PROFESSOR BAKELESS SEES MORE OF **BOSTON AND VICINITY.**

Friday morning dawned with mist and rain. It is not easy to find ones way through the labyrinthine streets of the older portion of Boston. One is soon impressed with the fact that the denizens of the "Hub" rather expect to be asked to direct the uninitiated through its thoroughfares. Each citizen is a bureau of information, courteous, clear and concise. Never once, if attentive to instructions, need one fail of his destination.

With Dorchester as an objective point, I direct my course to the entrance of the "Subway."

Boston, you will observe, will not have its meditations disturbed by any unnecessary noise. It, therefore, was among the first to banish the din of traffic from the streets of the city.

Only a few steps below the surface, under a strong arc-light, we find a perfect system of passenger transportation.

Plainly marked cars move to their stations, receive their living freight, dash away down grade, up grade following the configurations of the street.

The subways are clean, airy, well lighted, and remote from the rush and worry of the world-a great improvement over the elevated roads and surface cars.

Here we are at the entrance of the subway and the historic "Commons" lies before us. There is the State House with a palatial modern annex that does credit to the wealth, taste, and public spirit of the citizens of the Old Bay State.

The Commons recalls General Gage and his redcoats of Revolutionary days; and there before us is the veritable skating pond, we fondly hope, over which the very school boys prepared their declaration of rights and showed themselves to be worthy sons of noble sires.

The place is crowded with historic associations: but most of all, we are attracted to the monument erected in the memory of Robert Shaw.

Robert Shaw?

Now plead ignorance, boys and girls, for not one of you remember this brave, manly boy. a modest unassuming hero, who did his duty and died for a great cause. Read of him. How he took command of the first colored regiment in the stress and strain of the Civil War, though to be captured as their leader, meant sure and ignominious death. How, amid terparts of Fort Wagner, fighting, fell, and my heels. There are about six hundred was buried in the trenches by a frenzied pupils in attendance. Under the guidance foe among his fallen comrades of a de- of a very obliging Hibernian janitor, with the United States? spised race.

black man when we recall Fort Wagner just three years, the visit was doubly in-

ity of his race. Remember that one for the loikes of him." hundred and eighty-three thousand of Then stand before this great bronze tab-Gay, blooming and blushing, repaying let, (the work of St. Gaudens,)-Shaw, life size, mounted, leading his colo ed troops, who in quick marching order with faces press to the front, while Victory with her laurel wreath extended floats above them. Below, these thrilling lines by Lowell:

Right in the van on the red ramparts slippe y swell.

With heart that beats a charge he fell, Forward as fits a man;

But the high soul burns on to light men's feet Where death for noble end makes dying sweet." One also recalls these lines from Emer-

son, written to honor the same man. "So near is grandeur unto dust

So near is God to man When duty whispers low "Thou must,"

The boy replies, "I can."

Boys, girls, learn both of these stanzas. Feel the thrill of the occasion that called them forth. Do your homely little duties as though they were great; and, if the occasion comes to reveal you as a hero, you will be ready-as Americans ever are; and, if the occasion comes not, thank God you are a hero still-ready! **BEADY!** We stand before this memorial with uncovered head glad that the deeds of our illustrious great are our precious heritage.

But the umpire calls "time," and we make a dash for the subway to shoot away on the trolley for miles through unknown ways, until we bob up serenely into daylight and rain that has been slowneedle bath, or the ragged edge of a London fog.

Dorchester, too, recalls Revolutionary times. Here we are shown through a high school building mammoth in its said to originate. proportions and a veritable palace in its appointments.

putting equipments into place, polishing wood and marble, and burnishing metal fixtures. From basement to attic, it is in this section, a forecast of what twentieth century school architecture may become.

Give the best to the children. It is rigid economy.

There was still time for a hasty trip to Cambridge. Harvard College with its well-equipped buildings and immense scientific collections is intensely interesting. Memorial Hall was erected by the alumni of the University in honor of those courage. members who lost their lives during the Civil War. It is the refectory of the University. From its walls the faces of many illustrious son of old Harvard gaze down upon us.

The library is a fine one and well managed. No pains are spared to make it helpful to the students in their work.

