Geo. E. Roberts, Esq.
President Pennsylvania R.R.
Philadelphia, Pa.

Dear Sir:

I am deeply grateful for your courtesy
in favoring us with passes for our children & our-
selves from Harrisburg to Philadelphia & return, for
our meeting in Association Hall last Monday evening

The deep interest aroused on that occasion on the
subject of educating & training in industries the young
of the Indian race, will, I am sure, be lasting and
creditable to the city of Philadelphia. As a means
of accomplishing the results of that meeting
the Pennsylvania Railroad is foremost.

Dear Sir & Brother.

I am returned from my Phil-
adelphia trip, completely exhausted, but we had
a grand meeting & I am sure the best results will
follow. Association Hall was packed to the ut-
most. Our students all made us proud of their
efforts & every word that was said seemed to
strike a chord of sympathy in the great heart of
those present, entirely in unison with us.

I have your admirably written article, which
as I have read it over, my body filled with pain
has produced the most grateful emotions of

satisfaction ^{and} pleasure, that you have made us so well. It is due to my most excellent Lieutenant, Miss Duple, to make special mention of her services ^{and} I have inserted her name ^{and} hope you will find the space. As we go on in our work the obstacle of having many strange languages is removed ^{and} we now feel glad that it is so, being satisfied that it is helpful in every way in learning the English language, so I have altered that paragraph putting "no" in place of "an" ^{and} removing a few words. Mr. Platt to whom I introduced you is not the author ^{and} I would suggest the removal of the words erased ^{and} the introduction of the words added in the margin. The boy with his hat on in the picture in Miss Irvine's class is named

Kawoodle, he is a son of the old Kiowa Chief
 Parkah, who on his death bed sent his son here
 having known me for many years. An interesting
 incident connected with him I will relate, not
 for publication but for your own edification. After
 Kawoodle had been a number of months his
 health failed & we were very much afraid he was
 going into consumption. Desiring that he might die
 at home which is always requested by the Indians
 if their children get sick I wanted to send him back
 to his agency. The mention of it seemed to distress him
 greatly. He made no reply but in a day or two came
 back to me & told me "I don't want to go home, my
 father said "you go to that Carlisle school & if you learn
 something, learn how to work & make your own living
 as a man." I have not learned anything yet & if
 I go home I do not know anything, if I die, I die at

home just the same as at Carlisle. I stay here
 and learn how to make wagons." I took
 him into the wagon shop and he is now able to
 make all the wood work of one of our spring wag-
 ons very creditably. His health has improved and
 he is a very worthy young man in every way. He
 has recently joined the First Presbyterian Church.

Your article supplies a long felt need. I have
 persuaded that a special edition of 20,000 in pam-
 phlet form would be just what I need at this
 time. What would they cost and what would you
 suggest about the cover. I have just come into pos-
 session of ten thousand names of the best and most
 liberal minded people in Philadelphia. Ex-
 Mayor Fox is chairman of a committee having
 in charge the interests of Carlisle school in
 Philadelphia, and he wants one to be a pamphlet

and send out in that manner. I feel as though
I could not do better and I could use the other ten
thousand in other cities and among other friends.

Please let me hear from you soon on this.

Very truly yours,

My dear Sir:

I am very grateful for the interest you exhibited in our meeting at Association Hall Monday evening & the admirable report you gave of us. My dear Sir:

I inclose you one of our little book-

upon the proposition to make use of vacant mili-
tary posts or barracks for Indian educational pur-
poses, more particularly that you may see the clause
which enters quite largely into our Indian treaties
in which we promise to give them educational priv-
ileges for their children. Please note the argument
of this clause. It is "In order to insure the civilization
of the tribes entering into this treaty the necessity

"of education is admitted" &c. Of course this clause was the product of our own Commissioners to the treaty. It seems very remarkable that a treaty containing such a clause made by such men as General Sherman, ^{or General Anderson} August, Lemoyne, ^{or Gray} ~~Warney~~ ^{of the} ~~Gen.~~ Somborn & Vappan, who certainly knew what the Indians needed most when they were drawing up the treaty ^{&c} which treaty was ratified by Congress ^{&c} approved by the President, thus obtaining the highest authoritative endorsement of the country, should be so utterly ^{&c} &c. &c. neglected in this particular feature. I am quite safe in saying that not ten per cent. of the children of these tribes are now provided with educational privileges of any sort ^{&c} yet the argument we ourselves use, is that this will insure their civilization.

