EDITED AND PRINTED BY INDIAN PUPILS REPRESENTING FORTY AMERICAN TRIBES

VOLUME FIVE

CARLISLE, PA., SEPTEMBER 11, 1908

NUMBER ONE

## THE GENERAL SCHOOL NEWS.

Superintendent Friedman assisted in the opening exercises of Dickinson College.

The boys who were detailed at the farm finished cutting corn for ensilage last week.

Everyone is very much interested in the many improvements being made at Carlisle.

Are you going to do your share toward making Carlisle a beautiful, pleasant and profitable place to live?

Miss White, Mr. Friedman's efficient stenographer, is away on her annual leave, but will be on duty again soon.

All the art work you see on the ARROW was done by Indians in the Carlisle Native Indian Art department.

The printers executed among other things during vacation, an eighty-page pamphlet for the Commissioner's office.

Mr. Lipps, agent of the Nez Perces in Idaho, is expected any day. He is bringing a number of students from Lapwai.

Shela Guthrie gave a very interesting talk on her trip to the Y. W. C. A. Conference in Maryland, Monday morning in the auditorium.

Sadie M. Ingalls and Rosa B. Pickard expect to return to their country homes sometime this week. They will attend the public schools.

Our campus is beautiful, even up to this writing. All the flower beds are still in fine foliage and the grass is only just beginning to sear.

The shops have all been augmented by additional equipment during vacation. Most of these machines are in place, doing excellent duty.

Miss Alice Heather, Class '05, a recent graduate from the Jefferson Medical College for Nurses, Philadelphia, is being entertained by Mrs. Nori.

The ARROW welcomes all the old, together with the new students. Let

us all anticipate the superintendent's desires and work together like one big family.

Isaac Lyon, an Onondaga from Syracuse, New York, one of our football boys, returned to this school last Saturday to play another season on the football gridiron.

Mr. Horace Johnson, superintendent of the Round Valley Indian school, California, arrived last Monday morning with a party of girls. They are well pleased with Carlisle.

Miss Mayham, who has been ill for some time, left for her home in New York on Saturday. We all miss her very much and hope that she will return soon. Miss Zimmer acts as her substitute.

Special Inspector Mrs. Elsie Newton made Carlisle a short official visit last month. Mrs. Newton's pleasant manners and sincere interest in her work make her friends where ever she visits.

The system of seating the students in the dining room has been changed. Now the boys and girls sit opposite each other. They are helping each other to be quiet and to observe better table manners.

Among the candidates for the '08 foot-ball squad are some very promising players, and therefore we have bright prospects for a good team. Let us all encourage our boys by keeping up the Carlisle spirit.

Josephine Smith and Shela Guthrie, chaperoned by Miss May Hilton, attended the Y. W. C. A. convention held at Mountain Lake Park, Maryland. They enjoyed their trip very much and feel greatly benefited in many ways.

The new addition to the east end of the Academic building for the Commercial Department will soon be completed. Judging from applications there will be no lack of students. Among those expected are several of last year's graduates.

Albert C. Jaquez, Class '05, was recently mentioned in one of the western papers as a "bright, energetic

young man who speaks good English and thoroughly up-to-date". He, himself, says, "I find that in addition to what Carlisle does, one has to do much for himself."

The school campus is looking unusually beautiful since the recent rains. The richly colored foliage plants, the bright red salvias and asters, the marigolds of gorgeous hues, and the less prominent flowers cause every student returning from their summer outing to exclaim, "I have not seen any place so beautiful as dear old Carlisle."

The boys were all glad to welcome back Wauseka, our 1908 football captain. Several other stars arrived about the same time. Among them were Geo. Gardner, Peter Hauser and William Winnie. There were also Mr. Johnson and Mr. Exendine, assistant coaches. They all look healthy and eager to win honors for Carlisle this fall.