The Cambridge Manual Training school dred students is briefly visited. No new tance: features are noted here though it is fully up to the standard of the others visited.

The Latin High School was near and could not be passed without inspection a halo of hair, flaming countenance, and We can never think ignobly of the racy brogue, who had been a Yankee for

in the center of a little park close to the tains are very high. three public high school buildings.

This is an attractive little granite structtablets, is engraved the decalogue-the days are only four or five hours long. Law obedience to which has given us the highest and best of which our civilizastone, are the following maxims:

It is noble to be pure.

It is right to be honest It is necessary to be temperate.

It is wise to be industrious.

But to know God is best of ali. But time is up. We must hurry to the South station to make a homeward train.

This station is new and thoroughly modern and up to date. The waiting rooms are unique in their beauty, cleanliness, quiet, and comfort. Large roomy settles of quartered oak, as different as possible from the conventional station seats, face each other at right angles to the walls, their extremely high and comfortable backs forming retreats as inviting as "Mr. Warner's cosy corner."

On the walls of each alcove are written the names of suburban stations so that the waiting public from these localities may easily find each other, become acquainted, be neighborly, and hold their mutual admiration societies in genuine New England style. Now that IS AN IDEA worthy ly falling all the morning, suggestive of a of Boston. Such a delightful improvement over the conventional waiting room that it rather suggests the new Yankee spirit of the Great West, where everything breezv, fresh, and neighborly is

No use talking, however, old New England is not of the moss grown order, Intelligent workmen are everywhere though she does hug her historic traditions to her bosom with an almost religious fervor .- and we hon r her for it.

We have no doubt that Boston makes more public spirit with less talk and selfgratulation than any other city in the Union.

But our face is turned homeward and the time since we left seems ages. The greatest pleasure in going away is the home coming, to meet again the kindly greetings and pleasant faces of pupils and fellow workers, and to take the daily duties with renewed zeal, and bounding

During the summer months the sun set and stern purpose in every feature, ure, with evidences of exquisite taste and sinks below the mountain tops at about good management everywhere. Above nine o'clock, P. M., and one can read all the librarian's desk, on massive granite night without a lamp, but in winter the

Is it a level country?

The country generally is mountainous tion can boast. Below, also graven in and picturesque in the extreme, and the climate is greatly tempered by the Japan current.

Are there many Indians there?

Yes, many tribes. How do they dress?

Many of them paint their faces with lampblack and oil, which makes their high cheek bones look very prominent. What do the natives eat?

Their food is principally dried berries, of which there are many varieties, smoked and dried salmon, and salmon oil. A grease, white as lard, is made of a delicate little silver fish and is much prized for food. They also dry sea-weed and boil it with salmon eggs, berries and oil, all cooked together.

Do they put the food on tables when they eat?

No. The family gathers about the pot with bone and wooden spoons of varying sizes, that belonging to the baby being about the size of a soup-ladle, while that used by the head of the household is nearly as large as his own head.

In what kind of houses do they live? In winter they live underground. You enter the house by a tunnel, on your hands and knees. Then you lift up the cover of the doorway and DROP. It is quite dark in the room and the air is full of smoke. Several families live together. What is their summer house like?

The summer house is built on top of the winter house. You pass through the totem poles, push the flap in, and fall, not "among thieves," but among dogs. fixtures. From basement to attic, it is not allong dogs. complete, surpassing anything yet seen more advancement yearly and shows The room seems full of dogs and of smoke, and the people are a "study in oil" as one missionary says.

WHY GRANT NEVER SWORE.

While sitting with him at the campfire late one night, after every one else had gone to bed, I said to him:

"General, it seems singular that you have gone through all the tumble of army service and frontier life, and have never been provoked into swearing. I have never heard you utter an oath or use an

"Well, somehow or other, I never learned to swear," he replied.

"When a boy I seemed to have an averion to it, and when I became a man I saw the folly of it.

I have always noticed, too, that swearing helps to rouse a man's anger, and When was Alaska purchased by the when a man flies into a passion, his adversary who keeps cool always gets the better of him.

In fact, I never could see the use of swearing.

