A WEEKLY NEWSPAPER PRINTED DURING THE SCHOOL YEAR BY THE STUDENTS OF THE CARLISLE INDIAN SCHOOL

VOLUME XII

CARLISLE, PA., OCTOBER 15, 1915.

NUMBER 7

## ONE SUPERINTENDENT'S VIEWPOINT.

THE Indian school is no new thing, for covering a period of more than twenty-five years the Government has been supporting and directing the policies of not only one but many of the so-called Indian schools. The Indian school differs in that these schools are industrial schools as well as scholastic institutions; that the students are Indians rather than Anglo-Saxons, Slavs, Romans, or the descendants of these various races.

Why the Indian differs from the rest of mankind, if he does differ, has never been well explained. To be sure, he comes from a race of aborigines, a race that is not learned or even civilized in the modern term, but the Indian, as we know him, and as he has appeared on the landscape for the past fifty years, about as long a period as is given to one human being to observe conditions, is not so different from other races as is often assumed.

Too many of the Indian-school people as well as the outside world assume from the beginning that the Indian is out of the ordinary; that he deserves and requires a mode of education and handling far different from white or other children. Even our best physicians in the Government service will often tell you that an Indian requires larger doses of medicine than a white child; that he is more susceptible to disease than other children; that he is either lazy, or has some peculiarities that is not found among common white children. This to my mind is all rot.

The Indian child is like other children in most if not all respects. The same laws that governs the white human child effect and control the Indian child. The teacher or schoolmaster who thinks for one moment that some special pedagogical rules must be devised and maintained for the Indian is sadly mistaken. The same rules that applies to teaching the three R's to white children will apply to the Indian. The physician that is called to treat an Indian child should administer the same dose of medicine that he would prescribe for the white child. I realize that there are many old teachers and officials in the Indian Service who have never gotten over this idea, and the more the pity. If the teacher will look up his Kipling and read just two lines he will find expressed in the following the whole truth:

"The Colonel's lady and Judy O'Grady  
Are sisters under the skin."

When we in the Indian employment have succeeded in convincing the outside world and a few of our own people that the Indian is a human being, endowed with all the attributes given to mortal man, that he is capable of taking on those same qualities that others have secured by education and association, we will have done a good work.

I have always found it harder to educate those who are associated with me in the Indian work, to get them all to realize the character of the work expected, and to feel right toward the Indian, than to uplift the Indian himself.—C. J. Crandall.

## Indians Win From the White Women.

The second best pie exhibited at the State Fair was baked by an Indian woman, Mrs. Alma Friander, of

White Swan. It was not a pie baked for competitive purposes, but one which Mrs. Friander had prepared for her family dinner on the day Don N. Carr, of the Ft. Simcoe Agency, visited her and asked that she might take it to the fair. What is more, it is a dried-apple pie.

Not only as pie makers but as canners of fruit and vegetables do the Indian women show themselves worthy rivals of their white sisters. The second award for the best collection of not less than 10 jars of canned fruit, and the second prize for a jar of canned vegetables, went to reservation women and that, too, in classes where there were numerous entries. The winner for canned fruit is Mrs. Ella Briggs, of White Swan, and for vegetables Polly Brown, of Wapato.

Mrs. A. C. Davis, of North Yakima, won the first prize for the best collection of five cakes, Mrs. H. I. McBeth of Naches being second.—*The Yakima (Wash.) Republic.*

## PROHIBITION BEING MADE EFFECTIVE IN ARIZONA.

Interesting Information from the Annual Report of the Superintendent of the Fort Yuma School, Cal.

The greatest change in conditions has come with the advent of prohibition in Arizona. Yuma, just across the Colorado River into the streets of which we look from Indian School Hill, has experienced a change which seldom appears except in fiction. All of the saloons have been replaced with clean business enterprises. The town has been renovated in every way and bootleggers, the greatest curse to Indian progress, have been relentlessly prosecuted and since January 1, 1915, not one Yuma Indian has been known to take an intoxicating drink where previous to this ten drunken Indians were dealt with in a single day and the first Sunday in May, 1913, there were 17 arrests on the reservations for drunkenness and disorderly conduct.

AUTUMN is the evening of the year when every forest is a sunset and every tree a burning bush.—*Selected.*

## FEDERAL COURT WEEK.

This morning the Federal court convenes in Missoula with its usual but diminishing grist of bootlegging cases from the old Flathead Reservation country. Steadily and with unerring certainty the Federal officials have enforced the laws prohibiting the introduction of intoxicating liquors into Indian country and forbidding the traffic with Indian wards of the Federal Government.

It is slowly dawning upon some people that when Uncle Sam enacts a statute he also intends to see that it is strictly enforced. It may take several short courses at Leavenworth to fully illustrate the point, but in the end the lesson will be learned.