The boys and girls who gave up their outing privileges this summer and remained at the school to work without pay deserve a great deal of credit. That they have done faithful work is attested by the many improvements made and the excellent conditions of the grounds. Both employees and students are not only sincerely grateful, but very proud that Carlisle Indians can work, work hard and work hard without remuneration.

Charles Hill, one of our school delegates to the Northfield Conference last June, on being interviewed gave out the following: "I enjoyed my trip to Northfield, the place itself and the beautiful scenery surrounding it. I was much encouraged by associating with the best college students in the country. I learned much about the Y. M. C. A. work in other places that will help us here. I listened to such fine speakers as Robert Spear, John Mott and Rev. H. Boswell Bates. From them I learned that it is best to build character upon the foundation of the Christian religion."

# The Carlisle Arrow

Issued Fridays from the Carlisle Indian Press  
About ten months in the year.

**Twenty-five Cents Yearly**

Second-class matter—so entered at the Post-office at Carlisle, September 2, 1904.

Address all communications to the paper and they will receive prompt attention.

## THE OPENING EXERCISES.

The evening of the first day of school was marked by a very able and appropriate address given by our superintendent to the student body and employees.

The orchestra was on hand and furnished music specially suited to the occasion.

Mr. Friedman prefaced his remarks by a short address of welcome to the students in general, especially those just returned from country homes.

The pupils who worked at the school during the vacation months were given due credit for their labor, the results of which are to be seen in the improvements already made, viz: the shops in general, the new printing department, and the commercial and agricultural buildings.

The work of the teachers in preparing a new course of study received special commendation, but the best part of the address was the forceful appeal for efficiency and character. Mr. Friedman used for examples men of today with whom he was personally acquainted, and his remarks along these lines will be remembered—and we hope practiced by all who heard them.

The latest addition to the fold is Alfred Michael Venne Junior. Mr. and Mrs. Venne are to be congratulated on their interesting little family.

The Girls' Mandolin Club will be organized next Monday afternoon. Music classes were begun this week, and a splendid spirit was manifested in all the classes.

Alonzo Patton, a member of the Senior class who went home to Alaska last June, writes that he has quite recovered his health and hopes to be with us soon. Patrick Verney, also a Senior, expects to come with him.

## THE GENERAL SCHOOL NEWS.

The students who returned from the country last week seem glad to get back. They are all looking well and are ready for hard work.

Martha Day, who has been doing such excellent work in the High School at state College, has returned to the school and rejoined the Senior Class.

Esther C. Reed, a member of the '12 class, left for her home in Oregon Tuesday evening. The best wishes of her class mates for a successful life go with her.

Ella Johnson, who came in from the country on a two week's visit, is going back to Moorestown, New Jersey, to continue her course at the High School this winter.

Wednesday last the Freshmen held their first class meeting for this term. William Yankee Joe was elected chairman for the evening. Officers were elected and committees appointed.

Howard Gansworth, Class '97, and a graduate of Princeton, one of the leading men of the Alumni, was with us a few days ago. We were all glad to see him. Mr. Gansworth was on his way to Buffalo.

Savannah Beck comes in from Mt. Holly every day to school where she is taking care of Mrs. West, an old lady eighty years of age. Her training as a nurse at our school fitted her for this very nice position.

Mr. Friedman gave an address of welcome to the student body, Tuesday evening, September first. His subject was "Efficiency and Character". Many helpful thoughts were gathered from his interesting talk.

A letter has been received from Vera Wagner, who left here in June for her home in Alaska. She is enjoying life in Alaska, but often gets lonesome for "Dear Old Carlisle". Vera expects to return to the east next month and continue her studies in some Normal School.

Irene Brown, a member of the Senior class, in a letter to a friend states that she has had a very enjoyable summer at her home, Brown's Valley, Minnesota, among friends and relatives. She will return to Carlisle about the middle of September with a party of students whom she had no trouble in getting, for they are anxious to come to Carlisle.

Louisa Chubb and Samuel Brown, former students of Carlisle, were married at Hogsburg, New York.