I think it is the case with many people How much did this great country cost who swear excessively that it is a mere habit, and that they do not mean to be profane; but to say the least, it is a great waste of time."-[Michigan Christian AdTHE RED MAN AND HELPER scattered Indian families living among if God did not give them as much brain whites.

MORE EXCEPTIONS TO OUR POSITION.

LEMHI BOARDING SCHOOL, IDAHO,

May 23, 1901. EDITOR RED MAN & HELPER, CARLISLE, PA.

DEAR SIR:

In your editorial of the 17th inst., en- a level with the dog. titled "The Infirmity of the Situation," you cite the cases of a few exceptional graduates who have not gone back to the blanket as proof that the whole Indian This is no more reasonable than to do. hold up Washington, Napoleon or Edison as types of the average ability of the White race.

Instead of pointing to the few whose innate capacity enables them to compete successfully with the superior race, it would be better to look up the record of the hundreds in whom the natural laziness and thriftlessness of the Red Man have held back in spite of the advantages of even a Carlisle training. During a five years' stay at Pine Ridge, I saw many returned students from Carlisle who could scarcely be distinguished from their unschooled parents in any respect. I have seen them with naked bodies painted. hopping and howling in the Omaha dance: The Indians have been expected to begin I have seen some given opportunities to work which they could not keep through laziness or inefficiency. The oft reiterated assertion that the reservation system is responsible for this will not suffice, as take a wild apple to evolve a Spitzenburg, if these young Indians were placed in any other situation, they would still be held down by the hereditary tendencies of their race which unfit them for regular persistent continuance of a fixed line of profitable. action. The nomadic habits of their ancestors for untold generations have left too strong an impression to be eradicated in one lifetime. In Minnesota and Massachusetts, I have seen Indians living in villages among the whites and whose parents had lived there before them-and who were,-through race prejudice and their own incapacity,-in a condition of poverty and squalor from which they had no ambition to rise. In boyhood I had for a school mate in my native town in Massachusetts, a descendant of King the Pilgrim fathers, and if he had been out. a Chauncey Yellow Robe or a Carlos all their achievements. Education is only a secondary element in the making leged to see art in all its phases, machinof one's destiny; natural ability is the ery and every improvement that the about five hours. Buffalo Track was a ber for her home in Arizona on account of mainspring of success in life. In the world is making. towns of Gay Head and Mashpee, Mass., you will see communities made up entire- pronounced it a grand thing, and he said was a peaceable, harmless old Indian ery, and of her interest in her work at v of Indians, and here,petition with Whites,-those. who are inent men have spoken very highly of it. seem that this wild man from Texas had capable, are fairly prosperous and successful. This goes to show that the res- the Rev. A. F. Johnson, of the Presbyter- blooded murder. ervation system, divorced from the de- ian mission at Pine Ridge, South Dakota, pressing effects of Government rations so you see we are not as bad as some and annuities, is the best condition for would think. the Indian.

Respectfully, JOHN F. MACKEY.

There is much that is true in this letter because it describes conditions as they are, not as they should be.

The Indians have not the push of the white race, it has to be developed. That and bring the school with you. they have the germ to be developed is proven by the fact that many of the returned students do live a plane higher than before they went away.

There are many who might be named who carry out, on the same reservation of Pine Ridge mentioned by the writer of the letter, the ideas they received at the coun- IN that part of it; they are paid to pertry homes in which they lived under the outing system, though they may not be able to use their trades there.

Think of an Indian taken directly from the camp and placed in the edge of a town, with no training to fall back upon; without the power to "hustle" for his place as one must do in a western town especially; his neighbors,-whether cultured or wholly uneducated matters not,having a preconceived notion that the white race is superior and the Indian on great advance guard!

How can he rise? How can he live in any but a slow, evolution-like way?

Now this is what schools are for. They race is capable of taking its place in the show the Indian what is in himself. They ranks of civilized life in one generation. show the white man what the Indian can

at the RED MAN AND HELPER, and mar- terested in the work being done. Race prejudice will keep back a few velat the Indians printing it. I ask them

as the white man. They have no answer for that.

I hope you will come to the exposition Your friend,

PRINCESS CHINQUILLA."

We would not say that the Indians learn must of necessity see much to enlarge feature was the two mile race. The day their knowledge of the world's work.

