Announcement.

TO MEMBERS OF THE FACULTY AND STUDENTS:

Your attention is invited to the following program of events, meetings, schedules, committees, services, entertainments, etc., which has been arranged for the school year 1909-'10.

Although the calendar gotten out last year was supposed to be complete and thorough in every particular, the one which is herewith presented is a distinct advance and improvement over last year's. The last calendar gave positive evidence, because of the admirable way in which its details were put into effect, that such an outline is an effective instrument for insuring promptness and avoiding friction and entanglements.

Even as the events scheduled last year were promptly and successfully carried into effect, so it will be expected that everything scheduled in the following pages will, at the end of the school year, have formed an actual history of the year's work.

The earnest co-operation of both students and members of the faculty is enlisted to the end that continued progress will be made.

Very respectfully,

M. FRIEDMAN,
Superintendent.

Daily Program.

Rules For Inspection

The Weekly Inspection Committees will govern themselves by the following rules:

1—Notice particularly the condition of the walks, courts, and grounds immediately surrounding the buildings.

2—Observe the porches, banisters, staircases, halls, walls, ceilings, doors, and windows.

3—Examine all beds, bureaus, wardrobes, boxes, and other articles, in the students' rooms.

4—Take especial note of the general appearance of each room, and offer suggestions as to a better arrangement of the furniture and wall decorations.

5—Jot down any lack of discipline or irregularity seen or heard among the students; observe their neatness and cleanliness, and take the name of any student who seems to be indisposed.

6—Inquire particularly into all things that it seems ought to be improved.

7—Trace any apparent waste and suggest remedial measures.

8—Make note of any repairs or structural improvements needed.

9—See that the chairman of the committee has in his possession, before leaving the building inspected, the criticisms and suggestions gathered during the inspection.

10—The chairman of the committee will report to the Superintendent, on a special blank, not later than 12:00 o'clock the following Monday, the general condition of the building inspected, the grounds surrounding it, the students therein, etc., together with the committee's criticisms and suggestions. He will make written report to the Quartermaster of the repairs and improvements needed.

NOTE—No member of an inspection committee shall absent himself or herself from inspection without the written consent of the Superintendent. In which case, the written excuse must be sent to the office of the building to be inspected in time for the chairman to read it before the inspection begins.