The masonry department has been enlarged and a cement floor put in by the boys who remained here during the summer. Special courses in brick-laying, plastering and stone-cutting will begin when the shop is completed.

A letter received from Alvin Kennedy, a member of the Freshman class, states that he will return to Carlisle soon because he finds it impossible to obtain the work he would like without an education. He hopes now to finish the course.

Many of the students who returned home this summer are no longer single. Miss Myrtle Evans has become Mrs. George Peak, and Miss Laura Bertrand, Mrs. Ralph Waterman. Mr. and Mrs. Waterman are now living at the groom's home in Versailles, New York.

James Paisano, who has been out in the country under the Carlisle outing system, has returned. He reports having had a very nice country home. James has also been appointed an officer of Troop C. His many friends and classmates are glad to see him back again.

## Our Exhibit at Cleveland.

Washington, D. C., Aug. 8, 1908.  
Editor the ARROW,  
U. S. Indian Industrial School,  
Carlisle, Pa.

The annual Institute of the Department of Indian Education was held at Cleveland, Ohio, the latter part of June, and the demonstration of rug-weaving by Miss Angel DeCora-Deitz, together with the oration, "My People", by Elizabeth Penny, illustrated with native songs and dances by five Indians in tribal costume, aided materially in making the meetings so successful. These two features made such a deep impression at the first day's session it was necessary to repeat them on the second day, because of the large number of special requests to that effect. The very excellent paper on "Horticulture and Landscape Gardening," by Mr. R. H. Hoffman, florist, will be published in our annual report, and will be of great service to the Indian workers in the field.

Carlisle is to be congratulated on the splendid showing made by her students.

Very respectfully,  
E. REEL,  
Supt. of Indian Schools.

Approved:  
C. F. LARRABEE,  
Acting Commissioner.

# ABOUT CARLISLE ATHLETICS.

The Carlisle Indian School had the great honor of being represented in the World's Championship Olympic games held in London, England, in July. Frank Mt. Pleasant and Lewis Tewanima of this school were members of the American team, the former competing in the running broad jump and the latter in the great Marathon race. Mt. Pleasant was unplaced in his event, but later at Paris he won first place in the broad jump, defeating the winner of this event in the Olympic games, as well as Cook, the American Intercollegiate champion, and some of the best Europe men. Lewis Tewanima came in ninth in the Marathon race which was considered the most important event of all the contests. The distance was 26½ miles and 58 of the world's best distance runners competed and it was a great performance for Tewanima,—who up to about a year ago had never worn a running shoe and who was suffering from sore feet and bad knees—to come in among the first ten winners. His performance is all the more creditable when it is considered that he came in ahead of the famous Longboat who has been training for years and who has heretofore been considered the greatest long distance runner upon this continent. England has long been considered far ahead of this country in long-distance running, but Tewanima finished ahead of the English champion and every other English entry. At Paris Tewanima won second place in the three-mile championship.

Both Tewanima and Mt. Pleasant were guests of the citizens of New York City on August 29 when they, with other members of the American team, were presented with valuable medals in addition to those they won in Europe. They also visited President Roosevelt on August 31 and the President congratulated Tewanima and said he was glad to have this country represented abroad by a genuine native American.

The medals which were presented to the entire team cost the city \$3100. They are beautiful solid gold medals. This was without a doubt the greatest reception ever given any athletic team by any country on its home coming. Mr. Stauffer escorted Lewis Tewanima and Frank Mt. Pleasant on this trip. The

school is certainly proud of its representatives at the Olympic games.

The football boys started light practice upon September 1st. Only one of last year's team was on hand the first day, but some of the veterans have been dropping in from day to day until at this time they include Captain Wauseka, Afraid-of-a-Bear, Aiken, Hauser and Payne. Besides these regulars, Geo. Gardner, Lyon, Oldman, Ballenti and Winnie are training and Barrel of last year's Haskell team gives promise of developing into a Varsity man. The team will miss the services of ex-captain Lubo, Mt. Pleasant, Wm. Gardner Exendine and Hendricks. Exendine is still a student here, but will be prevented from playing by reason of the four-years' eligibility rules and he will help the team by aiding in the coaching. Since both last year's ends are out of it, Exendine's experience will aid greatly in developing the end material.