What we contend is that they are not petuate savagery. If it is commendable to live in the old way that millions may gaze at and wonder over them, why should it not be commendable to live that way all the time, keeping up the old 'picturesque'' customs for the benefit of 17 2-5 seconds. ethnologists, and the entertainment of curiosity seekers?

Indians are men and women!

They live in the twentieth century! They CAN be a component part of the 54 seconds.

The world moves!

Why should any race stand still, or be paid to go backwards.? C.

A BREEZE FROM THE INDIANS OF THE SOUTH WEST

The Breeze is a paper published in In the May Breeze we find:

About 5000 Indians are expected to meet at Buffalo Springs, 18 miles South of Ft. Sill, yesterday June 6th. It is to be a great farewell council. Representa. tives of the Osages, Cheyennes, Arapahoes, Apaches, Poncas, Comanches, Otoes, Choctaws.Chickasaws and Seminoles are expected. The Sioux have been invited to come from Nebraska. The meeting is a farewell to be held just before the opening of the Kiowa and Comanche land, and is held because of the opening of these lands for settlement.

They have been renewing their leases. They no doubt will be riding in automobiles when they renew the next time.

Buffalo Track, the oldest Ponca Indian on the reservation, was shot and killed Sunday evening, April 22nd, east of White nell at the Pan-American Exposition at Eagle near the bridge that crosses the Arkansas river.

There has been about eighty thousand head of cattle unloaded at White Eagle this spring that are received by cow men who drive them into the Osage country. One steer that was crippled died between the stock yards and the river. Buffalo "I am engaged for the Indian theater Track wanted to skin the steer for the meat and started towards it when he was could not understand English he did not stop; then the Texas boy took a shot at hitting him in the abdomen; he lived

Athletics.

Bucknell Won Track Games.

Bucknell University and the Carlisle Indians met here in their annual field and track meet last Saturday. The former won by a score of 53 to 51. The result depended on the last event, the 220 hurdles. Johnson, for Carlisle, would have won nothing good at the exposition; they but fell after clearing the last hurdle. The was an ideal one, the field in perfect condition and the time made was good. Fully 1,000 people witnessed the meet. Summaries:

Track events:

100 yards dash-Won by Beaver, Carlisle; Cusick, Carlisle second. Time, 10 2-5 seconds

120 yards hurdle-Won by Johnson, Carlisle; Glassby, Bucknell, second. Time,

One mile run-Won by Slifer, Bucknell; Metoxen, Carlisle, second. Time, 5. 02 1-

440 yards dash-Won by Cusick, Carlisle; Goodall, Bucknell, second. Time,

Two mile run-Won by Fitzer, Bucknell; Hummingbird, Carlisle, second. Time, 10:50.

220 yards hurdle-Won by Glassby, Bucknell; Johnson, Carlisle, second. Time, 28 seconds.

880 yards dash-Won by Slifer, Bucknell; Goodall, Bucknell second. Time, 2: 20 1-5.

220 yards dash-Won by Cusick, Carlisle; Beaver, Carlisle, second. Time, 24 seconds.

Field events:

High Jump-Won by Theis, Bucknell, and Pearse Bucknell, tie; Moore, Carlisle, second; 5 feet 5 inches.

Shot put-Won by Waletsi, Carlisle; Gillis, Bucknell, second. Distance, 34 feet 6 inches.

Broad Jump-Won by Pearse, Bucknell, Charles, Carlisle, second. Distance 22 feet.

Hammer throw-Won by Waletsi, Carlisle; Gillis, Bucknell, second. Distance. 105 feet 3 inches.

Pole vault-Won by Theis, Bucknell; Rogers, Carlisle, second. Distance, 10 feet 3 inches.

Carlisle defeated Albright at Myers-The Indians are riding in new spring town on Saturday 11 to 2. LeRoy pitched wagons with silver mounted harness. an excellent game and the team supported him without an error.

Indians 20071100-11 16 The Indians played Princeton Wednesday and lost 14 to 0. They will play Cor-Buffalo on Saturday.

The Track team this year has done very well considering that this is the second year we have had a track team, and next spring we should have a team that will easily outclass any of the teams we have met this year. The cage can be utilized during the winter for practice, and many of the boys who started in the spring should develop into point winners next year. The boys have trained faithfully and deserve great credit for their good record.

