The Autumn Lane

A song for the Autumn lane
O'erhung by sumacs and pines,
Where the spider weaves a tremulous skein
In a mist of silvery lines:
And the asters gleam
By the wayside stream
And peep through the yellowish vines;
And the wild mint's prayer
Floats quaint on the air
In the shade of the muscadines.

A song for the Autumn lane
Where the withered thistles sigh
Like weird old folk that dream in vain
Of love 'neath a summer sky:
While sweet scents roam
Through the thickening gloam—
Flower souls that will not die—
And the crickets trill
A dirge on the hill,
And the dark wind sobs, Good-bye!

The Occidentals

The girls from school room number seven to number ten met in the girls reading room last Friday evening to organize a new literary society. Texie Tubbs was appointed chairman and Frances Charbineau secretary for the evening.

They elected their officers, chose their colors and the name. The colors are orange and black and the society is to be called the "Occidental Literary Society."

Miss Wood and Mrs. Foster were at the meeting and they gave some advice that will be very helpful to them and offered to help them in any way they could at any time. The girls are very grateful.

Their meetings are to be held in the reading room until they get a room fitted up, which they hope will be soon. They hope to be able in a short time to do as good work as the Susans. Their meeting last Friday was very successful.

Keep up the good work "Occidentals."
—Texie.

Susan Longstreths

The house was called to order by the President for the purpose of electing new officers for the coming season. The officers elected are as follows: President, Florence Hunter; Vice President, Claudia Mc Donald; Secretary, Stella Sky; Corresponding Secretary, Cecilia Baronovitch; Treasurer, Lucy Coulon; Reporter, Josephine Smith; Critic, Alice Denomie; Marshall, Olga Reinkin.

With such promising officers and especially with such a worthy President, the society as a unit is determined to conquer all things and to demonstrate its ability in literary work, be it large or small. "Labor conquers all things."—Susanilla.

The Standards

The Standard Literary Society met at the usual place and time. The newly elected officers are as follows: President, Lonnie Patton; Vice President, Wm. Winnie; Secretary, Thomas Eagleman; Treasurer, Samuel Wilson; Critic, John Farr; Editor, Chas. Mitchell; Music Director, Lewis Nash; Sergeant at-Arms, Wm. Nelson.

The meeting was well carried out although not many members were present. James Wind opened the program with a declamation which was well rendered. Impromptu by John Feather who spoke of the Indian Pennsylvania game. He said Carlisle is going to win.

The debate was interesting with Lewis Nash, John Feather, and Levi Williams on the affirmative side while Michael Balenti, Harry Wheeler and Moses Raub defended the negative. The honors went to the negative, Michael being the first speaker. He is a good debater, uses good English, speaks with strong emphasis and brought out points that made the judges get busy.

Thomas Eagleman was introduced as an enterprising young man and was given an opportunity to demonstrate, which he did by rendering a trombone solo, entitled, "Love me and the world is mine."

Mr. Peake, who was once an active member of the Standard Society, was a visitor. He was called upon for remarks and ably responded. One of these the reporter took note of: Boys some day you have got to face the world, so now is the time to build a foundation. Carlisle gives wide opportunities to its students but very few of us realize the fact.

It takes thrifty, intelligent, enterprising people for self government, so now is the chance to begin. Come boys join the Standard Society, make it the strongest organization in the School. Become a member, get on the program and if you are on for a debate, declamation, oration, or whatever it may be, be prepared; be eager to step on the platform and when you do, stand erect, speak loud and clearly, make everyone in the room hear you and when we adjourn you will feel than one evening has been well spent.—RAYMOND, Acting Reporter.

Evil is somehow a stepping stone to all good. Heroism, piety, tenderness, have been born out of pain.

