation from me. He is a bright enough fellow but is not a man of mature judgment who I would care to have address the student body. His lecture would probably be of a character which would depict in glittering terms the high wages paid and to draw away from the school unskilled boys without the stick-to-it-ive-ness or the ability to measure up to the requirements of any position in a shipyard. These boys who could really do well on the farms under the Outing system would then lose their positions and, being ashamed to return to the school, would drift about and possibly soon return home. A larger number of our boys can do better work and will be much better off in country homes under some supervision than they would be in the shipyards. As I said before, we have some boys who could do well and those I would be glad to have go; we have others to whom the chief inducement would be the opportunity of getting away from discipline. Most of the yards are located in districts where liquor is obtainable and in such cases the results would be disastrous.

I feel that the relationship of this school to the shipyards can be best worked out by me with the authorities of the Emergency Fleet Corporation without the intervention of Montreville Yuda to spread unrest and dissatisfaction throughout the student body, and interfere with plans made with careful consideration of the best interests of the students with a full understanding of the patriotic responsibility of the boys to their country.

Sincerely yours,

JF-E

Suggestions for Supplying the Information Requested on this Blank.

1. The report of Non-reservation School Superintendents should be made at the time or a little before the pupil leaves school, whether at the end of the school year or during the year, provided the pupil is 18 years of age and over, or younger, if for any special reason the pupil is quitting school permanently. As soon as this report is received, or at least very soon after the pupil returns home, the Supervisor of Indian Employment will correspond with him, for the purpose of getting more in personal touch with the returned student, and finding out something about his wishes etc. The answer to this letter when received will be attached to and filed as part of this report.

2. Health, height, and weight of returned students are sometimes very essential in placing them properly, but height and weight could be approximated very satisfactorily, though from the pupil records now being gotten up, all information called for in part 1, of this blank, could readily be secured and be definite.

3. The State, Agency, and Tribe are important, and where the pupil is not attached to any agency, this fact should be stated as "no agency," and in such cases the Superintendents should give all available information as to the home and local conditions surrounding the pupil.

4. Where the out-going pupil has passed the Civil Service Examination for any position, this fact should always be noted, giving position for which examination was taken.

5. It should be remembered that the Supervisor of Indian Employment can but seldom have a personal acquaintance with the out-going student, and that he must depend on the information furnished in this report for his basis of action in behalf of the pupil.

6. The degree of Indian blood should always be stated, as this fact largely determines the amount of efforts that will be made on behalf of any particular returned student: Qualifications being equal or even nearly so, the preference will be given to those having the greatest degree of Indian blood.

7. This report should be forwarded promptly to the Supervisor of Indian Employment, Denver, Colorado.

8. Reports on out-going students from Reservation Schools, are made only on pupils leaving the school who are 18 years old or over, and who will probably not go away to school.

9. If Part 1, of this report is made out by the Principal of the Reservation School, the Agent or Reservation Superintendent should supply information called for in Part 2, if the Principal has not the necessary information on home surroundings and local conditions. Information in regard to home surroundings and local conditions is very essential to properly understand the pupils' difficulties and needs.

10. When Part One is made out by Non-reservation Superintendents, this blank will be sent by the Supervisor of Indian Employment to the Agent or Superintendent of the Reservation, where the out-going student belongs, to have Part 2 filled out. This should be filled out and returned to the Supervisor of Indian Employment, Denver, Colorado, as promptly as possible, for, practically nothing can be done, till the receipt of this blank, with Part 2 filled out by the Reservation authorities. The information "Employed since return as follows," will be valuable only in cases where the pupil has been home for some time.

SUGGESTIONS FOR SUPPLYING THE INFORMATION REQUESTED ON THIS BLANK

1. The report of nonreservation school Superintendent should be made at the time or a little before the pupil leaves school, whether at the end of the school year or during the school year, provided the pupil is 18 years of age or over, or younger, if for any special reason the pupil is quitting school permanently. As soon as this report is received, or at least very soon after the pupil returns home, the Supervisor of Indian Employment will correspond with the returned student for the purpose of getting more in personal touch with him and finding out something about his wishes, etc. His answer will be attached to and filed as part of this report.
2. Health, height, and weight of returned students are sometimes very important in placing them properly; height and weight could be approximated very satisfactorily, though from the pupil records now in use all information called for in part 1 of this blank can readily be obtained and be definite.
3. The State, agency, and tribe are important, and where the pupil is not attached to any agency this fact should be stated and the Superintendent should give all available information as to the home and local conditions surrounding the pupil.
4. Where the outgoing pupil has passed the civil-service examination for any position, this fact should always be noted, giving position for which examination was taken.
5. It should be remembered that the Supervisor of Indian Employment can but seldom have a personal acquaintance with the outgoing student, and that he must depend on the information furnished in this report for his basis of action in behalf of the pupil.
6. The degree of Indian blood should always be given, as this fact largely determines how much effort will be made on behalf of any particular returned student; qualifications being equal, or nearly so, the preference will be given to those having the greatest degree of Indian blood.
7. This report should be forwarded promptly to the Supervisor of Indian Employment, Denver, Colo.
8. Reports on students from reservation schools should be made only as to those who leave the schools at 18 years of age, or older, and who will probably not go away to school.
9. If part 1 of this report is made out by the principal of a reservation school, the reservation Superintendent should supply information called for in part 2 if the principal is not informed as to home surroundings and local conditions. Such information is essential to a proper understanding of the difficulties and needs of the pupil.
10. When part 1 is made out by a nonreservation Superintendent, this blank will be sent by the Supervisor of Indian Employment to the Superintendent of the reservation where the outgoing student belongs. He should fill out part 2 and return the blank as promptly as possible, for practically nothing can be done until the information called for in part 2 is supplied.

Information under the heading "Employed since return as follows," will be valuable only in cases where the pupil has been home for some time.
