MR. WILSON CHARLES

MRS. WILSON CHARLES

CHARLES-KNUDSEN

Wilson Charles, class 1905, and Elizabeth Knudsen, class 1903, were united in marriage Thursday evening, March 29th in the Auditorium in the presence of the school and a large number of invited guests.

The beautiful church setting which was used, was elaborated by a profusion of brilliant flowers which were banked at the sides and front of the stage.

Promptly at 7:30 o'clock, to the strains of "Tannhauser's Wedding March," Miss Knudsen's party approached from the rear of the Auditorium in the following order: Minnie Rice, Rose McFarland, Stacey Beck, Bertha Dennis, Josephine Charles, Mary Runnels, bridesmaids; Mrs. Siceni Nori, matron of honor; Miss Knudsen, the prospective bride, on the arm of Major Mercer.

As Miss Knudsen's party approached the stage, Mr. Charles' ushers filed from the wings to the stage in the following order: Frank McPleasant, Genus E. Baird, Chauncey Archiquette, Wallace Denny, Charles Roy, William Gardner, followed by Elias Charles, brother of the groom, who was the best man, and the groom.

The two parties formed a semicircle in the middle of the stage where Rev. Alex-

ander McMillan of the Episcopal Church awaited them. The impressive single ring service of the Episcopal Church was performed, Major Mercer giving the bride away.

The wedding party then left the stage passing down the left aisle under a canopy of school and national colors formed with the national and regimental colors, and the troop guidons, which were carried by sergeants detailed from the different troops.

Following the ceremony a large number of specially invited guests were received in the gymnasium by the bridal couple and Major and Mrs. Mercer.

Mr. and Mrs. Charles left on the late train for New York, West Point, and other places of interest.

The bride wore a dress of white net over silk, and carried a shower bridal bouquet of pinks and lillies of the valley. The matron of honor and the bridesmaids wore embroidered batiste. The groom and his ushers were dressed in the cavalry uniform of the school, making a most pleasing contrast with the white of the ladies.

Mr. and Mrs. Charles will reside at the school on their return.

WINDOW GARDEN.

A GOOD plant for the Summer window garden and one that is easily propagated, is the profuse blooming abutilon, when rapid growing branches are kept pinched back into compact form. The latest novelty in these flowering maples (as the abutilons are popularly known) is of unusual size and brilliant and variegated coloring, known as the "Royal Prize Abutilon." He bears a great profusion of bell-shaped flowers and has attracted considerable attention because of its unusual markings. It should be more generally known among amateur growers, that this family of window bloomers is very easy to propagate, and there is such a variety, including white, rose, yellow and orange-colored flowers—all except the white being veined or striped with red or crimson—that they are especially desirable for banking in. The abutilon is also known as the Chinese bell flower, and when thus banked, with the profusion of variegated bells hanging from the background of green, they produce a beautiful effect of Oriental splendor.

It will be interesting from week to week to note which detail keeps the grounds in the best condition. REMEMBER that YOU can help by refraining from throwing on the lawns paper and other things that should be put elsewhere.

→ Are you co-operating in keeping the grounds clean? There are many signs around the grounds which read "Keep on the walks." It is very necessary at this time of year that the grass be given a chance to grow, and the newly sowed seed a chance to root. Do your part by keeping off the grass.

SCIENCE AGAIN AIDS HISTORY.

WITHIN the past year the explorers of the Egyptian exploration fund have completed what they regard as the most important historical work that was ever entrusted to their hands. The operations were at Abydos, where have been unearthed archaeological remains establishing the existence of 17 kings whose reigns were continuous. These kings include Mena, whose historical character is thus proved, and a series of 12 kings preceding him. Even the earlier of these kings are said to be now better known, by means of gold, crystal and ivory objects containing their names, and engravings relating to them, than are half of the Saxon kings of England. —Ex