Invincibles

The Invincible Society held its second meeting of the year on Friday evening last. President Alonzo Brown presided. The regular Recording Secretary being absent, Alexander Sage presided for the evening. A short business meeting was held preceding the regular program. The names of several new students were proposed for membership. This being the evening for the election of new officers for the coming term, the result of the election was as follows: President, Earl Doxtator; Vice-President, Guy Cooley; Recording Secretary, Robert Davenport; Corresponding Secretary, Chas. Huber; Treasurer, Ambrose Miguel; Critic Fritz Hendricks; Sergeant-at-Arms, Jefferson Miguel; Assistant Sergeant-at-Arms, Paul Dirks; and Reporter, Theodore Owl.

The preceding new and promising officers indicate that the Invincibles will have another very successful year of literary work.

After the transaction of business, a most entertaining program for the evening was rendered in a creditable manner before an audience which entirely filled the hall. A large number of the new students were present, also several of the teachers, who gave very interesting and encouraging talks along the line of literary work. The entire meeting was one in which the highest literary spirit was manifested. Following is the program: Selection by the Invincible vocal quartette composed of John White, Lewis Chingwa, Manus Screamer and James W. Mumblehead; Extemporaneous speeches, by Ira Walker and Grover Long; Anecdotes, Theodore Owl; Select Reading, William White; Declamation, Garfield Sitarangok; Mandolin solo, James W. Mumblehead; and Trombone solo by Charles Huber. The participants succeeded in giving a program which was highly interesting to all and appreciated by every one present.

Now that the society doors are opened again and activity resumed, it becomes the pleasure of the members of the Invincible Society to extend a hearty welcome to all new students and seize the opportunity for your future welfare.

The meeting next Friday evening will be of a very interesting nature. All are cordially invited to be present. Look for the announcement of the program on the bulletin board. Come and enjoy yourself.

—MUMBLEHEAD.

Y. M. C. A.

The meetings which are held during mid-week and Sundays are becoming quite popular.

Sunday evening meetings which were compulsory for the boys were done away, and now meetings are voluntarily attended.

As an experiment the faculty sat aside this evening for the the purpose of letting the large boys attend the devotional meetings if they so desired. The authorities made no mistake, because that evening is being used to a good advantage by the boys.

Everything that pertains to a religious meeting is conducted by the active members themselves.

Young Men's Christian Association has its own President, elected by the Y.M.C.A. boys; in fact all the officers are elected in similar manner, as is done in State Normal schools, colleges, and other institutions of learning.

The president appoints all the necessary committees to assist him in the work. These committees are expected to give their reports as often as the President calls for such, which is usually once a month, so that the work may be carried on systematically.

The school Y. M. C. A. is connected with other Young Men's Christian Associations in the State. To any convention held in various districts this school is at liberty to send its delegates to represent our school Y. M. C. A.

Every summer this Y. M. C. A. sends its delegates to Northfield Conference. On returning the delegates impart to the student body their experiences while attending the Conference.

The new students who come from far and near usually find friends among the Y. M. C. A. members and are thus made to feel at home.

The musical part of the program is conducted by the Music Committee of the Y. M. C. A. Generally arranged so that male vocal quartet, duet, and solos may be given at various times which usually adds much pleasure to the congregation.

The present officers are as follows: President, Theodore Owl; Vice Pres., Paul White; Recording Sec., John Waterman; Corresponding Sec. Elias Williams; Janitor, Abe Colonahaski; Organist, Charles Huber.

Indians Defeat State 18-5

At Williamsport last Saturday Carlisle defeated State College by the score of 18-5 and wiped out the defeat of last year. At the beginning of the game State started off with a rush and swept the Indians back toward their own goal with repeated gains around the ends and it looked as though they might score before the Indians could stop them. At the 20 yard line however, State was held for downs and Mt. Pleasant kicked the ball out of danger. State College could not maintain the fast pace they had started off with, and gradually their playing began to weaken while Carlisle seemed to grow stronger as the game progressed, and soon had the ball near enough to permit Hauser to kick a goal from placement, scoring 4 points. Not long after this State College scored a touchdown on a long 60-yard run through the Indian team making the score 5-4 in State's favor, and it again looked rather blue for Carlisle; Before the first half was over Exendine received the ball on a forward pass and carried it on for a touchdown and the first half ended Carlisle 10, State 5.