Dr. Jas. Johnson, captain of Carlisle's famous team of 1903, and all-American quarter of that year, will again assist Mr. Warner in developing the team and the prospects, while not at the present being particularly bright, are by no means discouraging. Carlisle sympathizers may be assured of being at least creditably represented upon the football field again this year and with such an able captain as Wauseka and under the same coaches as last year, with all working together in harmony and with the support of all the students and employees, there is no telling what great results might be accomplished. It will be a very difficult matter however, to duplicate last season's record.

Dr. Larkin, a former star end of the Cornell team, has been the guest of Mr. Warner and has been assisting in the coaching for the past ten days. He has given the ends some valuable pointers. He will leave shortly to assume his duties as coach of the Cornell University team. The squad appreciates the assistance he has rendered here and wish him success in his work at Cornell.

The second team, commonly known as the "Hot Shots" have changed their name to the "Hustlers" and will make every team they meet hustle pretty lively to defeat them. The team

will be very light, but every man will be a hard fighter and a hustler in every sense of the word. Several of last year's second team have been promoted to the Varsity squad and it looks now as though some of last year's shop team men will also make it. Training table will start Tuesday when about fifteen men will be taken on. Others will be sent to the table as fast as they show Varsity ability. The second team will eat at the student's dining room the same as last year, but they will have a special table and will be furnished extra food by the Athletic Association.

The cross-country race will be held this year in November instead of in the spring. The contest will be a handicap race as last year and about the same prizes will be given. The men who show up the best will meet Penn. in Philadelphia about the middle of November. The track boys should get busy at once in preparation for these races. The training will do all the track men good, whether they are distance men or not, as it will prepare them for the meets which Carlisle will participate in during the winter. The best cross-country men will be put at the football training table a little later on.

Frank Mt. Pleasant, who has long been a student at this school and who while here made an enviable record as an athlete, left for his home in New York state last Friday and will finish his education at some college. He has not yet decided which college it will be. He carries away with him the best wishes of everyone connected with the school—we wish him as much success in life as he has gained upon the athletic field.

The band has been organized with a membership of twenty-five and although there has been a great change in the personnel, it will not be long before good results can be expected. There are now new members coming almost every day and some of our former players are on their way, namely, Lonnie Patton, Patrick Verney, Eugene Geffe, Carl Silk, Charles Huber, Earl Duxtator, and Fred Schenadore. The red uniforms were worn for the first time Tuesday night and many remarks were made as to the fine appearance the band made.

## HEARD ON THE CAMPUS.

Mrs. Carter, formerly small boy's matron, is now assistant matron in Girls' Quarters.

Harry Cummings, a member of the Senior Class, is spending his vacation at Pawnee, Okla.

Elizabeth Penny, '08, who has been at the sea shore for the summer, is now cooking for Mrs. Friedman.

The students who spent their vacation here this summer had the pleasure of listening to many good lectures.

After spending a very delightful summer in Sunny Oklahoma, William Newashe is welcomed back to Carlisle by the Freshman Class.

Mr. E. K. Allen, one time assistant superintendent of the Carlisle Indian School, and one of its best friends, is in charge of the Menominee Reservation at present.

Virginia Gaddy, member of the class of '11 who went home this summer, says she is longing to see dear old Carlisle. She is expected here the latter part of this week.

The printers are glad that they will soon occupy their new shop home near the Dining Hall. We shall have not only a new house, but new machinery, new furnishings and type.

All the employees who were away during the summer months on vacation are back again, ready to take up their duties where they left off—ready to do their share toward a greater Carlisle.