Refreshing Gratitude.

Interesting Visitors.

Among the distinguished visitors this week were Dr. J. F. Bird, of Fox Chase, and H. B. Harnsberger, Port Republic, Va. They attended Dickinson College together before Colonel Pratt was born. The former, who has been a trustee of Dickinson for 50 years graduated in 1840 and the latter in '41. The two men had not seen employer: each other for sixty years. Dr. Bird said to the student body at dinner that if we stand as straight as he does at his age, 4 and exercising. He is now living with had better not be.' the third generation of those born when he was. He explained how when it was bad weather he did not go hunting, as his companions did. They exposed themselves needlessly while he stayed in and took care of himself. He is living, while companions of his youth are gone. He had always observed moderation in all things. He would have us watch our moral and religious character. The last words of this dear old man were"Be mod-

A Kicking Instead.

It was reported by the Omaha Bee that Dean Fair once said:

"Some men tell us that the world owes them and their families a living. I never in the Native American are interesting. argue with such men because I feel the Miss Luckenbach for a number of years world owes them a kicking, and I wish with us is the "Money Mother" of the some one would do it right off !"

At the anniversary of the Oak Lane Baptist Sunday School last Sunday evening Ida Swallow, 1901, took the part of pianist with excellent effect. One who was there says: "Our anniversary was very interesting, but nothing added to it more than the remarkable playing of the piano by Ida.

We congratulate her and want to add this to it by telling you of her success. She is a quiet, modest unassuming girl, which made her playing the more appreciated. Elizabeth Walker, Juliet Smith thinks the Apaches are somewhat behind and Martha Day were present, and I was glad to see them join so heartily in the exercises. We rejoice with you in your successes. Very Sincerely Yours, Charles L. Kuen, Oak Lane."

School Mates Remembered.

The many friends of Miguel Rivera will be glad to learn that he is recovering his health again and thinks fondly of Carlisle.

In a recent letter he says:

"I remember Carlisle and my dear classmates and wish to be there. I am glad I went to Carlisle. It has helped me a great deal."

Miguel was always a good manly boy, a hard worker, with the best and noblest intentions. His many friends remember him fondly and wish there were more self by the name of Cuban Giants has like him We hope he will soon be been playing good ball of late. Last strong and well, and back to his place in

Revenue From the Saloon.

Put away the saloon say some, and the amount of license money thus turned away from the public treasury must be added to our taxes.

Here is what John Ruskin said about those who profit by the drunkard-making business:

"Drunkeness is not only the cause of crimes, but it is a crime, and if any encour-Mrs. Beulah Betts, of Newtown, Bucks age drunkeness for the sake of the profit derived they are guilty of a form of moral assassination as criminal as any that been received as to the condition of Mr. Friends of Pennsylvania to take into their has ever been practiced by the bravos of

This Year No Race.

When the Kiowa and Wichita reservathe Pennsylvania Hospital has been of ful man, was their first Indian help. tion is thrown open to settlers, the disgraceful race for the plots, which was witnessed at the opening of 1899, in Oklahoma, will be avoided. Then, some one hundred and fifteen thousand persons opening day came, raced on horseback, in wagons, and on foot, fighting and struggling with one another for the desirable farms. This time, the President will specify the method of deciding between applicants in the proclamations declaring the tracts open for settlement.

The Kind of Men who are Employed.

A wise saying is this by an experienced

I always give preference to men who want to learn, because a studious man is wish to grow old as easily as he has, and more attentive to his duties and can be instructed easier than one who does not score years plus 5, we should use moder- care to study, and if a man studies he has ation in all things-in eating, drinking no time to waste about places where he

Much Wisdom in a few Words.

To live content with small means, to seek elegance rather than luxury, and refinement rather than fashion, to be worthy not respectable, and wealthy not rich; to study hard, think quietly, talk gently, act frankly, to listen to stars and birds, babes and sages, with open heart; to bear all cheerfully, do all bravely, await occasions, never hurry; in a word, to let the spiritual, unbidden and unconscious, grow up through the common. This is to be my symphony.

