

The Carlisle Arrow

A WEEKLY NEWSPAPER EDITED AND PRINTED BY THE STUDENTS OF THE UNITED STATES INDIAN SCHOOL

VOLUME VII.

CARLISLE, PA., DECEMBER 2, 1910.

NUMBER 13

GENERAL SCHOOL NEWS.

Walker Penn, ex-junior, is now attending the high school in Guthrie, Oklahoma.

From Oneida comes good news from Olive Wheelock, who is living with a cousin and practicing housekeeping.

Through a letter we learn that Phillip Morris of Stites, Idaho, intends to return to Carlisle in the near future.

Elizabeth Hull, who has been employed at the Indian School at Choyhee, Nevada, has been transferred to Arizona.

Abbie Jamerson writes from her country home that she is about to enter school and that she is well and happy.

Joseph Loudbear, ambitious for a broader understanding of mathematics, is studying algebra under Mr. Wyatt.

Etta Saracino, who went home last June, is now employed as nurse in St. Joseph's hospital, Albuquerque, New Mexico.

Gertrude Provost, who is now taking nurse's training at St. Joseph's hospital in Philadelphia, is well and progressing nicely.

Mrs. Chas. Huber, formerly Philomina Badger, writes from her home at Elbowoods, N. Dak., that she and her husband are well. They send regards to friends at Carlisle.

Word has been received from George Thomas, an ex-student, and one of the best all-around athletes while here, that he is making good at his home in Syracuse, New York.

Cecelia M. Baronovitch, a Carlisle graduate of the class of 1909, is teaching at the U. S. Public School at Kasaan, Alaska. She is always pleased to receive the Red Man and ARROW.

Let us profit by the advice given by Mr. DeGroffe, that of making the

most of our school-days, so that in future years we may look back upon them with pleasure rather than with regret.

Mrs. Nori and the babies are now in Seattle with Mrs. Nori's father. They are enjoying a family reunion and no doubt Verna and Hazel will have many interesting stories to tell when they return.

Mr. Cairns and his painter boys did fine work on the girl's clothing room. Alfred DeGrasse did superior work in graining. Angus Jacob and Edward Fox also took especial pains to do the work well.

Mr. De Groffe, in talking to us, said that now after many years he could look back and realize that his teachers were his best friends; that they had his interest at heart and that all the discipline he received was for his own good.

The Juniors have finished the study of "Sir Launfal." They found it very interesting. Some of the lessons learned from it are: The sin of pride and the beauty of brotherly love; also that one need not travel far and do great deeds to win Christ's favor.

Word has been received from Fred Pappan, who is now in Oklahoma, after spending the summer in Chicago, informing us that he is faithfully training for the ten-mile Marathon and that he expects to return to Carlisle. His father is the owner of an auto and, between runs, Fred is learning how to become an expert chauffeur.

Andrew Jackson, ex-junior, is now employed as a conductor on the International Street Railway Company of Buffalo. He was employed during the summer on one of the Great Lake steamers and traveled as far north as Duluth. The trips back and forth were full of interest and delight, for on that route some of the grandest scenery in America may be seen.

THE CATFISH.

ELIZA KESHENA, Menominee,

The Menominee Indians have many stories about animals; how the different animals received or lost their color and changed their form and habits.

The following is a story about the catfish. A school of catfish had assembled and were told by an old chief that a moose would come to a certain place to drink and feed along the bank and they were to kill him if possible.

This they agreed to do, so on the following day they all lay concealed in the rushes nearby. The moose finally came and was quietly standing in the water unconscious of his enemies who were watching ready to attack him.

Finally one of them cautiously went up and drove a spear in the moose's leg. This startled him and looking around to see who had done it, he spied the catfish.

The moose trampled and killed many of them, but the others swam away with injuries on their heads.

They still retain their spears but they never fully recovered from the slight depression on their heads which they received from the fleet hoofs of the moose.

A Sample of Many Letters.

Detroit, Mich., Nov. 11, 1910.

Dear Friends:

Your letter and package of November 11 I received safely, and I wish to thank you for your kindness in sending to me such fine samples of the students' work.

I think that your work is fine, and especially the manner in which you carry out your designs. The mottoes chosen are excellent,—some of them hit pretty hard.

I think it would be a fine thing if we had printing taught in our school, but we do not. We have a little over a thousand attending our high school, and have two other high schools besides, but I think the students of Carlisle have the best time in lots of ways. I only wish I was there for a while. Thanking you again for your kindness, I remain,

Sincerely yours,

GEORGE H. WILLIAMS,

475 Seyburn Avenue.

GENERAL SCHOOL NEWS.