In the second half the Indians were clearly superior to State and scored two goals from placement by Hauser whose place kicking was the feature of the game, and time was called with the ball in the Indians possession on State's 20-yard line.

All the Carlisle boys played well, but Mt. Pleasant deserves special mention for the way he caught punts and ran back kicks, and Hauser's goal kicking and line bucking shows that he will make a name for himself on the gridiron the fall,

Glorious Autumn

"What beauty in the Autumn woods,
Where, in the calm deep solitude
The amber sunshine finds its way,
The checkered light and shadows play!
Such beauty everywhere we turn,
The moss grown rock and drooping fern,
The woodland flowers and trailing vines,
The singing brooks and sighing pines,
The murmur of the gentle breeze
That stirs the yellow chestnut leaves,
Till softly in the grasses brown,
The round prickly burrs drop down.
The maples are in bright array
In mottled gold and crimson gay;
The oak in deepest scarlet dressed,
In cloth of gold are all the rest,
Except that now and then between
There stands a tall dark evergreen
That sheds its spicy fragrance round,
And drops its cones upon the ground,
With asters white and purple tinged,
And golden rod the woods are fringed,
With scarlet berries peeping through
Where wild grapes hang of purple hue,
And fiery fingered ivy clings,
Where milk-weed floats on downy wings.
The cricket chirrup and insects hum,
For glorious Autumn now has come."

Defends Red Man

George Harness, of Kokomo, who recently received a gold-headed cane as the oldest settler of three counties—Carroll, Clinton, and Howard—upon his attendance at the Old Settlers' meeting at Burlington, Iowa, has an unusually interesting career. He is one of the close friends of Gabriel Godfroy, Indian chief.

In his 89th year "Uncle" George is physically strong, mentally clear and of perfect memory. He knew Howard county when it was a dense forest, peopled only by Indians. He was living in Burlington when David Foster, founder of Kokomo and the first white settler and Indian trader, opened his trader's cabin in Kokomo. The pioneer knew well old Chief Kokomo, after whom that city was named. "He was a good Indian," observes the old man. "The fact is," he declares, "the Indians were fearfully misused by the whites and the government. I have lived among them and slept in their wigwams, and am their friend. They never misused any one who treated them right. If one had a lunch and gave an Indian half of it in the forest he would die for the paleface. I never had the least fear of them, and they treated me better than most white people."

Uncle George is a great friend of Gabriel Godfroy, a resident near Peru and the last surviving chief of the Miamis. Uncle George speaks today the language of the Miamis with great fluency. He is one of the few white men in Indiana who knew the Indian in his native state, and traded with him and trusted him, and who speaks for the red man words of defense.

Lost their Supper

Some of the boys who went to Reading on Saturday last, left their suppers half finished in order to catch the early train, so they might be home in time for sociable.

After reaching the depot it was reported that the train we were to take had left. Therefore we had to wait about two hours. Next trip, boys, we will have to finish our supper first. Wm. White was the ringleader of this last trip.—W. Y. J.

A Williamsport "Crook"

Some petty thief, probably an alleged "sport" distinguished himself at the depot after the football game with State on last Saturday by stealing the football the Indians had won at this game.

The ball is generally carried away by the winning team and kept as a trophy but in this case we will hang a "decayed egg" in trophy hall and dedicate it to a good game with a good team spoiled by a dirty sneak.

Visitors Entertained

During the week Mr. and Mrs. Stauffer entertained Miss Ester Heagy and Miss Mima Heagy, of Harrisburg for a few days' visit. These two entertaining young ladies are sisters of Mrs. Stauffer and are much interested in the school work. While here they devoted much time to the study of astronomy and showed considerable interest in Agriculture and Mathematics.

Men who are always attempting to kill two birds with one stone never bag much game.

Reserves Defeated Reading 5-0

The Carlisle Indian Reserves defeated the strong Reading team by the score of 5 to 0 on Saturday last.