A very great majority of the people of the west side counties are of the belief that they owe a lasting debt of gratitude of Judge Bourquin, Major Morgan, and Special Agent Glenn for their unswerving devotion to duty in the enforcement of the Federal liquor laws in this vicinity.—*The Missoulian (Missoula, Mont.).*

### OUR COTTAGE.

*By Maude Cooke and Agnes Hatch.*

'Neath the shade of the trees, in the campus breeze,  
Stands our Model Home Cottage for profitable ease,  
With dwellers that vary in size and manner,  
But vow to live up to our Model Home banner—

This Model Home banner which teaches so true,  
The ways of plain home life and happiness, too,—  
The planning and serving of different foods,  
That would set grouchy people in pleasureable moods.

In this Model Home Cottage are furnishings plain—  
The reason for this we shall later explain.  
It is not with rich trappings we aim to thrive,  
But toward plain economy we patiently drive.

The flickering shadows that dance on our hearth,  
Delight us with joy and laughter and mirth.  
The fairy tales told by our teacher, Miss Keck,  
We are storing away in our hearts by the peck.

The days come and go like a swift aeroplane,  
But this is no reason why one should complain:  
For with each fleeting moment we all hope to gain,  
A knowledge which may be both useful and sane.

### FATHER STOCK ADVANCED.

Rev. Mark Stock, who has been the Catholic chaplain spiritual advisor to the Catholic Indian pupils of Carlisle since 1910 and who succeeded the late Rev. Dr. Gamas, has been promoted to a charge at New Oxford, Pa., about ten miles from Gettysburg, Father Stock's home town.

Father Stock's work among the Indians has been most successful. His kind, gentle, refined character has endeared him to those who had the good fortune to come in contact with him. The five years that he so unselfishly devoted to the Indian cause shall be ever remembered by the Catholic pupils who have come and gone at Carlisle. He spread sunshine among the Indian pupils wherever he appeared, and his childlike implicitness and interest in all their joys and sorrows made him doubly dear to them. Father Stock was not working for lucre; all the reward he asked was that the Indian pupils might lead good, virtuous, Christian lives of which he himself is a living example of all that is good and noble.

Father Stock's place will be hard to fill, and what is New Oxford's gain will mean a loss to the Catholic Indians of Carlisle.

We wish him much reward and a Godspeed in whatever he undertakes.

The Catholic pupils of Carlisle have presented Father Stock with a Navajo rug and a sofa pillow. In addition to that the Catholic girls are making him a present, as a slight token of the respect and esteem in which he is held by the Catholic Indians of Carlisle.—*J. B. M.*

### CATHOLIC MEETING.

*By Agnes Hatch.*

Sunday was the girls' day to receive Holy Communion in St. Patrick's Church.

Twenty-three girls attended the eight o'clock Mass. The remainder of the Catholic students attended the 9:30 Mass.

The usual Mass services were conducted by Father Stock.

The epistle and gospel read at the Mass were taken from St. Paul to the Ephesians, chapter 5, verses 15 to 21.

The evening Benediction services opened with a prayer.

Then the singing of two hymns, "Sweet Savior, Bless Us" and "O Sacred Heart."

Father Stock then read a passage from the Bible.

After the reading Father Stock told us of his leaving Carlisle, and how he regrets to leave his work among the Indian boys and girls in whom he has taken a fatherly interest.

After this the benediction hymns were sung with organ and orchestra accompaniment.

Rosary prayer beads were then given to each boy and girl. The meeting closed with a prayer.

### "LOW'S FORTY SIGNS OF RAIN."

(By Dr. Jenner.)

The hollow winds begin to blow,  
The clouds looks black, the glass is low;  
The soot falls down, the spaniels sleep,  
And spiders from their cobwebs peep.  
Last night the sun went pale to bed,  
The moon in halos hid her head;  
The boding shepherd heaves a sigh,  
For, see, a rainbow spans the sky;  
The walls are damp, the ditches small,  
Closed is the pink-eye pimpnel.  
Hark! how the chairs and tables crack,  
Old Betty's joints are on the rack;  
Loud quack the ducks, the peacocks cry,  
The distant hills are looking nigh.  
How restless are the snorting swine,  
The busy flies disturb the kine;  
Low o'er the grass the swallow wings,  
The cricket, too, how sharp he sings;  
Puss on the hearth, with velvet paws,  
Sits, wiping o'er her whiskered jaws.  
Through the clear stream the fishes rise  
And nimbly catch th' incautious flies;  
The glow worms, numerous and bright,  
Illum'd the dewy dell last night;  
At dusk the squalid toad was seen  
Hopping and crawling o'er the green;  
The whirling wind the dust obeys,  
And in the rapid eddy plays;  
The frog has changed his yellow vest,  
And in a russet coat is dressed.  
Though June, the air is cold and still,  
The blackbird's mellow voice is shrill;  
My dog, so altered in his taste,  
Quits mutton bones on grass to feast;  
And see yon rooks, how odd their flight;  
They imitate the gliding kite,  
And seem precipitate to fall—  
As if they felt the piercing ball.  
'Twill surely rain, I see with sorrow;  
Our jaunt must be put off to-morrow.

Jessie Wofford saved Carlisle from a shut-out Saturday by his fine playing.

David Bird, Grant White, and Charles Pratt called on friends while in Boston.

Last Monday, Jack Frost showed himself stronger than at any other time this fall.

