Mrs. Maggie Beaulieu Daroo,

R. F. D., Mahanomen, Minnesota.

My dear Friend:

Mrs. Denny has informed me that you are thinking of sending your daughter to Carlisle, and that several other girls in the vicinity of your home would probably decide to enroll with her. I thank you for referring this matter to me, and while there is yet room here to accommodate additional students I cannot tell just at this time whether our transportation fund will justify us in bringing in more students just at this time. More than the usual number of students have already been provided with transportation this year.

However, in order that this matter can be given further consideration I will be pleased to have you submit me an application for the enrolment of your daughter. The blank I enclose may be used for the purpose and the same has to be approved by Superintendent Howard.

Very truly yours,

HKM.

Superintendent.
