

#### Autumn

Summer days are waning, dying, Merry songsters homeward fly; Balmy zephyrs, softly sighing, Tell that autumn days are nigh.

Over mossy hill and mountain, In the dark, the deep ravine, Thro' each bubbling, fairy fountain, Autumn's mellow hand is seen,

'Mid an elm tree's branches swinging. Robin-red-breast pipes in glee; Softly swaying, sweetly singing, Farewell songs to you and me

On you western hillocks shining, Glows the grand celestial fire; Then beyond high cliffs, declining, Gilding bramble, brake and brier

Eventide's cool shades descending. Steal o'er wooded glen and wold, Herds, half-seen are slowly wending To the shelter of the fold.

-James L. Pequignot.

#### TRIBUTE TO THE INDIANS

#### The Curtain Falls on the Last Scene in the History of the Indian

The Guthrie Daily Leader pays the following beautiful tribute to the Indians of the five civilized tribes. Now, that statehood has been ushered in, the picture is more nation perpetuated in unity, fraternity striking.

"Sealed are the rolls of Indian citizenship. The long struggle for a place on the immortal document, the last of its line in the five nations, ended, March 4th, 1907. It really was a solemn event. To the Indian it marks a sharp line between a glorious past and a hopeful future. It is an impassable line now and stands as a character of Indian blood.

"The roll of citizens was not a new thing. It had long been maintained by the governbe closed forever.

"The white man even at this distance can not appreciate the solemnity of these events. Even the Indian, ever stolid, evinces very little of deep emotions that stir his soul. The fact that the tribal officials and many others were at Muskogee to witness the closing scenes of their national history is evidence enough.

"But far away in his hut, or standing beside his pony, else leaning against some stalwart oak, that had been the sanctuary of his noble fathers, is the fullblood. His

imperturbable spirit gives no sign of the thought within. But one might guess it.

'Perhaps never in all the history of the than the voluntary dissolution of the five nations. History will account the people they betray the confidence the Indian has placed in them.

#### Autumn Is Here

The campus and grounds have taken on world has there been a more touching event, a truly autumnal appearance and the frost of the last few nights has bereft most of the trees of their foliage. The beautiful flower of Oklahoma as little less than brutes if ever beds which have won the admiration of both visitors and the school in general, have been broken up and the plants of various hues have been stored away in the greenhouse for the winter, where under the careful in human beings cruelty begets cruelty and nursing and training of Mr. Reinhold Hoff-

Miss Wood and Mr. Willard were the visitors and were also appointed judges for the evening. They gave their report in favor of the negative. After singing 'America" the meeting adjourned. Keep up the good work "Mercers!"-REPORTER,

### True Meaning of Thanksgiving

Thanksgiving is of little value if our expressions of gratitude have no effect upon our own conduct. Appreciation of blessings is shown by acts rather than by words. If we regard citizenship as a priceless inheritance, we should resolve to transmit it, not only unimpaired but improved, to the next generation; if our educational system has been a boon to us, it should be extended and amplified for the benefit of posterity; if the resources of our country have a value beyond computation, it behooves us to see to it that these resources are not squandered, and that the bounties which the Creator intended for all shall not be monopolized by the cunning, the craft, and the avarice of a few; if our government gives to life, liberty, and prosperity greater protection than any other government grants, we can not excuse ourselves if we fail to preserve it, in all its purity, for our children and our children's children; if in our religion we find a consolation, a life-plan, and a moral uplift, we can not but earnestly desire-and embody the desire in deeds-that these shall be shared by those about us and by those also who, tho separated from us by seas are bound to us by that primal tie that links each human being to every other. -From "Why We Ought to Be Thankful," by William Jennings Bryan, in THE CIRCLE tor November.

#### **Boating Party**

Last Sunday morning a party of seven girls, accompanied by an employee, took a stroll across the country to the cave, where they brought the launch into commission and took a ride up the creek for a few miles.

