Louis Roy, Sisseton Sioux, who came to Carlisle the first of the year, left Monday evening for Chilocco, Oklahoma, where he goes to accept the position of assistant printer. Louis, who is a good printer, came here the first of the year to take up cylinder press work. He did so well that his work has attracted attention, resulting in his being called to take charge of the press work in the printing department of the Chilocco school. Our best wishes go with him.

INDORSEMENT.

A child showing one-sixteenth or less Indian blood, whose parents live on an Indian reservation, Indian fashion, who, if debarred from the Government schools, could not obtain an education, may be permitted in the reservation day and boarding schools, but it is preferable that it be not transferred to a nonreservation school, without permission from the Office. Children showing one-eighth or less Indian blood, whose parents do not live on an Indian reservation, whose home is among white people where there are churches and schools, who are presumed to have adopted the white man's manners and customs, and are to all intents and purposes white people, are debarred from enrollment in the Government nonreservation and reservation schools. Superintendents, in all cases where doubt exists as to the degree of Indian blood of a child proposed for transfer, should fully satisfy themselves of the facts by affidavits from reliable persons, which affidavits must be kept on file at the school.

A pupil who has been regularly enrolled in a nonreservation school must not be taken to any other non-reservation school without the consent of both Superintendents and the Commissioner of Indian Affairs, and Superintendents will be held to strict accountability for such pupils taken to their schools.

A pupil dismissed from school for cause must not be enrolled in any other school without the permission of the Commissioner of Indian Affairs. Full facts must be submitted with each request.

a Chilocco student, he had a sincere ambition to become a craftsman who could work elbow to elbow with his white brother with credit to himself and his race. He accomplished this desire—became a good workman—and when offered the place at Haskell Institute as printer, felt it his duty to leave a more lucrative position to accept so that he might aid in the good work of educating his people. It was while at his duties at Haskell, where he did excellent work, that his health broke. He hurried to the Phoenix Indian sanitarium and remained there several months in an effort to regain his health, but realizing that the end was not far away, insisted on returning home where he might end his days among friends and the people he loved. Louis Roy was an exemplary student, one loved by his instructor—and it could well be said that he gave his life to a high-principled desire to help his race.

1915
Death of Louis Roy.

It is with sorrow the Chilocco friends of Louis Roy learn of his demise. He died at his home, Sisseton, So. Dak., sometime during the month of August. Louis Roy was a product of the Indian schools that we could all point to with pride. He started the printer's trade at Genoa, then finished it under Mr. Miller at Chilocco and Carlisle. When

Mr. Louis Roy in a letter written March 9, from Phoenix, Arizona, says: "It has been raining for two days and it hasn't cleared up yet! What do you think of that for, Arizona, as it hadn't rained here before since last October. It was very welcome—it settled the dust among other things. Everything is nice and green and it is sure spring weather. * * * I have often wished I was back at Haskell when I see the many events I am missing. I will certainly visit there one of these days." Mr. Roy sent a picture of his "bungalow."

Mr. Louis Roy, who had charge of the mechanical work in the print-shop last year, has resigned on account of ill-health, and is now at Phoenix, Arizona. He is an exceedingly capable, industrious young man, who was never satisfied unless the work in his department was thoroughly done. It is hoped that his health will soon improve so that he will again be able for duty.

As probably you are aware, I am now printer here at Haskell Institute and getting along first rate. I have a very nice ~~little~~ equipment and strive only to turn out first-class work. But before coming here I have worked in outside plants and was surprised that without any great effort, but only with what my good instructor, Mr. Miller
