ATHLETICS.

By JOHN MCGILLIS, Reserve Coach.

Carlisle lost a hard game to Brown University at Providence, R. I., Thanksgiving Day by a score of 20 to 14. Although outplaying their opponents, the Indians' fumbles on their own 10- and 15-yard lines, which resulted in two of Brown's touchdowns, lost the game. Carlisle scored in the last quarter, when Captain Calac began to rip the Brown line to tatters and scored an easy touchdown. Five minutes later he carried the ball over for another touchdown. Carlisle out-rushed Brown 3 to 1, but fumbles were costly.

The Varsity is scheduled for three post-season games. The first game was played at Boston last Saturday with the All-Stars, composed mostly of former Harvard players, and Carlisle was defeated by a score of 13 to 6. The proceeds of the game,

which was attended by five thousand persons, went to the Children's Charitable Hospital of Marblehead. This week Carlisle plays University of Georgia at Atlanta, and Alabama at Birmingham, Ala.

Carlisle defeated the University of Alabama at Birmingham last Wednesday in a fast and hardfought game by a score of 20 to 3. Carlisle scored a touchdown in each of the first three quarters. Pratt starred for the Indians.

The Reserves lost their final game of the season on Thanksgiving Day at Newark, Del., to the Delaware College eleven by a score of 33 to 0. The Indians fought hard, but could not check the attack of the collegians, who were in their best form and who played their best game of the season.

Gus Welch, who was injured three weeks ago in the Carlisle-Notre Dame game at Chicago, and who has been in the Mercy Hospital of that city since, returned to Carlisle last Monday fully recovered. His many friends are happy to see him well again.

INDUSTRIAL AND INSTITUTIONAL DEPARTMENTS

"A first condition of Citizenship and of self-respect is the power of self-support."

BAKER SHOP.

By Chauncey White.

No lectures were given last week because of the pressure of work.

Fruit and nut cakes were baked for both Mrs. Lipps and Mrs. Reneker.

Almost every day some boys come to the shop to see Mr. Reneker about working at this trade, but no more can be admitted at the present time.

Last Wednesday both the morning and afternoon details worked all day on account of having more baking than usual to do. We baked on that day 1155 loaves of bread and 1200 drop cakes.

THE CARPENTER SHOP.

By Andrew Beechtree.

William Kennedy, an industrious boy from the Small Boys' Quarters, has returned to the carpenter detail. William has been working at the dairy during the past several weeks.

Last week the instructions given to the boys were on balloon framing, half and full framing; and the meaning of rise and pitch, as used in framing work, was explained and illustrated.

Cases are being made in which two chairs, a library bureau, show case, and a couple of turning samples, are to be shipped to the Panama Exposition. These are made exclusively by the students.

The advanced dressmakers have started the Roman cut-work embroidery.

Georgina Collins took charge of the plain sewing class during the absence of the teachers.

Miss Snoddy's class made their annual visit to the sewing room last Wednesday. The boys were greatly

interested in the fancy work and also in the hand painted china which is being done by several of the employees.

The dressmakers deserve credit for the manner in which they have worked at and completed the winter uniform skirts for the girls who are here, and the school dresses and uniform skirts for those who are under the Outing.

THE BLACKSMITH SHOP.

By George Roberts.

Both blacksmith details have been kept busy during the past week by the overrush of work in repairing plows, trucks, and wagons.

Xavier Downwind has completed a fine hammer which is now on exhibition as one of the best pieces of workmanship the shop now possesses.

CARRIAGE SHOP.

Our class room instructions have been omitted for a few days, while catching up with back work.

Three more apprentices have entered the shop. They are Hiram Chase, Stephen Foot, and Earl Wilber.

THE way to civilize an Indian is to get him into civilization and the way to keep him civilized is to make him stay.—*General Pratt.*

By James Holstein.

We are making some small articles which are to be on exhibition at the Panama Exposition in 1915.

The roofs at the dining hall, school building, and the baker's cottage were repaired during the past week.

The pupils of Room 4½ were in the shop on Friday. Mr. George showed them how to use the soldering iron and how many other things are made.