The girls were all good singers and the woods round about resounded with the melody of their voices as they sang the good old Carlisle songs. On the return they "trolleyed" back to school, arriving in good time and with sharpened appetites for a good dinner. The participants in the little excursion were Ethel Daniels. Esther Reed, Mabel Logan, Philomena Badger, Estelle Ellis, Mabel George, and Rose Pickard all of whom enjoyed the trip immensely.

Men who always look before they leap seldom leap.

Gold-brick men like to meet people whose motto is seeing is believing.

#### Pointed Pungent Paragraphs

- The pupils of No. 6 are studying about the thistle this week.
- T Hally B. Skye says she enjoys cutting hot bread for the waitresses.
- The steamfitters are fitting up the steam pipes at the florist's cottage.
- T Tempa Johnson is proving her value as a waitress and enjoys it very much. The house girls all miss their "mother,"
- Miss Grove, who has gone away for two
- Annie and Mamie Rose, the cousins of John and Noami Greensky, arrived on Friday from their home in Michigan.
- T Edward Fox says he enjoys coaching the team they call 'jolly eleven." He expects to make a fast team out of those Hopis.
- T Lon Wadda, who is a member of the band, says that he likes to play for the sociable every Saturday evening because he is a bachelor and stands no show.
- ¶ Mr. Johnson, a former Superintendent of Sac & Fox School in Oklahoma, now of California, brought four new pupils from California and those who knew him were very glad to see him.
- T Miss M. Gaither, our girls' field agent, is now filling Miss Grove's place in the girls' quarters. Miss J. Gaither's instructions are "now girls, I want you to keep your rooms clean and have them just so."
- The Standards held an interesting debate on foot ball and base ball; two of our athletes made some good points. Charles upheld foot ball while Eagleman, one of our slab artists, got on the firing line and upheld the base ball side of the ques tion.
- The girls are enjoying themselves since "Long Branch" came to live with them. The girls go out occasionally and they always have "Long Branch" along, who assumes a look that would make one believe he was talking, too. "Long Branch" is loved by all his friends.

#### Official Visitor

Special Indian Agent Elliott is on an official visit to the school and is the guest of the Teachers' Club. Mr. Elliot arrived on Thursday and will devote a few days to his duties at Carlisle.

### BUCKNELL FAILS TO SCORE

#### Indians' Goal Line As Yet Uncrossed

The Indians' goal line has not been crossed for seven years, Bucknell failing to do the trick on Saturday, and will not be this season as the game on Saturday was the last one on the home grounds.

A GOOD GAME

The game drew another large crowd, and they saw a well-played and exciting contest.

The Bucknell team proved to be a foe worthy of the Indians' best efforts, and even succeeded in keeping the red men from scoring at all in the second half. Whilst the game was good, it must be said that the absence of four of the Indians' best players, including Mt Pleasant, was responsible for the rather small number of points scored.

#### MISSED MT. PLEASANT

Mt. Pleasant was not in the game and Island filled his position most of the time, until replaced by Balenti. The former ran the team fairly well, but was poor on running back punts and was responsible for some heavy losses. Balenti also was weak in handling the ball. Both seemed to be anxious to get in the lime-light by kicking drop kicks, and Island did succeed in scoring in this manner

#### THE SCORING

Bucknell kicked off and in about five minutes the Indians bad pushed the ball over for the first touchdown, gaining by line and end rushes. Island kicked the goal. After the next kick-off Thorpe made a long run, but dropped the ball. It was recovered, however, by Owl on the bounce, who carried it over for the second score, missing the goal. After a few punts and rushes on the next kick-off, Island made a drop kick from the 30 yard line, the ball striking a post but passing between them.

#### SECOND HALF

The playing in the second half was mostly in Bucknell's territory, but the Indians could not score. Time and again they approached the goal, but lost the ball either on attempted drop kick, downs, or fumbles. Several times they were held for downs, but Bucknell made but one first down during the entire game on rushes.

Thorpe did most of the work carrying the ball, and proved an excellent ground gainer. He followed his interference well and held the ball. Owl and Winnie did not gain so consistently. The Indians lost much ground through penalties. Bucknell tackled well and was in the game for work from start to finish. Final score, 15-0 in Indians' favor.