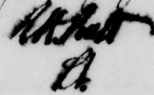

I am particularly obliged to you for the very

influence to secure the passage of the bill
 Although the use of such forts as an vacant

 proportion of the fifty thousand Indian chil-
 dren needing education & believe it to be a step
 in the right direction. There is certainly consid-
 erable economy in making use of buildings al-
 ready erected ^{and} not in use rather than build
 new ones at once. We have adapted the build-
 ings at Carlisle to the uses of an educational
 establishment without any very large expense
 of alteration or repair. The army has long
 wanted to be concentrated into forts of large com-
 mands, now that railroads have afforded such
 rapid transit from point to point because there would
 be great economy in the transportation of supplies

Col. A. M. S. Glun,

Philadelphia, Pa.

Dear Sir:

The editorial on Indian education in yesterday's "Times" is so full of courage & comfort to me that although I am on a sick bed I feel like writing at once & thanking you for it. I sent you one of our little papers which contains a report made by the House Committee on Indian Affairs upon a Bill introduced by Mr. Bond. Inclusion therein is a clause taken from some of our Indian treaties which I particularly invite your attention to. It seems to me that with this legal claim upon us

VOL. 4

there ought not to be delay in this matter of giving
 education to Indian children. In what
 General Giles said on this subject you have the
 only sentiment in the army that is worth listen-
 ing to. The contribution that can be made from
 the army in the way of vacant military posts
 by the detail of a limited number of army officers
 in connection with this matter would certainly sup-
 plement in a very great measure any general work
 the Government might undertake. This would seem
 to be a much wiser disposition to make of our
 vacant military posts and barracks than to let
 them lie & rot or be sold for a mere song to some
 scheming speculator who manages to lobby a bill
 through Congress for their sale. A dozen posts
 are available for this purpose now & should the
 long expressed desire of the War Department prevail

of concentrating our troops into posts of large com-
mands for the sake of economy, many other posts
would become vacant & as our military sites are
selected always with a view to health & to the sur-
rounding resources almost all of them contain with
in themselves all that would be required for suc-
cessful labor schools. Of course if all the vacant
military posts were used they would provide for
but a small proportion of the fifty thousand chil-
dren to be educated. I find that in your great
city of Philadelphia you have one hundred and
thirty thousand children in your public schools -
more than double the number of all Indian chil-
dren within the limits of the United States. Your
plans are so well laid & carried out that a very
small proportion are left without some educa-
tional advantages & your city has all the

expense of it. It does seem contemptible that this great Government with its fifty million people and its vast resources which have grown up upon the soil once possessed by the Indians should be so criminal in withholding what it has promised to do for the Indians in the way of education for their young.

Governor Brand frequently wrote to me in reference to his bill, notwithstanding the very favorable report made by the Indian Committee, there seemed to be no chance to get it through Congress at either of the last two sessions, but he said that he had strong hopes that it would receive careful attention the coming session.

Dear Friend:

Several days illness after my re-
turn from Philadelphia, prevented my acting at
once on your communication, in the mean time
it occurs to me that the object you seek to accom-
plish for eight or ten Indian boys might be carried
out at once, by selecting from our school here.

It has been my desire from the beginning to
have an equal number of the sexes in this school.
But the judgement of the head of the Department
was at one time against me in this matter and then

has been more or less indifferently difficult
 at the agencies since, so that we find ourselves
 about full with more than double as many boys
 as girls. It will not be difficult now to get
 girls enough to equalize our sexes but we have
 not room for so many. Agent Styles of the
 Cheyennes & Arapahos would be glad to send
 us forty more girls. Would it not be a nice
 plan to take from our school here eight or ten of
 the boys from the agencies under the care of your
 body & thus enable me in part to make room
 for more girls? Should you think well of this I
 have no doubt I can very easily get Department-
 al authority. If you still prefer to make alle-
 tions from your agency schools, your letter hardly
 gives a clear idea of what you propose to do.
 My recollection is that you wanted the Government

to give the necessary authority for the children
 to come east ^{to} to pay their way from the agency
 to the school, after that the expenses would be paid
 by the friends. I think something was said about
 the Hyandotte school but I am not clear about
 that. Please write me in full about these points.

Should my proposition not prove to meet your
 views, I will undertake to do what I am able
 with the Department in reference to your wishes.

I have twice written the War Dept. to urge a delegation of children for this school from the surrendered Sioux of Sitting Bull people. They are held as prisoners, and the War Dept. can't act, having no authority or funds, the Ind^l office can't act, because the Ind^l are held by the military, and the office is not yet provided with funds by Congress. As the time to act most effectually, is wasting rapidly.

These Indians are now submissive and pliant, and while so, every child of school age should be taken into school, and every help given to them.

recently desperate men to shorten the chain
they are passing over. Sickness delays may
bring back desperation with its desire for
death. There is much of this among our Indians
now. Their future looks as dark and hopeless.