Leon Miller was the star at two occupations Saturday, cutting corn and eating apples.

James Cox is training faithfully for the annual cross-country race which will take place next month.

The football boys had the pleasure of seeing John Evers, the great baseball player of the Boston "Braves."

Sarah Monteith has left us to attend the Carlisle High School. We all miss her from our class of "odd" girls.

Sunday evening Rev. Fr. Stock preached an interesting and encouraging sermon to the Catholic boys and girls.

Peter Jackson spent a happy day in the corn field last Saturday. He was well satisfied when he was given two square meals.

The odd division girls of the first-year vocational course have finished their theme on "Possibilities in Spare Moments."

Harold Francis, better known as "Shorty," is now the football team's "pet." After each meal, the boys bring him good "eats."

Miss Dabb, who is Y. W. C. A. secretary for Indian schools, is visiting Carlisle. She has given us some very interesting talks.

Benjamin Guyon, the sub. "Hot Shot" quarterback, played a clever game against the Bear Creek team last Saturday afternoon.

There were about forty boys who went out to cut corn Saturday morning. All did their work well and reported a good time.

Margaret Rabideaux, who is at her home in Bayfield, Wis., writes that she is having a pleasant time at home, but expects to be in school soon.

The boys that went out to Mr. Warner's farm to cut corn Saturday came back with a smile on their faces and their pockets full of big red apples.

One of the many good things told us by Miss Dabb was this: "Fill your minds with beautiful thoughts so that there will be no room for ugly ones."

Mrs. Ewing has arranged to have one of the girls speak to the other girls on each Wednesday evening. The girls will be benefited to know of the ideals and opinions which the others have.

The "Hot Shots" met their second defeat of the season last Saturday. The Lebanon Valley team outweighed the "Injuns" ten pounds to a man. Only a few of the men are on the injured list.

The children on the campus have gotten an early start in lecturing. They hold a meeting every week in the homes of the various children and talk on "The Care of Dolls" and other important subjects.

Homer Lipps played his first game of football for Conway Hall last Saturday afternoon. Although he and his team were defeated, one thing is evident, Homer is surely "some Calac" when it comes to hitting the line.

**CARLISLE LOSES TO HARVARD.**

**The Crimson Players Heavier Than Indians And Win Game By Score of 29 to 7. j**

Carlisle outrushed the Crimson eleven, gaining 275 yards to 175, but lost. The Indians put up a great fight against Harvard in the Harvard stadium last Saturday, being beaten 29 to-7, to be sure, but presenting the Crimson with

the opportunity for each of its touchdowns, and finally driving up the field for 75 yards and planting the ball behind the Crimson's posts.

The Carlisle players were lighter than the Harvard men but were shifty on the rush line, and had a back field which held its feet beautifully and drove at the Crimson's defense with all kinds of power. The main ground gainers for Carlisle were F. Broker and Captain Calac, who tore through the Harvard line time and again for 5 or 10 yards at a clip and first downs.

The Indians started off very fast, and were mowing the Harvard rushers down when they were set back for offside. Mahan then missed a field goal from the 45-yard line for Harvard, but on the following punt the Harvard captain caught the ball and ran for the first touchdown. After making a 55-yard steady advance the Indians tried a forward pass which was intercepted by McKinlock of Harvard who raced 80 yards for a touchdown in a clear field. Harvard added another touchdown in the second period, aided by a long penalty. The remainder of the score was made in the last half.

Carlisle scored in the third period by making a 75-yard advance in ten plays. Calac made some wonderful gains through the line, and when near the goal shot a forward pass to Tibbets for an 18-yard advance. Then Wofford swung around Harvard's left end, and the last 10 yards to the goal line were covered. The team as a whole played the best game of the season, and each man deserves a lot of credit.

### A GRADUATE SUCCESSFUL IN HIS PROFESSION.

(Note.—This article appeared in *The Red Man* of November, 1914.

Dr. Oscar DeForest Davis is a Chippewa Indian from the White Earth Reservation, Minnesota, and graduated from Carlisle in 1903, working from 1903 to 1905 at his trade of printing, which he learned at Carlisle.

In September, 1906, Dr. Davis entered the dental college of the University of Minnesota, from where he graduated in 1909 and immediately opened up a suite of office rooms in the Donaldson Building, Minneapolis, Minn., where he has continuously practiced dentistry since. The Donaldson Building is one of the finest office buildings in the city of Minneapolis, and Dr. Davis's offices are well equipped and elegantly furnished. It may be appropriately added that only moneyed people can afford to patronize Dr. Davis. The writer had occasion to have some dental work done, the time consumed being one-half hour, and was very much surprised when the Doctor informed her that his price was \$5.00 per hour.

Dr. Davis has always taken an active part in dental soci-

ety work, which has chiefly to do with professional progress and improvement in all dental operations. He served two terms as secretary of the Minneapolis Dental Society, and also has appeared as a clinician on the programs of State and National dental associations.

A little over a year ago Dr. Davis married, and a visit either to his suite of office rooms or his cosy five-room bungalow is convincing proof of his success and prosperity. Carlisle is proud of him.
