A WEEKLY NEWSPAPER PRINTED DURING THE SCHOOL YEAR BY STUDENTS OF THE CARLISLE INDIAN SCHOOL

VOLUME XI

CARLISLE, PA., DECEMBER 11, 1914.

NUMBER 15

## INDIAN DAY.

By KENNETH KING.

Mr. Red Fox James, of Big Hole County, Montana, on his famous Indian pony, "Montana," has ridden 3,784 miles carrying a message from Governor Stuart of Montana to President Wilson.

The message embodies a petition to the Federal Government asking that a day to be known as "Indian Day" be set aside each year in commemoration of the North American Indians.

The suggestion originated at a meeting of the Society of American Indians, where it was discussed somewhat and finally dropped. Mr. James, formerly a member of that society and also a member of the Indian Rights Association, has taken up the matter with the result that he now has the indorsements of the Governors of the following States: Montana, California, Idaho, Wyoming, Oregon, Arizona, Iowa, Colorado, Nebraska, Kansas, Washington, Missouri, Oklahoma, South and North Dakota, Minnesota, New York, Pennsylvania, Michigan, West Virginia, New Jersey, Florida, Arkansas, Maine, and Massachusetts.

United States Senators LaFollette, O'Gorman, Owens, and Walch, besides a number of Congressmen from other States, are in favor of it; also the mayors of Cheyenne, Omaha, Pittsburgh, New York, Philadelphia, and Chicago have signed the petition. Many universities, high schools, and Y. M. C. A.'s have sent in indorsed petitions. The Boy Scouts and many churches are advocating the idea. The Patriotic Order of Sons of America, the Improved Order of Red Men, and many prominent persons are taking an active interest in furthering this worthy cause.

On December 16, United States Senator Walch of Montana will present Red Fox James to President Wilson, when the message with the indorsed petition will be presented.

The adoption of the plan would mean much to the North American Indians and it would add an interesting chapter to Indian history. It would also place the Indians in a better light before the people of this country, who are themselves Americans only by adoption.

Mr. James' grandparents are from the Indian Blood Reservation in Alberta, Canada. He himself is a native of Montana.

Mr. James is a zealous Y. M. C. A. worker, and after his mission to Washington he will come back to Carlisle to spend the Christmas holidays, after which he will return to Montana to work for the welfare of the Indians.

Statues of Greek gods were shown and all were models in the art of sculpture.

The picture of the Laocoon, one of the sculptured wonders of the world, was shown on the screen.

The pictures of Athens, with its classic buildings and background of historic hills, were interesting indeed.

The entertainment was well attended. The receipts for the evening were approximately seventy dollars.

The Parthenon looked as if it were all made up of pillars. The statue of Athena must have been very beautiful.

Mr. DeHuff gave us a treat when he explained the meaning of those fine pictures of ancient Greece that were thrown on the screen by Mr. Weber. The pretty story of Narcissus was

especially interesting. We shall always remember it when we see that beautiful flower.

We were shown the place where St. Paul preached and the spot reserved for a statue to the "Unknown God."

We saw the platform upon which Demosthenes stood to deliver some of his famous orations; also the field of Marathon.

In a way, we may compare the architecture of ancient Greece with that of the cliff dwellers of the Southwest.

Jose Gonzalo's recitation, "The Night Wind," was very pleasing. He was drilled by one of the Seniors—Hiram Chase.

The scenes of Ancient Greece were especially enjoyed by the Seniors, who have just completed the study of Greek history.

Some of the most interesting pictures were the ancient temples of Greece, which were erected to their gods. Some of them date back to 490 B. C. the ruins of which are still standing.

The architecture of the ancient buildings was very beautiful, and showed to what a high state of civilization the Greeks had attained. The statues of Hermes and Mercury could not have been better.

**GENERAL SCHOOL NEWS.**

BY STUDENT REPORTERS.

Emerald Bottineau, Maude Cooke, Manuel Ortego, Max La Chapelle, Pablo Herrera, and George Warrington, because of exceptionally meritorious work, have been promoted from room 11 to room 12.

Under the influence of the spring-like weather of the Thanksgiving season, the buds began to swell and the birds of summer to return from the South; but the sleet and cold rain of Saturday night and Sunday locked everything up tight for the winter. This was a blessing in more ways than one; for had the buds put forth at this time of the year, the damage to trees and perennial plants in general would have been enormous. Moreover, the drought in Pennsylvania this autumn has been severe and many farmers have been hauling water from the rivers and creeks.