Miss Beach returned from Bradford last Tuesday evening.

The Y. W. and Y. M. C. A. held a union meeting last Sunday evening in the auditorium.

Dr. White's brother, of Philadelphia, ran up Saturday to visit him over Sunday and see Carlisle.

The Catholics gave a short but interesting program at their last meeting; many of those who took part were volunteers.

Nora McFarland, who has been working in the art department for sometime, left Friday morning for Oak Lane, Pa., where she will attend a public school.

Patrick Miguel, a Yuma Indian, a graduate of the Class of 1905, visited Carlisle recently. He stopped over on his way to Washington, D. C., where he goes to look after the land allotments for his people.

Miss Blanche Dumm, Dickinson 1910, who taught the "Star of Hope" Bible class here last year and who is now teaching in the High School at Ambler, Pa., paid her former pupils a short visit last Saturday.

Last Saturday evening, the students and faculty were highly entertained by Alton Packard, the well-known humorist, cartoonist, and lecturer. We were held almost spell-bound until the close of the entertainment, which came all too soon. We could have listened and looked for another hour.

Miss Schultz entertained a number of friends at a bowling party Monday night. Some remarkable scores were made. The sensational feature of the game was the "touchdown" made by Miss Hagan. After the bowling, the party enjoyed refreshments and games. Everybody had a good time.

The deciding game between the "Band" and the "Painters" was played Thursday afternoon. Both teams displayed good understanding of the new rules. The final score was 2-0 in favor of the "Painters". This virtually gives the "Painters" the shop championship for this year.

Last Saturday during a game of football, a rabbit made its appearance upon the field; immediately the spectators turned their attention towards it. After great scrambling about to catch it, during which time the poor frightened animal was making desperate efforts to escape, it was finally caught in "Shongo Park." A sorry "Thanksgiving" for poor "bunny."

The program given by Standards was as follows: Declamation, Bruce Forte; essay, Juan Harrara; impromptu, Fred Walker; oration, Edward Eaglebear; vocal solos, Jefferson Smith, Montreville Yuda. The question for debate: Resolved, "That the world owes more to navigation than to railroads." In behalf of the affirmative were Delancy Davis and Alvin Kennedy; for the negative Fred Leisher and Benedict Cloud. The judges awarded the victory to the affirmatives.

The Susans held their meeting at the usual place last Friday evening. After the transaction of business the following program was given: Song, Susans; recitation, Iva Miller; piano solo, Cora Bresette; vocal solo, Clara Trepania, accompanied by Pearle Bonser; dialogue, Myrtle Thomas and Rosina Peters. The usual debate was omitted. The official visitors were Miss Curtis and Mr. Denny each of whom gave good advice. Another visitor was Mr. Patrick Miguel, class of 1905, who spoke of former days and experiences at Carlisle.

The Mercers had a short but interesting meeting in the Y. W. C. A. hall. The question debated was: Resolved, "That the most successful business men are not strictly honest." The affirmative speakers were Clemence La Traille and Hallie Sky; those upholding the negative were Gladys McLean and Ollie Bourbournais. The judges decided in favor of the latter. Mrs. Lovewell and Miss Hagan were the official visitors; each gave the society a helpful talk.

CARLISLE'S THANKSGIVING.

Thanksgiving Day at Carlisle is usually one of much feasting and rejoicing and last Thursday was no exception to the rule. The day was duly observed as befits the occasion. At nine o'clock the employees and the student body assembled in the auditorium to offer thanks and to do homage to the Giver of all things.

Mr. J. B. Carruthers, State Secretary of the Young Men's Christian Association, delivered a splendid address, full of good thoughts and encouragement.

Promptly at twelve the dinner bell summoned one and all to the Dining Hall where a beautiful feast was spread. There was turkey and other appetizing things in plenty and to spare to satisfy those who in anticipation had fasted for a meal or two. The afternoon was spent in playing and in watching, foot-ball games. A reception in the gymnasium ended the happy day.

Invincibles Have Good Meeting.

The invincible society held its most spirited meeting of the year thus far. There was a full house and the old Invincible spirit was shown by the way in which the meeting was conducted. The usual routine of business was quickly disposed of after which the following program was rendered: Declamation, James O'Brien; extemporaneous speeches, Robert Tahamont, Philip Cornelius and Georga LaVatta; select reading, Josiah Saracino; oration, Moses Friday; vocal solo, James Mumblehead. The question debated was: Resolved, "That the average young man of today has greater opportunities to make life a success financially than had his forefathers". The affirmative speakers were William Owl and Jack Jackson; the negatives, Joseph Jocks and Mitchell LaFleur. The judges decided in favor of the affirmative. Miss Kaup and staff of pupil teachers were the visitors for the evening, and when called upon for talks responded with pleasant advice. Eight names were added to the roll and several more were presented for membership. The Invincible society is now quite up to the standard and every week makes an effort to have an interesting meeting, to which all are invited.