Referee, Vail, U. of P.; Umpire, Tyler, Haverford; Field Judge, Finnegan, U. of Ga. Halves, 25 and 20 minutes.

We use the above clipping from the Sentinel as an unprejudiced report of the game

#### Refreshments at Sociable

Last Saturday's sociable was an unusually pleasant one for the reason that refreshments were served in the Y. M. C. A. hall. Tables were set for a party of two or four just as one desired. After the dancing program was over and during the dancing period many couples were seen going and coming from the refreshment hall. Many girls remarked that they wished ice cream might be served every Saturday evening. Many boys remarked that the next time a variety like this was served they will be prepared.-

#### \$1,000,000 Athletics

The bequest of Miss Anna T. Jeanes to Swarthmore College of property estimated to be worth \$1,000,000 provided the college abandon intercollegiate athletics, has brought to light the fact that the University of Pennsylvania once declined \$500,000 offered by her on conditions that all intercollegiate sports be abandoned. Provost Harrison waited upon Miss Jeanes at a time when the university was badly in need of \$500,000 and asked her for that amount. She argued that the recognition given to athletics had a depressing effect upon students. And very strongly intimated that he could have \$500,000 for the University of Pennsylvania upon the same terms. Mr. Harrison evaded answering and someone else contributed the \$500,000.

#### Susans Longstreths

The usual meeting of the Susan Longstreth Literary Society was called to order by the President, October 18, 7:00 P. M.

Every member present responded with a helpful quotation appropriate to the occasion. Confirmation of new members was next in order. The following girls, Clara Henault, Laura Tubbs, Adeline Boutang, Ruth Lydic, Ollie Chisolm, gracefully one by one walked up to the President's desk and solemnly took the oath of membership.

A large number of new names were presented also.

Let us hope that these new members will ever follow the motto "Labor conquers all things." If discouragements come from your inability in this new kind of work don't give up the ship, but labor on with your debate or whatever may be the case until you conquer.

Transaction of business was interesting, in which many participated. That is just what we need to do, Susans; don't be afraid to take the floor and express your opinion and oppositions if such be the case. It is for the good of the Society. Let us lay aside the idea of hurting some one's feeling by opposition, you may be defending the good of the Society by doing so, notwithstanding the benefits derived from it in more ways than one; as of self-confidence and language as well, we are there as one and all working to the same end.

The program for the evening was opened by the Susan's Song, Susans; Recitation, Bessie Charley; Essay, Sadie Dunlap; Piano Solo, Mary Red Thunder, which was an extraordinary demonstration of her musicial ability; Impromptu, Irene Brown, who spoke on the benefits derived from Carlisle, Select Reading, Elmira Jerome, who read with clear articulation.

The debate was next in order, which was interesting and exciting notwithstanding that it was a voluntary debate. Question. Resolved: That Theodore Roosevelt should be elected as President the third time.

The affirmative side was defended most intelligently by Vera Wagner, Flora Jones; Negative by Lottie Styles, Myrtle Evans. These girls who volunteered are indeed to be complimented; it showed an excellent spirit. Vera Wagner is one of our best debaters and is always ready for emergency. The affirmative side won.

Mr. Whitwell and Miss Gaither being our visiting committee both rendered very encouraging remarks, after which the house adjourned .. - C. M. B.

#### Typos-Tailors

The game played on Saturday afternoon by the "Championship Chasers" Typos-Tailors just before the Indian-Bucknell football game, was a get-up-and-get-there contest by both teams. After some fierce line plunging by the Tailors, then it was discovered that they were a tough proposition after all. The printers' devils' weakness began to tell. Then, too, the typos were out-weighed, but were as quick as a deer. Fumbling again and again was the whole cause of their defeat.

The Tailors were more successful in handling the oval. In this way the clothiers were too powerful for the type setters. Newashe was injured and Hitchcock was compelled to play in the place of the injured lad. Those on the bleachers watched the game with interest.

After some hard line plunging Eagleman was shoved over the goal line for a touchdown. Walker kicked the goal. A few moments later Woodbury slipped away from his opponents for another touchdown. This time Walker failed to kick the goal. From that on the Tailors were pinched by their opposers and were unable to make another touchdown.