There will be no difficulty in carrying
out your wishes if you undertake the expense.
I will engage to see that your son gets the
authority to send them on, or rather the permission.
The War Dept. might not feel warranted in even
giving an order for St. Woodbridge, which would
carry with it the expense of his travel. His
leave of absence places him at his own expense

that. The Dept. of the Interior has given

 for several days, we hope the disease is
 spent. Thirteen boys and one girl are in the
 Hospital now with Scarlet fever. The town had
 it three months ago, and I have strictly quarantined
 against it. Poor Hospital accommodations
 operated against us. I turned the farm house

I enclose the doctor's report which gives a detailed account of his sickness & death. I can assure you that every possible effort that could be made on his account was made. We were all deeply concerned about him as soon as his illness took an unfavorable turn & I was present at his bedside very frequently as was also Miss Gumples & others. He suffered a great deal. Paroxysms of pain were so intense that it required a great deal of force to keep him on the bed at times. Please tell his mother that he could not possibly have been as well cared for at any place at the agency

as he was here. ^{and} that it was simply one of those
Providences which we must all submit to.

Willie was very orderly on parades ^{and} by that
means everybody had learned to know him ^{and} to love
his quiet little ways. While it is always sad for
us to report the death of students this case is pecu-
liarly so. Tell his mother that we laid him
away tenderly in the graveyard with the same forms
or ceremony that we do our own dead. We all
gathered in the chapel ^{and} after hearing the Bible
read ^{and} some remarks from the minister we march-
ed to the graveyard where there were additional cere-
monies.

If human sympathy can alleviate the sor-
row of a parent, Mrs. Curley has her full share
in the sympathy we all feel with her in her
loss.

In reply to your esteemed favor of 5th Mo 21st, I have to say that so far as human foresight can determine, the Barracks will never again be used for military purposes, as our highest army authority has declared that because of location they are no longer applicable. Of course no one can say that exigencies may not come involving the use of the dearest and most sacred places, as was the case in our last war. I am very sure that if I am well sustained we can make

The fact our work has not been profitable
for bringing forward the subject of your letter of two

propose - that is, a delegation of healthy girls. I should like too, to get rid of some of our boys. I shall make a report soon to the Department & endeavor to bring about a sifting of the material here, so that we may have only bright & healthy children. Twenty five to forty who are either diseased or too stupid to pay for the effort we expend would be a good reduction. Of course you will get your proportion of these, but I think very few. Grant Hills & is probably a gone case, though he seems rather to hang on & there is always hope. Her lungs don't throw off their load remaining from Pneumonia.

I suppose Alice Lena would rather come towards the beginning of the fall & that would probably be the best time to secure girls. If you think you can get us forty or fifty under fifteen - I would prefer our ten - If you desire to make application to the Department for that number as it is, let me know & I will see what can be done here.

Referring to your letter of June 1st, it seems better to use the regular trains between Philadelphia and Harrisburg for the visiting party from Philadelphia, than if the day is bad it will not interfere. The "Chicago Express" leaving West Philadelphia at nine o'clock, seems to come on the "Harrisburg Accommodation" leaving Harrisburg at four thirty for return. This will give the party two and a half hours on the ground here, I would have preferred an hour longer, but we will make that do.

Dear Sir:

We should be very glad to have you present at our first annual examination which occurs on the 16th instant. Although it is but twenty months since the beginning of our work we hope to show results which will encourage our friends and convert our enemies. Can not you give us the benefit of your editorial observations?

Very truly yours,
R. H. Paul

Dear Sir:

On the 16th inst. we have an examina-
tion of our school - the first in its history. Although
we are only thirty months old we hope to make
a showing that will confirm our friends & con-
vict our enemies. Come up if you possibly can
and give us the benefit of your editorial observations.

Very truly yours,

Dear Sir,

We mailed you a card of invitation to our first Annual Examination, which takes place on the 16th. The arrangements have been hurriedly made in full anticipation of a visit from the President. I would especially like to have you witness the growth of the work since your last visit, and it seems especially fitting you should be present. Would you not honor us with your presence on that occasion.

Respectfully Yours

Dear John Eaton,
Commissioner of Education,
Washington, D.C.