-WILLIAM ELLERY CHANNING.

"The Wanderings of the Money Mother" Phœnix, Arizona, Government School.

WHAT I AM GOING TO DO WHEN I LEAVE SCHOOL.

Number 1.

Nearly four years ago I came to Carlisle to prepare myself for a teacher, or that is what I thought I wanted to be: since I am older and really understand what it means, I haven't changed my mind in the least bit, but it has become stronger and developed more and more. When I become a good Sophomore I would like to begin to practice and keep

on until I finish my course at Carlisle. Col. Pratt's talks have filled me with so much enthusiasm, that I want to become one of the most respectable people of my race, although few of them exist and to do this I know it cannot now; be done by staying home; it must be done by experience, hard work, patience and perseverance. It has been done, and can be done by all who will only make use of all apportunities that come within our reach.

Another idea I have in mind is to see that my brothers get an education, and learn a trade, and not be worthless and be dependent on the government all their lives.

Teachers are not so much needed in America, as they are in our newly connected colonies, and that is where I want to go after fitting myself to hold a responsible position.

EDITH BARTLETT, Seventh Grade.

WHAT I AM GOING TO DO WHEN I LEAVE SCHOOL.

Number 2.

When I leave school I am going to my people.

It is hard after leaving school to look for position in an office or as a teacher in school. One thing I will do is this that I will LAST SENTENCE.

try to lead others into the light. Many things may come to me which I

see is wrong after I leave school, but I will strive to overcome them all, may be the temptations may be strong and then what will I do but try over and over again until I conquer.

The trade I will follow will be dressmaker or music teacher as I said before. EUDOCIA SEDICK, Seventh Grade.

WHAT I AM GOING TO DO WHEN I LEAVE SCHOOL.

Number 3.

When I leave this school, I expect to go home. I expect to learn all I can while I am at school. So that when I have completed my studies, here that I might be fit and able to go out and face the world.

Whatever I may undertake or do I may be able to do my duty and do it well. My most desire is to fit myself for an Engineer. I have had some, experience along those lines before.

When I complete my schooling, then I am going to get in some railroad shop, and work my way up to a good position. Then I will be able to support myself.

As far as I know it is the best trade a going. There will be a demand for good engineers as long as steam power 1s used for running factories, and rail-roads and ocean steamers. So that according to the use and the want of men, I believe I will prepare myself to fill some good place mined; they loose heart and cease strug- Blackfeet, Mont., in place of Nick Green; on some rail road line as an engineer.

I have no doubt but what I can ge place when I am able to fill the place.

WILLIAM WHITE, No. 11.

Just so With Some of our off Days.

A little boy spent the day in the country at his grandmother's not long ago. Such a good time as he had, running and ment with them, a sharp sting comes in racing and shouting for all he was worth! my left shoulder." At last, night came and, tired and sleepy,

the little boy sought repose. "Oh, grandmother," he cried, as he hollered all day long."

WHAT DOES EDUCATION MEAN?

Minot J. Savage, D. D., says in Success: A man may be brimful, running over with facts and information of every kind, and still be a fool.

College graduates are not always educated. Useless knowledge, then, is not educa-

tion. Practical, live, and comprehensive com-

mand of one's abilities, and the full development of one's native resources, constitute the true education.

As an illustration, perhaps I may be pardoned for telling a familiar anecdote that illustrates the point I have been trying to make.

It is said that a man was being carried across a lake somewhere in the Old Green Bay, Wis.; Myrtle Poole, Seam- into a barber shop to be shaved. The World by a boatman, and that this gen- stress, Pawnee, Okla.; Maggie Dorman, barber, not knowing him, asked him if tleman was a puffed-up and conceited scholar and literary man.

He fell into conversation with the boatman, and said to him.

"Have you ever studied philosophy?" When the answer came, " No" he said: Then a quarter of your life is lost. Then he asked:

"Did you ever study science?"

The answer being the same, he replied: "Then another quarter of it is lost. Do you know anything about art?" "No."

"Well, then another quarter of your life is gone."

boat, and the boatman turned and said: "Sir, can you swim?"

"No," came the answer.

"Well, then." the boatman replied, "the WHOLE of your life is lost."