The pupils are enjoying the newly varnished desks in the school rooms. The walls and ceilings were freshly kalsomined and every thing is looking so nice that it is pleasant to sit in the school rooms to study.

Robert Tahamot, after spending his vacation home, has returned to Harrisburg where he will continue his studies at the High School. Robert is a bright, energetic little fellow and is greatly missed by all his class.

A new paint shop has been installed on the second floor of what used to be the second store house. There is also a separate varnish room and new work benches. In fact every thing now in the painting department is up-to-date.

The painters have been very busy this summer painting the Girls' Quarters and varnishing the desks and wood-work at the school building. They still have to paint the cage,

the new cottage and the printing office.

Roger Venne writes from his home in North Dakota that he is well, but very busy. He wishes to be remembered to all his friends.

The pupils were very glad to have a visit from Miss Hill and Miss Bowersox. The latter gave an interesting talk in the auditorium Sunday evening about Berea College, Kentucky, where she is now employed.

THE ARROW greets its readers after a two months' necessary vacation on account of changes in its equipment. By this vacation the printers were made aware of the fact that their efforts are appreciated—even as far east as Maine and as far west as Washington.

The steamfitters under Mr. Weber are nearly through with the new cottage. The next building for which they will cut pipe will be the new Printing Department. The boys have been kept very busy during the past summer putting in or repairing the water and heating system of the different shops.

Many improvements have been made in and about the school grounds recently. When every thing is completed we shall have one of the best institutions in the United States. It is our duty to show our appreciation to Mr. Friedman, superintendent, who is using all his efforts to advance the Indians at Carlisle.

Miss Scales and Miss Bingley have exchanged places, the former going to Phoenix, the later coming here. While bidding Godspeed to one we extend a cordial welcome to the other. Miss Scales has been at Carlisle for several years and we shall miss her. Our best wishes go with her to the sunny land of Phoenix.

The carpenter shop has been enlarged and new benches, which were made by the boys, have taken the place of the old ones. Each boy is supplied with a set of tools which he takes care of himself. This enlargement gives more room for the machines, and the apprentices in this shop should learn more than they have in the past.

At the opening of our school year, September first, the students assembled in the auditorium at 7:00 p. m. to hear Mr. Friedman speak. It was a very encouraging talk of

the many improvements made here during the summer for the benefit of the students. I am sure we all feel thankful to him and others for the kindnesses they have shown.

The Seniors held their first class-meeting last Thursday evening at seven o'clock. The president, Earl Doxtator, not having returned, vice-president William Weeks presided. After the singing of the class song each member related his or her experience which included farm, shop, and office work, gardening, house-keeping and so forth. Important business was then transacted and the class adjourned to meet the first Thursday in October.

Mr. Meyer, who came here during the summer, is a new member of the clerical staff. Being born and raised in Lebanon Co., Pa., he seems well pleased to be in Pennsylvania again. He attended the public schools there and then entered Kutztown Normal. He then taught for five years, after which he entered the Indian Service, being at Haskell Institute for two years as assistant clerk. July 18 he was transferred from there to Carlisle as clerk of transportation.

## ACADEMIC NOTES.

The Physical Culture, Reading, Study, and Quiet Hour Program went into effect on the 7th inst. So far so good.

After being rocked in the cradle of the deep for 12 days on the return voyage from Europe, Miss Beach appreciates being able to resume her duties in the Library.

A visit to the different class rooms will suffice to convince any one that work there is going on in dead earnest. The Business and Agricultural Departments are nearing completion and prospective students are already waiting. These departments will fill a place not heretofore filled.

"Suggestions for Teaching English and Reading in the Primary Grades," was the subject taken up at Teachers' Meeting on the 8th inst. Miss Hawk handled the subject carefully and well. On October 6th and 20th respectively, Miss Johnston and Miss Wood will present similar suggestions on the work of the higher grades, after which a special pamphlet on the work in reading and english will be printed.