TAILOR SHOP.

By Fred Ettawareshiek

The last lesson was on the first principles of drafting, or the making of patterns for clothing.

We have made four commissioned officers' uniforms, forty-five privates' uniform coats, and eighty-eight pairs of trousers.

Aside from all that a large amount of general cleaning and repair work was done by the boys who have been in the shop since September.

A large number of uniform coats came from Washington to have the gilt cord sewed on the same as on our coats, and to be given out to those who need them.

Since October fifth the following lessons have been given us by Mr. Nonash: Clothing material and from what sources derived, properties of different materials, what is meant by worsted cassimere, broadcloth etc, dyeing and the various dyestuffs and their sources, adulteration of clothing material and detection of same.

Last Friday morning in No. 11, the exercises opened with a recitation entitled "L'Envoi" by Emerald Bottineau.

During Miss Zeamer's absence from the Dining Hall, Miss Dupuis, Miss Spira, and Miss Vilcan were detailed to take her place.

Everyone, judging by the expression on his face as he passed out of the Dining Hall, seemed to have enjoyed the Thanksgiving dinner.

Mr. Griffiths chaperoned the Episcopalian girls to church Sunday morning. On the way he told them many interesting short stories of the Bible.

Mr. Lipps left the first of the week for a three weeks' trip, in the interests of Carlisle, among the Indian schools and reservations west of the Mississippi.

Mr. Lipps is our authority for the statement that one of the girls societies alone, in Hampton Institute, gave over fifty dollars to the Belgian relief fund.

The Sophomores were sorry to lose their classmate, Ella Fox, who was called home on account of the death of her mother. All extend to her their heart-felt sympathy.

In a letter to his teacher, Miss Donaldson, Luke Conley, who is under the Outing at Hamilton Square, N. J., says in part: I go to public school. I was in the fourth grade for about

one week, then I was promoted to the fifth. I do my best to stick to it. I went to the M. E. Sunday School last Sunday.

The boys are improving in keeping time as they march to the Dining Hall and back again to Quarters. In a few weeks they will make the girls take notice on keeping step.

Miss Evelyn Foster, of the Burlington (N. J.) high school teaching force, spent her Thanksgiving vacation with her mother, Mrs. E. H. Foster, and returned to Burlington Sunday afternoon.

Saturday evening the students assembled in the Auditorium and enjoyed Mr. Lipps' talk on his visit to Hampton Institute. They also enjoyed the slides and the talk given by Mr. De Huff.

The Indians of the Christian Endeavor Society at Hampton wrote that Mr. Lipps' talk was worth a great deal to them. He filled them with "new inspiration which will long be remembered."

Sunday noon, in the dining room, Mr. Lipps told the students that he was going away on quite a long trip and that he would be gone for three weeks, but he said that he had already prepared for us a fine Christmas.

Mr. O. L. Burney left last Friday for his home in Chickasha, Okla. While in Oklahoma he will visit friends in Tulsa and Muskogee. On returning to Carlisle after Christmas he will stop off at Lawrence, Kan., and visit Haskell.

Saturday evening of this week, the Standard and Invincible Literary societies will give a special literary musical program, to which an admission fee of ten cents will be charged, the proceeds to go to the Belgian relief fund. In the course of the entertainment, in addition to the literary and musical part of the program, Mr. De Huff and Mr. Weber will show a series of seventy-two lantern slides on ancient and modern Greece. These pictures will be of particular interest to our Senior Class, who have just finished Greek history. The promoters of this entertainment wish to emphasize the fact that although ten cents is the price of admission, anything in excess of that sum will be gladly received.

THE STABLE.

Two of the boys, John Walette and Grant White, are on a twelve days' leave.

The work is rather slow nowadays, and just the ordinary duties around about the place are carried out as usual.

On account of some misunderstanding the reporter for the stable failed to furnish items for the last issue of THE ARROW.

George Foulke, the foreman, is seen around the campus with his right hand in a sling, as the result of a too close contact with a sharp knife blade.