Dear Sir:

I find that I sent you a memo.
and in the same time for the first part I had
my book and if you will see by it that the
note would get into your hands by the
week the date at 3.30 in the evening. I wrote
yesterday to Colonel Lockwood Chief Clerk of the
Interior Department asking if he could come in
your office about the ^{policy} and have a view in the
light that he is shortly to be retired. I dislike
to add an additional burden to your many cares

I for that reason hesitated to ask you to act in the
 matter, but some one in Washington should be con-
 cerned to look out for the details. I arranged
 with Mr. Kennedy, the President of Col. Boyd,
 the Superintendent of the Cumberland Valley R.R.
 for transportation of the inclosed copies which show
 you the satisfactory condition of the affair. It
 seems to me that it would be even agreeable for
 the President to have a parlor car if by the state-
 ment of Col. Boyd, it would seem that it only
 needs the application to get it. Would you not
 see Col. Lockwood yourself if the situation is
 such that he cannot take hold of it, would you not
 make the proper arrangement that would seem
 wisest? Mr. Baker or Parker the Asst.
 Supt. of the Pullman Palace Car Company in
 Washington would doubtless respond at once

if he knew what was desired.

Another little matter, President McCauley of the faculty of Dickinson College as well as most of the students have been our ever-answering friends in all this work. They are very anxious to get a few words from the President on the College Campus if he will view their corps of cadets. As the railroad passes immediately in front of the College it would be only a step from the train to the campus. I am sure the President would be willing to grant this favor if he knew it before-hand. Could you not bring the matter before him, either in conversation or on the way. A half hour would be sufficient time if we can arrange to spare that from his presence with

Yrs.

Dear Sir:

In reply to the cordial invitation of
your Board to myself, teacher of colorists, to visit
the examination of the schools as we did last year,
I have to say that this week we are occupied with our
own examination but that next week of the week
following I shall be happy to make such availment
of the invitation as we may be able to. I thank
the Board for their courtesy in this matter & assure
them that I regard it as an element of our little im-
port to the Indian school that we are permitted to

privilege. The witnessing by our students of the
ideal students of the village pass through is very
helpful to them, and our teachers were exceedingly grat-
ified and much benefited last year by the observations
they made.

Dear Sir,
I have selected Fred
Smith (Walter Rice) a horse boy of
15 for Mr. Mowry and you
(Walter Rice) a line by of the
same age for Mr. Smith. They
get on very well in English
and I am sure will do
well. They came to over
Saturday or so over after as
you desire. Very truly yours,

The basis of employe force
for our school the ensuing year is not
yet fixed by the Dept. but will be in
a few days. I shall make a few
changes, but have many applications.

Your straightforward letter inclines me

Dear Sir

I have some private assurance
that the President intends coming on the
16th, but no positive official notice yet.

The Phila. party will come up on the
regular train leaving Phila at 9 A.M.

As soon as I am informed certainly of
the Presidents coming will notify you, and
if the Phila. party can be brought over
from Bport at same time it would
favor us.

Respectfully yours

Dear Sir:

Through Miss Wilson, I have received a check for \$50. from the Connecticut Association of your Sunday School. I desire to express my sincere thanks to the Association for this substantial proof of their interest in the work of this school. It comes at a very opportune time for I am now making an effort to obtain through private benevolence funds for enlarging the building occupied by our girls. Our present proportion of girls is only one third the number of boys. We feel that the success of this civilizing effort depends more even upon lifting up the girls than the boys. At the

VOL. 4

beginning of our school it was impracticable to obtain as many girls as boys. In the Indian camps the burden of heavy labor comes upon the women. They are "the hewers of wood & the drawers of water" so that girls are reluctantly spared, added to this is the perhaps stronger reason of their merchantable value. Indian girls are considered marriageable at a very early age. It is the custom for the future husband to give to the girl's father in exchange for his bride, knives, robes & other valuables, often to quite a large amount. As the constantly increasing pressure of the whites upon the Indians is making them realize the imperative necessity of a different mode of life, their sentiments are becoming changed & they are growing willing to have their girls educated too. Many applications have come to us for places here for girls, but we have been compelled reluctantly

to reject them for lack of room. The Department has been unable to aid in this emergency because the funds available for the work are very limited.

I have therefore undertaken to raise the necessary sum through appeals to those interested in saving the Indians. The gift of your School will be applied to this object and I hope that before many months the addition will be completed and the number of our girls made equal to that of the boys.

I cannot refrain from speaking of the excellent aid Miss Wilson has been in our work here.

Through the trying months of sickness in our school of scarlet fever and measles, she has been patient, efficient and tireless.

Very truly yours,
R.H. Hall

Dear Doctor:

Excuse the hand of my clerk.

My own conviction about the boy you mention would be that the best education & advancement could be made in a school where he would be surrounded by civilized children. We can take him here & I have no doubt the Department will authorize me to do so upon the proper presentation of the case. I will do this if you think best. The average expense of our pupils is about \$200. per annum. This the Department would probably require in his case as he has no claims whatever upon our Government

for support.

I have an excellent matron in charge
of my little boys & should feel that he would
receive as good attention as maternal can as
could be given in such a large school.
