THE TRIP TO HARRISBURG.

By KENNETH KING, Senior Class.

We left Carlisle on the seven o'clock train in the morning and went as far as Mechanicsburg. Upon arriving there we marched to the Washington Company's fire-house, by whom we were hired to play, and led a parade around the town before leaving for the capital city.

We left Mechanicsburg at nine-fifteen and arrived in Harrisburg twenty five minutes later. It seemed to me as though the parade was in full motion when we got there, as the streets seemed full of different fire companies with their bands. We marched to the house of the Hope Fire Company, whose guests we were while in the city. We left our instruments in one of the school buildings, and it then being ten-thirty. We were at liberty until 12:15, when we were scheduled to fall in the line of parade and wait for our turn to march.

The boys spent their leisure moments in various ways; some visited different places of interest, others walked around and took in the sights.

We certainly had enough of the latter experience later in the afternoon. We had a light luncheon and at 12:15 sharp, fell into the line of parade, and shortly after one we started to march.

We were in the second division and we marched about fourteen and one-half miles. At the start we halted a few times, but when once started we kept up a steady tramp. Walking in front of the band, with our leader, Mr. McDonald, was Grant White, dressed in full Indian costume. Nearly every time the band played he would execute a few steps in true Indian style, for which he received resounding applause. The boys played very well, and they, too, received a generous show of appreciation.

When on the home stretch the pa-

rade halted a few minutes, and we found out that the twelfth division was just starting and there were two more waiting for their turn to march.

The judges' stand was at the end of the parade. We were all very tired, but when we saw the judges' stand we braced up and played a march with more animation than we had at the beginning.

We had a fine supper, after which we were dismissed until the time for the departure of the train for Carlisle. There were about 109 bands that took part and about 12,000 firemen. The parade was fourteen and one-half miles in length and consequently the last few divisions did not make the complete route, as it was very late when they got started. We arrived in Carlisle about ten-thirty, very glad indeed that the strenuous day was over.

He gives me money when I take the milk to town to buy butter, coffee, and sugar, and I always bring back what is left. Jack Frost was here last week and made the woods very beautiful. This is all I have to say but I like the east more than the west."

Mrs S. S. Danser, an outing patron living at Robbinsville, N. J., writes as follows: I am very much pleased with the way my two boys, Peter Barnaby and my son Harold, have done my farming this year. They have gotten along nicely and have worked together fine. A great many people are surprised that we did so

well. Things were kept up in good order, not the way you would expect two boys to do, but more like men of much more experience. So I was well satisfied. Peter starts to school Monday and I hope he will do well in his studies.

The many friends of Margaret Swamp may be pleased to know she will have a permanent home in Collingswood, N. J. Margaret has just finished a five-year term with the Carlisle School, three years having been spent with Mrs. Henry F. Kunkel, of Collingswood. As Margaret has no parents, she fully appreciates the training and care afforded her by her friends. Mrs. Kunkel sends thanks for the prize she drew under our Outing System and seems delighted to have a girl with a nature so full of sunshine in her home. Margaret demands the respect of every one in the town because of her good behavior. We are proud of this girl's record and hope all of our girls will profit by her example.

LEGEND OF AN INDIAN BOY.

By FRANCIS LAMERE, Winnebago.

There was an Indian boy that was always good to his playmates. He was a good boy and unusually bright. He was always a good boy until he died. When he died he was dressed in a white man's clothes. Old Indians say that there is a place where good Indians alone go, and another place where good white people go. So the young man went to the Indian's happy hunting ground. The man in charge would not permit him to enter as he was dressed in a white man's clothes. He was told to go west where the white man was supposed to go. The young man was disappointed, but turned back and went where he was directed. When he arrived at the place, he was told that his clothing would pass, but his face was not pale like theirs, so he could not be permitted to go in.

He knew of no place to go, so he came back to the earth and lived life over again. When he lived again he was determined to make no mistake twice, so when he was about to die his wish was to wear Indian clothes. And this time he entered the happy hunting grounds without trouble.

THE CATHOLIC MEETING.

The Catholic meeting opened with a prayer. Father Stock read a verse from the Bible on "purgatory," and then explained it. Prayers were offered for the soul of Agnes White and Joseph Jocks.
