We, the compilers, have recorded from the inscriptions on the markers in the Carlisle Indian School Cemetery this list of those who are buried there. We have also checked this record with the list at the United States <sup>Medical</sup> Field Service School and "The Indian Helper" and other papers in the Hamilton Library.

We have tried to make this list as accurate as possible, but, because various data did not agree as to the spelling of the names, or did not give the names, it became necessary to use our judgement as to the proper spelling of them.