The game ended with the score of 11-0 in the Tailors' favor.

The Typos are a fast aggregation, and in time will get their kinky parts straightened out and doubtless will prove themselves tough propositions, too. They need to hang on to the ball. This defeat does not mean that we will not get the Championship this year as we are still looking for the 1907 Championship honor. - Typo.

#### **American Games**

American games lay the foundation for American work. Far more important than the fun derived from American athletic contests is the foundation built in these wholesome sports for greater and more serious contests in the real business of living. The wholesome athletics of Americafootball, baseball, rowing, tennis and the like-give to young manhood a training for every day matches against the world which is invaluable.

A wholesome game, played with zeal and according to rules, teaches first of all that no contest ever ends until the last point for victory is won. No football game is ever finished, no baseball victory is ever assured until the last man is out and the umpire has called time. What may seem, during the first half or even three fourths of a contest to be an assured victory, frequently turns into a dramatic defeat in the late hour of the play. What sometimes appears to be a gloomy prospect at the outset, now and again is converted into a glorious victory before the game is through.

And it's so in any contest, be it out in the athletic field or on the gridiron of business. It's the plodder who finally claims the victory, and in no way can this principle be more strikingly impressed upon the boy or man than in a struggle for points on the athletic field.

In the great American game of baseball there's a valuable lesson wrought from the fact that it is every single point that makes the game-every little detail that counts in the summing up.

Brilliant playing now and then goes down to defeat, day in and out, before the steady style of play that keeps working along, just about the same all the while, carefully and earnestly and never missing a possible opportunity to score. And this theory's truth in baseball and football works out in the world, all the way around. It's the plodder, not particularly brilliant and never erratic, who finally comes in with the biggest score to his credit.

The great danger in overconfidence is also strikingly brought out in a game. The player who gets a good lead and who keeps his head will never be found loafing in the game because of his advantage. For the fellow who, taking his margin as a gauge, believes he can rest and win with ease, learns too late that his marginal lead was a costly one and that the other fellow, growing stronger, has come alongside and gained the front.

The fact that many a game has been pulled out for a victory in the last half of the ninth with two men out, ought to stand day and night in the mind of the American youth as an example of the fact that it never pays to give up when the battle's only half done; that it never pays to get chesty because of overconfidence inspired by a lap to the good; and that it is the steady, safe and reliable style of work, just as it is in play, that wins out in the long run, whatever the goal. -Ex.

#### Miss Kaup's Guests

Mr. Russell, stenographer to the faculty at Mercersburg Academy, and Mr. Stenger, of Mercersburg, were visitors at the school over Sunday as the guests of Miss Kaup, who is a cousin of Mr. Russell.

These young men took much interest in the various deportments of the school and were particularly impressed with the "perfeet department of the boys and girls in going to and coming from their meals and in the dining room."

#### Carlisle Spirit

Carlisle Spirit, a spirit of loyalty to the institution for the student who would gain the greatest good from his course at Carlisle. It must not be passive loyalty, but the active, enthusiastic kind. Every student should be an enthusiast, giving his heartiest support to every oratorical, debating and athletic team which represents the institution of which he is a member. He should be enthusiastic in his studies, in his society, and take an active part in all the student enterprises, keeping in mind the fact that he will get out of his course just what he puts into it.

### A "Typo" on the Carlisle Girls

The printer's "devil," during a moment of unwatchfulness on the part of the eagleeyed instructor, perpetrated the following as his ideas of the Carlisle Indian girls:

"The For of our girls are small, tapering and beautifully shaped; their iiiiii are as brilliant as \*\*\*; they are without in this or any other §; their frowns are like †††, and their 12345 excite !!! of pleasure. Read this closely and do not ? its readability, and try - the situation."

#### Presbyterian Sociable

Miss Gaither chaperoned a large number of the Presbyterian girls on Monday evening at a sociable given by the ladies of that church in town. Quite a number of the Presbyterian boys also attended. All pronounce the affair a most enjoyable one.