ABOUT CARLISLE ATHLETICS.

Carlisle was defeated by Brown at Providence on Thanksgiving day in a very closely contested game by the score of 15-6. These figures, however, do not give an accurate idea of the closeness of the game, because the Indians had the ball on Brown's eight-yard line once, missed a goal from the field by a narrow margin at another time, and lost the ball on fumbles several times when near the Brown goal. The Indians gained ground so easily against Brown that they were not forced to punt once during the game, the only punt they made being on a first down; but fumbles at critical times prevented the team from scoring but once. Carlisle's touchdown was made after a steady advance of eighty-five yards, and following this, after Brown's kick off, another similar advance was made which looked good for another touchdown but it was all spoiled by a fumble on Brown's twenty-yard line.

The game was played in the morning before the largest crowd ever upon the Brown field, and it was a clean as well as an interesting and spectacular contest.

While our foot-ball team has not won a single so-called big game the past season, yet our showing has been creditable in every contest, and no team has been able to defeat us except after the hardest kind of a battle and by narrow margins. In fact, an analysis of every game will show that the Indians gained as much ground as their opponents and were as strong upon the defence, but it was our opponents' superiority in punting and handling punts, and in generalship coupled with the Indians' carelessness in fumbling at critical times, which caused our defeats.

The team showed a good spirit this year, and the players, with few exceptions, trained faithfully and it can safely be said that we had a better team than last year. The boys have also played a clean game and have won many friends and admirers upon their trips.

While it is never certain how many players will be on hand the next season, it is safe to predict that a majority of this season's team will be on hand next fall, and with this year's experience, and with the addition

of recruits from the substitutes, Wauseka's reserve team, and a few new men who always put in an appearance each season, it looks as though the school would be represented by a much stronger team next year than this.

A good schedule will be arranged with probably one more big game and more of the smaller games will be played at home.

The cross country team won the Berwick marathon race on Thanksgiving day, defeating some of the best distance runners of this State and Canada. Tewanima came in first, with Arquette a close second, while Gallagher, the crack distance runner of Philadelphia, was third. Carlisle's team consisted of Shelly, Quamal, Talyemptewa and Ransom, in addition to the other two mentioned. Tewanima and Arquette won gold watches. The team prize was a silver shield and each member of the team was presented with a cup. Tewanima's time was a new record for the course.

Sampson Burd, who has played right guard upon the team for two years with great credit to himself and to the school, has been elected football captain for 1911. "Sam" is one of the best players upon the team, a heady player, a natural leader, and very popular among the players and students, and he will undoubtedly make an able and successful leader for our next gridiron campaign.

GENERAL SCHOOL NEWS.

Miss Hagan, of the academic force, went to Washington last Friday evening.

Nancey Connors, who has been living in West Chester, Pa., for some time returned to the school Saturday.

Margaret Grant, who has been living for some time in Mt. Holly, New Jersey, returned to the school last Saturday.

The Junior Varsity basket-ball team defeated the Y. M. C. A. team in town, last Friday evening by the score of 62-1.

A talk on "Dr. Sheldon's Work in Alaska" was given by Vera Wagner at the Second Presbyterian Sunday School last Sunday morning.

The Sewing Circle was entertained last week by Miss Gaither, in the rooms of Mrs. Denny. A very pleasant evening was enjoyed by all.

The entertainment given Saturday evening seemed to be very much enjoyed. It was a refreshing change from the usual school reception.

Frank Smith came in for a short visit last Saturday evening. He has a nice home and is well satisfied with his Outing school and his studies.

Thomas St. Germaine, a former student and now a member of the Yale Law School, joined the foot-ball squad at New Haven and accompanied them to Providence.

The Freshman Class was represented by James O'Brien in the auditorium last Monday afternoon. His subject was "Obedience" and one lesson from it was that we should never give commands until we are able to take them ourselves.

In a natural manner, as though voicing his own convictions, DeLancy Davis of the Freshman class, told of "Unconsciously Lowering Our Standards." The excellent thought applies to all and we should be more than ever watchful of our habits.

Stephen Glori, our Filipino printer, who has been ill in a New York hospital for several months, writes this on a card to his teacher, Mr. Miller: "I have already returned to work and am getting \$22.00 per week. Am O. K. Wishing you all a Merry Thanksgiving."