The Indians were outweighed by about 25 pounds to a man, but they outplayed the Reading team from beginning to end.

The referee was the hardest to play against. He saw the rough plays of the Indians but not of the Reading team.

The best plays the Indians made on the right side of the line, and center rushes.

The line men played fine from beginning to end. The backs carried the pig skin well and there was good interference. Two-hearts did good punting.

In the first half each side tried a goal from the field but neither scored.

In the second half the Indians were rushing the ball on Reading's territory on the 40-yard line, when the Indians were made to punt. The Indians held the Readings on their own two-yard line. Reading was obliged to punt but the Indians broke through and blocked the kick and fell on it. Thus the Indians scored. The Indians kicked to Reading after a touchdown, when the time was up, they were on Reading's ten-yard line and the Indians were in possession of the ball. Time of halves were 25 and 20.—*Captain.*

The Euche Indians

The Euche Indians, 500 in number, who live in a remote part of the Creek nation, cling to their own language and marry principally among their own tribe, after being conquered and absorbed by the Creek Indians more than 200 years ago. In some cases an Euche may marry a Creek, and the children will speak to the father in the Euche language and to the mother in Creek. Noah Gregory, a well-known Euche Indian, in recalling some of these circumstances, says he can remember when his father used to punish him for talking Creek at home. The Creeks conquered the Euches in Alabama so many years ago that the story is only tradition, the latter being given the full right and privileges of the Creek citizens. Most of the tribe are full bloods, owing to the fact that they marry principally among their own tribes.

Y. M. C. A.

The meeting of last Sunday evening was well attended. It was led by Mr. Willard. His talk was one that impressed strongly about how we could help each other while here and out in the world.

The special music which was furnished by the boys was greatly appreciated.

When the meeting was open to the boys and teachers a number of them responded.

Remember the door is thrown open at 7 o'clock. You are always welcome to these meetings. You are helping yourself and helping along too.—*MANUS.*

The Indian Population

It has never been definitely determined just what was the greatest number of Indians in America when they were unmolested and at the height of their power in this country. Some authorities claim that the number could not have exceeded 1,000,000, others assert that it could not have been more than 800,000, and still other contend that there were never more than 500,000. At the present time there are about 284,000 members of the red race in the United States. There are Indians in 16 states and three territories, exclusive of the Indian Territory. Nearly all the tribes are west of the Mississippi, fact most of them are beyond the Missouri. There are 156 reservations in all. In the north-western part of New York there are about 5,000 descendants of the great warrior tribes living on eight reservations. Today there are 159,000 Indians who wear citizens' dress in whole or in part, and 70,000 who can read and speak English. There are 28,000 Indian families now living in comfortable modern dwellings. The Indians make quite a strong religious showing. They have 390 church buildings, and a total membership of about 46,000.—*Chicago Journal.*

Indian Girl Crack Shot

Grace Olive Vanest is the best woman rifle shot in Indian Territory. She has won in every contest in which she has engaged and no woman now disputes her claim.

The girl is only 16 years old. She is a full-blooded Euche and is at present a student in the Euche Mission boarding school near Sapulpa. She is very athletic and is captain of the crack Indian basketball team of the same school. She shows her Indian blood plainly in her hair and complexion, but not otherwise. She dresses like a white schoolgirl of her own age and has a good education.

She has handled a rifle ever since she was old enough to lift the arm to her shoulder, and she does not remember the time when she could not shoot. Her favorite rifle is a 38-calibre Winchester repeater, and with it she takes chances along with the best shots in that section, including the men. She can hit a dollar at 50 yards every time, and seldom misses it at 100 yards. She loves target practice, but does not confine herself to practice shooting and often goes to the woods with her Winchester and returns with a lot of game. Nearly all the members of her family have been expert rifle shots, and she has inherited their prowess.

To do good, which is really good, a man must act from the love of good, and not with a view to reward here or hereafter.

Kindness is the music of good will to men, on his harp the smallest fingers may play Heaven's sweetest tune on earth.
